

along offered to publish in the Journal free of charge, if sent to us for the purpose.

The mere announcement that Mr. so and so has received a patent for *such* and *such* an invention, is not sufficient in itself to interest the public in it. An illustrative picture at once arrests the attention; and if there is *anything* in it, it will thus most likely be discovered, and a practical use be made of it. The hint is again thrown out for those most interested.

GRAMMAR SCHOOL TEACHER WANTED.

WANTED, a Teacher, for the classical department of the ——— Place Union Grammar and Common School; salary \$500. Applications will be received till 31st inst.

Ho! ye graduates of Universities, who have spent probably the best portion of your days, wearying yourselves it may be over the midnight lamp, and undermining your health in obtaining academic honours, now is your reward nigh at hand. What if, as the sons of poor but ambitious Farmers, Mechanics or Labourers, some of you have been enabled to maintain your position until graduating at the age of from 20 to 25 years, without having had any returns for time and capital expended in your education? That time has passed by, and your future labours in "teaching the young idea how to shoot" shall be abundantly recognized. \$500 salary per annum as classical teacher in the ——— Union Grammar and Common School! What liberality! Had your parents educated you to some mechanical business, and you had become equally skilled in it as you now are in Latin and Greek, you might indeed have been more liberally paid; or had you been fortunate enough to have secured the position of porter in some good mercantile house, it might have been far better both as to your health and your pecuniary reward; but as a classical scholar, who has honourably won distinctions in the chief educational establishments of the land, be content with "salary \$500" per annum—it might be much worse. If you give entire satisfaction to everybody, especially to the trustees of the school and the parents of the pupils, you may yet attain the honourable position offered to some one aspirant candidate, in the following clipping from the *Globe* of the same date:—

WANTED, for the ——— Union School, a Grammar School Teacher, to commence after the Christmas holidays. Applications with Testimonials, will be received until the 25th instant. Personal applications preferable. Salary—\$600 per annum.

Only think of it—the privilege granted of making a personal application; and should you fail to obtain such a desirable advancement as \$600 annual salary would give, you need not retain or go

back to your \$500 position—that is, if you are of stout build, 5 ft. 10 in. or upwards in height, and of good moral character—the Toronto City Police Force is open to you, in which you would be equally well remunerated.

We advise you not to refuse to accept appointments in the schools to which the above advertisements refer, if you can secure them; for only one gentleman can possibly attain the \$750 a year salary offered in the next slip, also cut from the *Globe* of the same date. Here it is:—

APPPLICATIONS will be received by the undersigned for a Teacher for the Port ——— Grammar School up to the 28th inst., salary—\$750. Testimonials, &c., to accompany application.

Should we notice in the daily press any offers of salaries in advance of \$750, we will call attention to it on the first opportunity.

Seriously—these offers are insults to capable men, and a disgrace to our Province.

OUR EXCHANGES.

The Trade Review.

We beg to call attention to the advertisement of this ably conducted Trade Journal. Its valuable statistics, trade circulars, reports and well written articles on almost all matters pertaining to the business of this Dominion, stamps it as a work that should be in the counting room of every business man.

Another of our valued exchanges is

The Grocer—

a weekly *Trade Journal*, which circulates extensively amongst Grocers, Oil and Colormen, Provision Merchants, Manufacturers, and General Merchants throughout the world. It contains Prices Current, Latest Market Reports, &c., &c. In the Advertisement pages are Price Lists of many of the principal Wholesale Houses and Manufacturers, and other important information.

The Oil Trade Review

is also presented to the subscribers to the *Grocer*, once a month. It is wholly devoted to the Trade which it represents: petroleum and other oils. Articles are also given describing the various modes of Manufacturing and Refining; the Current Trade News, Prices Current, Patents, &c. Subscription to the two papers is 20s. sterling per annum, or the *Oil Review* alone 5s. It is published by H. S. Simpson, Monument Yard, London, England.

Morgan's Trade Review

is a monthly publication devoted exclusively to the interests of Merchants and Traders resident out of England. It contains current values of the various exports in the home markets, together with market values, descriptions and prices of articles adapted
