Londoners Who Witness Wonderful Drama Are Ardent in Their Praise.

The second great picture produced D. W. Griffith as a result of his trip to Europe was at the Majestic Theatre this morning at the Majestic Theatre this morning before Manager T. W. Special interest attaches to the fact that Robert Harron, the hero of the other picture, is egain the central figure of "The Great Love," and he appears as a member of ine Canadian army. Added to the cast is Henry B. Walthell, who has returned to the Griffith forces, his last previous at the Griffith forces, his last previous and to the Griffith forces, his last previous and the consent of ratepayers is necessary before engineer's department has completed the repairing of the Talbot street brick pavement. while "Hearts of the World" was the most stupendous war production ever staged, "The Great Love" is a drama of the intrigue that Britain has been forced to fight since the declaration of war. It is entirely different in theme and spirit from the other picture, yet it ranks in the same class so far as acting and production skill are concerned. It leaves nothing to be desired, having been the creation of the master of his art.

House Will Be Packed.

The group of Londoners who witnessed the picture this morning are loud in their praise of it, and cartain that every performance will be crow-led during next week. Manager Logan, having seen the picture, could only say that his hope was that the patrons of the theatre which is offering a wonderful range of the world's greatest productions should come early when "The Great Love" appears. It is the sort of a war picture that will have an instantaneous appeal to Canadians, and capacity business is conceded.

At least two bylaws will be submitted to the electors of London at the next municipal election. Both are of wide importance to the citizens at large. Perhaps the most interesting deals with commission government, which the ratepayers voted in favor of last year. A definite policy in regard to the form which this government is to take is now being worked out. Controller J. M. Moore is the leading spirit in this. Just how far progressed the plans are is not known, but it is likely that a meeting will be called at an early date to deal with the matter. It is believed that two or three plans will be formulated and the ratepayers asked 10 make a choice.

and Italian armies, with the British and Greeks sweeping over the strongest defences in the Lake Dolran region, and with their railroad communications virtually destroyed, the Bulgarian, Austro-Hungarian and German armies on the Macedonian front have begun a retreat which seems to threaten disaster.

Over a front of over 90 miles the Teutonic allies are streaming back in disorder which is said to be indescribable. On the west they are trying to reach Prilep from the vicinity of Monastir, but Prilep is outflanked by the advancing Serbians, who are now marching upon the city. The railroad from Uskub to Saloniki, running along the Vardar Valley, and forming the chief artery of communication for the Bulgarian forces around Lake Dolran, has been cut by the Serbians, who have crossed the Vardar. In the centre the enemy resistance appears to be completely broken, and the French and Serbians are moving northward at a rate which indicates the absence of any organized resistance. The disaster which threatens the Teutonic armies on this front is one which may change the whole complexion of affairs in the Balkans. The enemy armies appear to have been split in twain and forced to retreat northward over mountain roads, which are, in the majority of cases, merely paths.

There is every reason to believe that the Turks in Palestine are in a position similar to that in which the Teutonic forces in Macedonia find themselves. Advancing British, French and Arab forces appear to have enveloped a large portion of the sultan's armies and to have broken the resistance of those which were not trapped along the Jordan by the rapid progress of the Allies along the coastal region.

St. Quentin, the centre of the Hindenburg line between La Fere on the south and Cambral on the north, appears to be doomed. French units have reached the Oise River, between Vendeuil and Travecy, while the British seem to be in a position to launch a blow along the line to the north of the city, which will make a German retirement

line to the north of the city, which will make a German retirement from the place imperative. Already St. Quentin appears to have lost its tactical value to the Germans. The Somme Canal, one of the integral parts of the city's defences, is now under direct fire of the Ailled guns, while the railroad lines must be under constant bombardment.

British Hold All Gains.

Northward along the line the British have made a new advance at Epehy, west of Cambrai, but the fighting here has not taken on the savage character of that further south. German counter-attacks have been repuised by the British, who fighting.
While the fighting on the Alsne front has not been as spectacular as that further north, the French are maintaining their pressure against the German positions just to the west of Chemin-des-Dames, the

CHANGE OF WATER CAUSED DIARRHOEA

People moving from one place to another are very much subject to diarrhoea on account of the change of water, change of climate, change o diet, etc., and what at first appears to be but a slight looseness of the bowels sunk by the steamer Midvale in the should never be neglected or some seri-

The safest and quickest cure for diartempt and after the expenditure of rhoea, dysentery, colic, cholera infantum, cholera morbus, pains in the stomach, seasickness and all looseness of the bowels is Dr. Fowler's Extract of Wild

Strawberry Mr. T. T. Allard, Parry Sound, Ont., writes: "In the fall of 1914 I was working on the new 'Chiclet Gum' factory, Carlew avenue, in Toronto, when I had a violent attack of diarrhoea, owing, I think, to the change of water. One of the foremen advised me to get a bottle of Dr. Fowler's Extract of Wild Strawberry, which I did, with the result that I hadn't taken it all before I was completely cured."

Dr. Fowler's Extract of Wild Strawberry has been a national remedy for the past 72 years, and is sold by medicine dealers everywhere at 35c a bottle. Don't let anyone palm off a substitute on you. When you pay your money for the genuine, you've a right to get it. Put up only by The T. Milburn Company, Limited, Toronto, Ont.

HORVATH'S TROOPS ORDERED TO JOIN SEMENOFF'S FORCES

Ultimatum Issued by Siberian Government at Omsk.

Harbin, Manchuria, Friday, Sept. 20. -(By the Associated Press).—The Siberan Government is reported to have served an ultimatum on the troops commanded by Gen. Horvath to disband or join the forces of Gen. Semenoff, the anti-Bolshevik leader, in Trans-Baikalia. The Siberian Government referred to probably is that at Omsk, which recent-ly declared war on Germany. It is probable that the ultimatum is an order combining the commands of Horvath and Semenoff, both of whom have been active against the Bolsheviki from bases in Manchuria.

RAILWAY STRIKE IN **LONDON SPREADING**

Electric Line Cars Used by Suburban Residents.

London, Sept. 24.—Parts of the London district served by the Great Northern Railway were affected by the spread of the railway strike this morning. Few trains arrived at the Paddington station, trains arrived at the Paddington station, which was almost deserted. Passengers on local trains had to seek transportation on tram cars and electric trains to get into the city.

The service on the North London Railway was suspended in consequence of the strike of the drivers. It is feared that the trouble will seriously interfere with the transportation of goods, this line having traffic arrangements with line having traffic arrangement other railways serving the docks.
