

29  
January  
Twelfth  
1922.

C. B. Fraser, Esq.,  
Secretary, Students' Council,  
McGill Union.

Dear Mr. Fraser:-

As a result of yesterday's meeting in Mr. Beatty's office the meeting of the Board of Governors of McGill called for to-day has been postponed.

Mr. Glasco is arranging for a joint meeting to be attended by the Gymnasium Building Committee, the Physical Education Committee, and, we hope, by those members of the student-body who joined in support of the resolution of the Students' Council. I think they were the heads of all the athletic clubs. Mr. Glasco will notify you as to time and place, but it will probably be next Monday afternoon.

May I suggest, Mr. Fraser, that when the Students' Council pass resolutions in future, to be forwarded for the consideration of the Board of Governors, they do not give these resolutions to the press before they are received by the Board. I think you will always find that the Board of Governors are at all times anxious to give the most kindly consideration to any representations which the student-body would feel were in the interests of the University, yet it might end in the resolutions passed by the Students' Council not being agreed to, and any agitation which might take place in the public press before the Board had considered the resolution would not help in promoting harmony and esprit de corps.

Yours faithfully,

Principal
