

ed, our mills being supposed bare of stock. Fleece is quoted at 21 to 22c. for ordinary combing and 23 to 25c. for Southdown. Pulled combing is nearly nominal at 19c., with 21 to 22c. for super and 27 to 29c. for extra, according to quality.

BRITISH MARKETS.

From the December Metals Circular of Henderson & Glass, whose representative in Montreal is Mr. D. C. Barker, we take the following: Iron.—The demand continues brisk. Most of the works will now be closed till the end of the year for repairs and stock-taking. The books are well filled with specifications, and the new year bids fair to see further extensions in all descriptions of iron. Tin has given way in price some £3 per ton, but shows signs of recovering. Tin-plates.—There has been more doing during the last month, and there is a feeling that the bottom is touched; certainly, if the agitation among the men for better wages succeeds, we shall see improvements in value. Zinc sheets quiet. Spelter.—The market has declined some 10/ per ton. Copper steady. Pig lead has experienced a

considerable fall in price, the reason of such being, no doubt, on account of the heavy stock held. Linseed oil.—No change. Freights.—From Liverpool to Montreal, via Portland, 25/ and 10% per ton, and to Toronto, Hamilton, Guelph, and London, 5/ to 10/ per ton extra, with primage according to classification. Tin-plates from South Wales 2/6 and 10% more. To Halifax, N.S.—On ordinary weight 17/6 and 10%; tin-plates, 20/ and 10% per ton. To St. John, N.B., via Halifax, 22/6 and 10% per ton.
