Special Toronto... BLEEP... TURNER THINKS... Theory That Second Explosi... Was Internal Support-... ed by Experts... Foe's Hidden Purpose... Seek to Divert Destroyers... From Operations as Part... of Fleet.

LONDON, May 10.—The Cunard... Line steamer Lusitania, which... sunk last week off Old Head of Kin... was struck by one torpedo, according to the... testimony of Captain Turner of the... steamer, given today at the coroner's... inquest at Kinsale. But this deadly... missile found a vital spot and sent... the liner to the bottom in less than... twenty minutes, carrying with her... over 1000 souls.

The cause for the heavy loss of life... the absence of any naval escort for... the threatened vessel and the sudden... ness with which she sank afford... room for much speculation. Captain... Turner in declaring that one torpedo... did all the damage, said the second... explosion which the passengers heard... was an internal one, and that the... engine having been put out of com... mission it was impossible to stop the... Lusitania and permit of her boats... being lowered properly.

The idea of an internal explosion is... supported by naval experts, who point... out that if the torpedo had exploded... in contact with the steamer it would... have only been disabled, or had one... or two of her compartments flooded... It is evident, however, they say, that... if the torpedo penetrated the hull... and exploded, it would have created... an effect similar to the explosion of... a magazine within a ship. There is... little wonder, therefore, they say, that... the Lusitania sank so rapidly or that... so many persons were killed by the... fumes of the explosive.

On the question of why no naval... escort accompanied the Lusitania, Mr... Churchill explained in the house of... commons that the policy of the admiralty... is that merchantmen must look... after themselves. This policy was due... to the fact that the admiralty had not... sufficient destroyers to escort all... merchant ships, they being required to... guard the continuous stream of trans... ports from England to France, and to... protect the English east coast from... German raids.

Will Not Divert Destroyers... Naval observers are of the opinion... that the use of destroyers for the... protection of shipping is probably what... the Germans are trying to force... England to give, but they say that the... admiralty, with its eye first on the... navy and military needs of the country, will... not divert its ships to other purposes... except in the most extreme of... circumstances, however, express the belief... that a steamer that is particularly... threatened with destruction should be... especially protected, and that... convoys doubtless will be further... discussed in parliament.

All this discussion, however, has not... lessened the anger of the Lusitania... action of Germany, which resulted in... the loss of so many lives of non-... combatants. In some towns where... there are considerable numbers of... military rioting has occurred, while... more business men have decided to... exclude all men of enemy countries, and... to naturally increase the feeling of... German descent from the exchanges of... the country.

Another effect of the sinking of the... Lusitania has been to boom recruit... ing in the army.

His presentation, submitted to the... grand jury yesterday afternoon, the grand... jury said that their duties had greatly... increased, both in time and importance... and that it was unreasonable to expect... their original expectations and that they... were also greatly impressed by the grav... ity of some of the cases with which they... had to deal. With regard to cases of... offences against little girls, we advocate... the use of the lash," and gave it as their... opinion that the... would have a wholesome effect... and leave an impression on the minds of... the offenders not to be communicated in... any other way.

and also deplored the use of razors... and knives by foreigners, and urged... domestic punishment to stamp out... the practice. They urged that a visiti... ng room should be placed at the Children's... shelter.
