It is doubtful if there is such another store in America. This store will be conducted by the City of Toronto. It will be the headquarters of the Toronto Hydro-Electric System.

DICTIONARY ANNOUNCEMENT

Owing to the avalanche of last-minute mail orders for THE WEBSTER'S NEW ILLUSTRATED DICTIONARY, out-of-town readers will kindly exercise a little patience, as it will be some days before all the books can be despatched. The success of the Dictionary distribution by THE WORLD is perhaps the largest for any one single book that has ever been reached in Canada. Over 15,000 were distributed, and we have yet to receive any adverse criticism of the book or the method of distribution. Any delay in the delivery of the books was occasioned by the enormous demand, which exceeded our most sanguine expectations, and was due largely to the failure of the railway companies to make prompt delivery.

THE WORLD acknowledges receipt of hundreds of letters containing words of commendation for the Dictionary, and thanks to ourselves for giving our readers an opportunity to secure what was practically a free gift dictionary. This, however, only goes to show that THE WORLD is a live, up-to-date newspaper, and if you want to be in on all the good things, become at once a constant reader of Canada's energetic daily newspaper.
