JOHN CATTO & SON
55 TO 61 KING STREET EAST,
TORONTO.

CARBOLIC ENDS LIFE
Clerk, Said to Be Short in Funds,
Found Dead.

Worried by business trouble, Fred Brookhill, 40 years, a clerk employed by the law firm of Singer & Singer, in the Kent Building, with whom he was said to be short a considerable sum, was found dead in his bed at 45 Cecil-street last night at 6.15, by Sidney Chesire, another roomer in the house. An empty bottle of carbolic acid was found beside him. Brookhill was an English attorney's clerk and had a wife and two children living in Montreal. It had not been seen for some time before he was found dead. The body was removed to the morgue. An inquest is unlikely.

PREFERENCE FOR CANADIAN PULP.
WASHINGTON, Dec. 28.—(Can. Press).—American pulp and print manufacturers are bringing pressure to bear upon President Taft to induce him to refuse to yield to the demand of certain European governments for the free admission of their pulp and print paper on terms of equality with the Canadian product. The disposition of the administration has been to let this matter be determined by the courts, but as this involves long delay, the diplomatic protestations by the means satisfied and are adopting measures to show their resentment.

VACUUM CLEANING FOR MINES.
The vacuum-cleaning of coal mines is a new idea for preventing risk from dust, which explosions are often caused by. An electrical firm has devised a special machine, which includes a jet of compressed air for raising the dust from every crevice, with a bell-mouthed suction tube behind the air-mixer, and a separate motor for driving the dust suction. A single electric motor drives both the suction fan with drawing the dust and the small pressure jet which produces the jet—Popular Science Sittings.

BENT BY THE SUN.
The towering Washington monument, said as it is, cannot resist the heat of the sun, poured on its southern side on a midsummer's day, without a slight bowing of the structure, which is rendered perceptible by means of a copper wire 1/4 feet long, hanging in the centre of the structure, and carrying a plummet suspended in a vessel of water. At noon in summer the apex of the monument, 555 feet above the ground, is shifted, by expansion of the stone, a few hundredths of an inch toward the north. High winds cause perceptible motions of the plumbet, and in still weather delicate vibrations of the crust of the earth, otherwise unperceived, are registered by it.

THE WEATHER

OBSERVATORY, TORONTO, Dec. 28.—(5 p.m.)—Decidedly colder weather has prevailed to-day (Friday) Canada, with temperatures much below zero in the western provinces. The disturbance has now passed over Newfoundland.

Minimum and maximum temperatures: Atlin, 18 below—6 below; Prince Rupert, 14—24; Victoria, 35—40; Vancouver, 34—38; Kamloops, 10—24; Edmonton, 24 below—24 below; Winnipeg, 24 below—24 below; Port Arthur, 12 below—20 below; Port Huron, 20—20; London, 4—23; Toronto, 13—25; Ottawa, 10—20; Montreal, 8—10; Quebec, 4—10; St. John, 14—24; Halifax, 18—34.

Probabilities.
Lower Lakes and Georgian Bay—Fair and cold.
Ottawa Valley and Upper St. Lawrence—Fair and decidedly cold.
Lower St. Lawrence and Gulf—Strong northerly winds; fair and decidedly cold.

Maritime.—Strong northerly winds; fair and decidedly cold.
Superior—Northerly winds; fair and decidedly cold, but some snow flurries.
All West—Continued fair and cold weather.

THE BAROMETER.

NORWICK—At her late residence, 27 Boswell avenue, on Thursday, Dec. 28, 1911, Mary, widow of the late Henry Norwick, in her 63rd year.
Funeral Monday, Jan. 1, at 2.30 p.m., to Mount Pleasant Cemetery.

WILSON—At Gravenhurst Sanitarium, on Dec. 28, Miss Cleveland (Cleve) R., beloved wife of Oliver E. Wilson, aged 27 years.
Funeral from his father-in-law's residence, 52 Oak street, on Friday, Dec. 29, at 3.30 p.m. Friends and acquaintances please accept this intimation.

KILLED ACCIDENTALLY.
That John E. Pickett came to his death accidentally was the verdict returned by Coroner Singer's jury yesterday afternoon. Pickett, according to Motorman Gatward's evidence, stepped in front of a Dupont car on Friday last from behind a hydro-electric manhole cover and was thrown to the ground before the motorman had time to reverse the power. He died of a fractured skull.

TORONTO SHOULD CREATE METROPOLITAN DISTRICT

Would Assure Proper Planning of City's Outlying Districts—Civic Improvement Committee.

The civic improvement committee, which was created by the city council in February, 1909, has issued a report of their findings. The report says in part:

The legislature should be asked to create a metropolitan district, with the necessary machinery to put in operation the securing and laying out of new roads which shall co-ordinate with and supplement existing streets, thus forming additional arteries.

Pertinent to this question is the following quotation from the third annual report of the traffic branch of the London Board of Trade:

"The time lost daily by millions of people through insufficient road accommodation is alone equivalent to a loss of money, which, the impossible to estimate with accuracy, must be very large. It should therefore be borne in mind that the longer the improvements are postponed, the more costly they will be."

PREMIER YUAN MAY QUIT CALL FOR MONEY FAILS

Chinese Princes Decline To Back Losing Cause and Rebels Are Contemptuous.

PEKIN, Dec. 28.—(Can. Press).—The assembly in the palace to-day to discuss the revolution, was productive of at least one dramatic incident. The dowager empress, the premier, Yuan Shi Kai, and the princes of the imperial clan were present and the debate waxed so warm that finally Yuan Shi Kai arose and offered his resignation. This, however, was refused.

Premier Yuan Shi Kai explained to the princes that he could continue the government and retain the country north of the Yangtze only by having funds placed at his disposal. He asked the princes to empower him to secure money. He explained that \$100,000 would meet the payments for the soldiers for five months, after which the south would become disunited and province after province would return to their allegiance to the throne.

Cling to Wealth.
But the princes were unmoved. They pleaded lack of money, although most of them are very wealthy. None has an income of less than \$100,000 a year. The dowager empress, the premier, Yuan Shi Kai, and the princes of the imperial clan were present and the debate waxed so warm that finally Yuan Shi Kai arose and offered his resignation. This, however, was refused.

WOULD THE SUBWAYS PAY?

THEY WOULD—THEY DO IN N. Y.

The Tube in New York Pays 14 per Cent. Gross and Over 8 per Cent. Net on Investment—In 45 Years Earnings of One Would Build Three More Completely Paid for Tubes.

"In subway matters New York City has followed a policy which, in certain particulars, is far in advance even of the Chicago settlement ordinances. The subway now in operation will become the absolute property of the city after a term of years without a penny of taxes having been levied to pay for it, outside of the current expenses of the rapid transit commission that designed it and supervised its construction. Yet even this arrangement has proved astonishingly improvident. The subway with its equipment has cost in round figures 100 millions of dollars. The city contributed its credit for somewhat more than half of this amount, while the operating company has put in the rest, for equipment and as a contribution toward the construction cost of the Brooklyn extension. The subway is now earning a little over 14 per cent. gross and about 8 1/2 per cent. net on the entire investment. The share of the capital contributed by the city is taken care of by a rental that includes interest on the city bonds plus 1 per cent. for sinking fund. Under this arrangement the city bonds can be paid off from the accumulations of the sinking fund in less than 45 years. Meantime the company is earning on its own investment the average rate for the entire capital plus the surplus profits accruing from the city's share over and above rental, making 16 or 17 per cent. in all. Here is the point. Under its lease the company is not bound to build a rod of extension or to operate a rod if built by the city. The present subway has been inhumanly overcrowded for years. The city has been hard pressed by its debt limit, and for three or four years subway construction was practically at a standstill. And yet the present subway is earning enough money so that if interest and sinking fund charges at the city's rate were allowed on the entire investment and the balance of the profits were put into a separate sinking fund and were permitted to accumulate, within 45 years not only would the present subway with the entire equipment be paid for out of earnings, but an additional fund would be accumulated sufficient to build and equip three or four more subways of equal cost without the necessity of borrowing a dollar on either public or private credit or of levying a dollar of taxes for the purpose. That would mean at least four subways fully equipped and paid for at the end of 45 years.

And this applies particularly to visitors in the city, whom we cordially welcome in our fur showrooms.

10 STOREY BUILDING FOR USE OF TRAVELLERS
Proposal Comes Before Commercial Men—Would Cost \$250,000—Local Option Discussed.

A ten-storey building to cost \$250,000, and to contain sample rooms, billiard parlor, dining rooms, bowling alleys, and so forth, for the use of commercial men of the province, was one of the propositions brought before the Commercial Travellers' Association at their annual election of officers, in St. George's Hall last evening.

James G. Kane, the second vice-president, presented a report from the building committee, and submitted plans for the proposed building, which were laid over, to be dealt with later. After considerable discussion the by-law changing the annual mortuary benefit from \$50 for 20 years to \$60 for 15 years, was passed.

A petition asking the government to support a commission to look into the hotel accommodation of the province, particularly that of the local option districts, was circulated at the meeting. For signature. No action was taken by the meeting as a whole, although it was discussed.

The following are the results of the election: President, R. Gammel (acc.); first vice-president, S. Sterling; second vice-president, James G. Kane; treasurer, E. Fielding; secretary, James Sargent; directors, Toronto branch, G. Wright, E. J. Zimmerman, C. Dutton, C. J. Fulton, C. J. Silver, A. Cook, W. H. Scott, J. W. Charles; Hamilton branch, A. F. Hatch, E. Zimmerman, Charles Smith, H. G. Wright, G. Wright, Kingston, W. H. Graham, W. T. R. Murch; Guelph, H. Thompson; Berlin, M. J. Moody.

ARSON IS SUSPECTED
Mysterious Blaze Near Tavistock Base for Enquiry.

WOODSTOCK, Dec. 28.—(Can. Press).—An examination, which may develop some sensational features, is in progress at Tavistock. It is in connection with the burning of George Patterson's barn near the village. A year ago Mr. Patterson's barn was burned and he got the insurance. In October the new barn was fired, apparently by someone and almost at the same moment flames broke out in a neighbor's barn. Both were "juicy." The West Zorra Insurance Company refused to pay the insurance on Patterson's barn until an investigation was held.

The evidence to-day was directed towards the tracing of Patterson's movements on the night of the fire. Crown Attorney R. N. Ball was present on behalf of the crown and the insurance company and Patterson are represented by counsel. There are 20 witnesses to be examined and the case will not be completed before tomorrow.

MGR. BELLO BANISHED.
LISBON, Dec. 28.—The government has issued a decree banishing for two years Mgr. Anthony Mendes Bello, the patriarch of Lisbon, the Bishop of Guarda and the administrator of the diocese of Oporto, from their respective districts. The ground on which the banishment is based is persistent opposition to the organization of cultural associations.

It was reported recently that the government would prosecute Mgr. Bello on a charge of conspiring against the government. The name of the patriarch of Lisbon has frequently been mentioned in connection with the creation of new cardinals, it being thought that he was likely soon to receive the red hat.

BAPTIST EDITOR FAVORS VIADUCT.
I am in favor of the Bloor-street viaduct, said Rev. Dr. McKay, editor Canadian Baptist, to The World, yesterday. I consider all hardworked citizens should vote for it. It is a necessity and is bound to come. I am quite willing for you to quote me as saying it.

Nine Below in Minneapolis.
MINNEAPOLIS, Dec. 28.—With unusually low temperatures in all parts of the northwest and Canada, the weather of the season was recorded here to-day when the thermometer reached 9 below zero.

A temperature of 20 below is predicted in the next 24 hours.
