WATCH YOUR GUMS-Medical science knows how serious

is the sign of bleeding gums. For it knows that tender and bleeding gums are the fore-runners of Pyorrhea, that dread disease which afflicts four out of five people over forty. If the disease is unchecked, the gum-line recedes, the teeth decay,

loosen and fall out, or must be extracted

to rid the system of the Pyorrhea poi-

sons generated at their base-poisons which seep into the system and wreck the health. They cause rheumatism, nervous disorders, anaemia, and many other ills. To avoid Pyorrhea, visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhea or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy-the teeth white and clean. Start using it today. If gum-shrinkage has already
