Toronto Stained Glass and Graphic Arts has been creating distinctive stained glass window hangings since 1979. We have become known internationally for our realistic depictions of wildlife in the medium of glass enamels fired onto glass.

Our birds, butterflies, flowers and endangered species are drawn with integrity and accuracy. Each piece is produced with materials which have been traditional to stained glass craftsmanship for hundreds of years. Many of our designs are available with inspirational quotations.

Crafted by artisans who take pride in the quality of their work, our window hangings appeal to customers who appreciate nature and things of the earth. Our products are sold in gift boutiques, department stores, museum shops and mail order catalogues specializing in nature-related items. Products are individually boxed and are suitable for direct mailing.

Custom design work for corporations, institutions and government clients is also a Toronto Stained Glass specialty.

Nature depictions come to life with internationally recognized stained glass window hangings.

President**

The focus of Trails West Galleries, since we were founded in 1985, has always been to represent only the finest of Western Canada's vibrant artists. Their work range from beautiful and evocative mountain landscapes to exciting depictions of working cowboys branding spring calves.

Trails West Galleries offers original oils, pastels, watercolours, pencil drawings, bronze sculptures, mouth blown glass and hand carved decoys. All work is either one-of-a-kind or in very limited "hands-on" editions.

We have emerged as Calgary's largest fine art gallery, and have proven to be an excellent source of authentic western wildlife and regional art for discriminating collectors.

The exciting works of Western Canadian artists are presented in a variety of media for discriminating collectors.

Tri-Mate Industries Inc.

Tri-Mate began manufacturing inflatable products in December, 1986. We are new to manufacturing, and our innovative products reflect this fact.

Our first item was TAN-EZE, an inflatable sun tanning pillow, designed and patented by Tri-Mate. Totally unique, it has the capacity to capture world markets. BUNS-OOH! is an inflatable cushion which provides grateful comfort when sitting on hard surfaces.

Our water aids for children, neck pillows for travelling and resting, and our hospital cushions are all constructed from top quality Canadian materials in Saskatchewan.

Tri-Mate is constantly expanding its line of inflatable and vinyl items to provide giftware retailers with exciting new items. Speedy deliveries are assured. Personalization of products can be readily accommodated, and Tri-Mate will undertake specialty production for other companies.

Our products are ideal as fund raisers, promotional and advertising gifts and sales incentives.
