The Toronto Electric Light Company

Continued From Page 8.

Sir Henry Pellatt, President, Toronto Electric Light Company, Limited:

Dear Sir,—In response to your request that I make an estimate of the cost to the City of current delivered to consumers, under the proposed Civic power plan, based on the experience of other large distribution plants, I beg to give you herein my conclusions, after a very careful investigation into the subject.

You already have the estimate worked out on our own figures. I have, therefore, endeavored to secure information from companies operating in other large cities, but find in the majority of cases that this information is not made public.

I have succeeded, however, in securing the printed report of the Municipal Plant of the City of Glasgow, 1906, and a very comprehensive report issued by the Mayor of Detroit in September last, giving the findings of an electrical expert appointed by the City of Detroit to investigate and report on the operation, etc., of the Detroit Electric Light Companies.

In estimating operating expenses, etc., I have used the average of the showing in these two cities. This, I think, is more than fair to the Toronto proposition, as it places Toronto on the same plane as that attained after fifteen years of operation by the City of Glasgow, admitted to be the finest municipally-operated plant in the world, and with what is looked upon as one of the most up-to-date and best managed private plants on this continent—the Edison Illuminating Company of Detroit.

It is to be noted that, in both these cities, there is a complete monopoly of all the electric lighting and power business, while in Toronto the proposition is for a competitive plant.

My estimate is based on a maximum load of 10,000 H. P., which is the equivalent of 7460 K. W. It would, of course, be many years before the Toronto plant would secure this amount of load; meantime, the cost of distribution and operation would be higher than here shown.

I estimate the cost to the City of Toronto of current delivered at consumers' meters, based on a maximum load of 10,000 H. P., or 7460 K. W., paying for monthly peaks, but guaranteeing to pay for 75 per cent. of maximum demand. (This is the Hydro-Electric Commission's proposal.) As follows:

Table with 2 columns: Item, Amount. Rows include Interest and Sinking Fund, 7500 H. P. at \$17.75, Estimate for monthly peaks, Operating and Administration, etc.

Average \$15.64 x 7460 K. W. = 116,674 40

Insurance 13,750 00 (On 50 per cent. average valuation at 1 per cent.)

Taxes 24,750 00 (On 50 per cent. assessment at 18 mills.)

Depreciation at 4.834 per cent. 132,935 00 (Glasgow cannot be ascertained.)

Total \$579,538 40

Estimated sale of current in K. W. Hours:— Glasgow shows 1,321 per K.W. of Maximum load.

Detroit shows 1,354 per K.W. of Maximum load.

Average 1,337 1/2 x 7,460 K.W. = 9,977,750 K.W. hours.

On the basis of the showing of Glasgow and Detroit, and the price to be paid to the Hydro-Electric Commission for power, as given above, the

AVERAGE COST TO THE CITY OF TORONTO per K. W. hour (delivered to customers) would be 5 4 5 cents

While the average price received by the TORONTO ELECTRIC LIGHT COMPANY during 1907 per K.W. hour (delivered to customers) was 5 2 5 cents

I have given the City proposition the benefit of many doubts, and am of opinion that their schedule of prices must average considerably higher than 6 cents, unless they are to operate at a loss and make the deficiency up out of the general taxes. As you are aware, our prices can and will very shortly be reduced, so that our Company need not fear the competition of a City plant if it is operated on a commercial basis.

I have had the figures and findings in the above estimate carefully gone over by an electrical expert and an expert accountant.

All of which is respectfully submitted. W. A. MARTIN.

The Year's Accounts. The accounts for the year ending 31st December, 1907, are submitted with this report. The gross revenue for the year was \$1,039,716.42, and the operating expenses \$651,925.57, leaving \$387,790.85 as the net profits for the year.

This enabled the Board to pay a dividend of 8 per cent., amounting to \$245,503.39, and to carry forward a balance for the year of \$142,287.46. The sum of \$150,000.00 has been transferred from the Profit and Loss Account to the Reserve, which now amounts to \$650,000.00. During the year many new customers for power and light have been entered on the books, bringing the total number up to 9109 at the close of the year. The Auditor's Report is attached to the accounts.

Election of Directors

The following Shareholders were elected Directors: Sir Henry Pellatt, W. D. Matthews, Hugh Blair, W. R. Brock, Hon. Geo. A. Cox, H. P. Dwight, Hon. Robert Jaffray, S. F. McKinnon, Frederic Nicholls, Samuel Trees, Thos. Walmsley.

At a subsequent meeting of the Board of Directors, Sir Henry Pellatt was re-elected President, and W. D. Matthews, Vice-President.

SIXTH WARD CONSERVATIVES

C. R. McKeown, M. L. A., and Others Addressed the Meeting. The northwest branch of the Sixth Ward Conservative Association held its regular monthly meeting in Sheridan Hall last night.

The speaker, Mr. C. R. McKeown, M.L.A., of Orangeville, the chief speaker, opened his remarks with a comparison of the position occupied by the party on the eve of the approaching election to former occasions. The country should judge and support the present government on its past three years' career.

G. R. Geary congratulated the association in seeking representation in the central organization. He referred to the spoils system, and believed that the government was justified in dismissing servants who had taken part in opposition political work.

NEEDN'T BE AFRAID SHAREHOLDERS TOLD

Annual Meeting of Toronto Electric Light Co.—Prospects of Civic Competition.

The annual meeting of the Toronto Electric Light Co. was held yesterday. A full statement of the reports submitted is given elsewhere in this paper.

The attendance was about fifty, and the president, Sir Henry Pellatt, presided. During the meeting the vice-president, W. D. Matthews, said he had been assured on what he considered excellent authority that whereas the average cost of the current furnished by the Toronto Electric Light Co. was 5.2 cents per kilowatt hour, and would probably be more.

His comments on the alleged unfairness of the treatment of electric light shareholders were receiving at the hands of the city council and of the Ontario Government. He also argued that if the city had to enter into a contract with the hydro-electric commission, it would be a resumption of the capital invested in the distributing plant and also in the transmission line within the city, fixed by statute thirty years—that the rates to be charged in order to provide for a sinking fund would have to be very much higher than those charged now by the Electric Light Company, which did not anticipate repaying its capital stock out of earnings on any future sale.

Mr. Hamilton, a shareholder, was informed that the "watered stock" issue of 1881 amounted to \$4,000,000. The president informed another one that the city would be unable to build any sort of a plant in less than three or four years—"and all that time we would be going ahead, too, so they would never catch up," he added.

Henry O'Brien, K.C., observed that the city would be asked to pass another bylaw to enable it to go into the electric light business at all, and Sir Henry said, "Yes, and a transmission line. I guess we will take a chance on that."

It was stated that the local plant is now being tried out by the Hydro-Electric Commission, and that there had been no loss in making the change from steam power.

LIABLE TO 1461 YEARS.

So Claims States Attorney in Otto Hugo Case. BERLIN, Feb. 11.—"The accused has incurred fines amounting to \$2,000,000, in default, 1461 years and two months imprisonment," declared the state's attorney in the criminal division of the Berlin County Court, in the case against Otto Hugo, a German, charged with the sale of non-Prussian lottery tickets within Prussian territory.

The court, however, decided that as the circulars had all been issued in two days and thus technically only two offences committed, a sentence of, on default, 100 days imprisonment, would teach the defendant a lesson.

The state's attorney entered an objection to the court's reading of the law.

WEST ELGIN LIBERALS.

Peter Stalker Elected President—Resolutions of Confidence. DUTTON, Feb. 11.—The annual meeting of the Liberals of West Elgin was held in the town hall, Dutton, this afternoon.

The following officers were elected: President, Peter Stalker, Aldboro; vice-president, Charles Hellett, Southwold; secretary, George Collins, Southwold; chairman, Aldboro, Malcolm McNichol; Rodney, Dr. S. M. Dorland; West Lorne, Dr. Webster; Dunwich, Dugald Blair; Dutton, D. Black; Southwold, G. King; St. Thomas, E. A. Horton.

The matter of calling a convention was referred to the executive committee. Resolutions expressing confidence in Sir Wilfrid Laurier and Hon. A. G. MacKay were unanimously carried.

TURKEY WITHDRAWS TROOPS

War Cloud Dispersed by Turn of Events. ST. PETERSBURG, Feb. 11.—The withdrawal of Turkish troops from the Russian territory to the west of Tzurbitz, as well as the more conciliatory spirit shown at Constantinople, is regarded here as obvious reasons for the present, of taking further precautionary measures on the Turkish and Persian frontiers, and it is probable that the despatch of troops from the interior of Russia to the Caucasus will be abandoned pending further developments.

OBITUARY.

John G. Baldwin. PORT DALHOUSIE, Feb. 11.—John G. Baldwin, a pattern maker employed by the Maple Leaf Rubber Co., cut his hand on Friday last at his work and blood poison setting in, died to-day. He was choir master of the Presbyterian Church here, but a resident of Hartford, Conn., where he leaves a wife and one child.

Orlando G. Johnston. KINGSTON, Feb. 11.—Orlando G. Johnston, a well-known horticulturist, died during the night, after a long and painful illness, from cancer. He was a native of England and about 60 years of age.

Mrs. William Watson. WOODSTOCK, Feb. 11.—(Special.)—Mrs. William Watson, mother of Mrs. Rev. G. H. Cobdlett, aged 67 years, died this morning.

James Carruthers. Campbellford, Feb. 11.—Death occurred very suddenly to James Carruthers, electrician.

800 WANT WORK.

There were more than 800 applicants for work at the civic labor bureau yesterday.

C. N. SMITH ON COBALT DOESN'T MAKE A CHARGE

Premier Asks a Question During Soo Member's Address—Harcourt on Technical Education.

Richard Harcourt usurped C. N. Smith's prerogative of continuing the debate on the address in the legislature yesterday. After complimenting Messrs. McKeown and Donovan, he said he desired to make a suggestion, and not a critical speech, and to confine his remarks to one paragraph in the speech from the throne.

He suggested that a sum of money be appropriated for a distinct new educational force. His plea was not for technical education broadly, but for one phase of it. No one had ever heard him carp about the expenditure of money for educational purposes, and he thought that the higher technical education would be sufficiently cared for. He desired to plead for industrial or vocational education, which would be the actual worker into closer contact with educational forces. There were no pathways, no "blasted trails" in the province to-day for those who labored with the hand. Greater capacity for the worker at his trade, greater happiness in his home was the object he had in view.

Industrial Schools Elsewhere. Mr. Harcourt took up the question of industrial schools as organized in Massachusetts, France, Germany and elsewhere. He instanced the fact that Switzerland, with her opportunity for her industrial schools, was able to compete in hydro-electric machinery with America, and to establish a school of the premier's own health was offered by J. S. Duff and honored with music and cheers.

The legislative visit to Guelph Agricultural College will probably take place on the 18th inst.

SANITOL TOILET PREPARATION TO BE MADE IN CANADA

Factory to be Located in Toronto, According to an Announcement Just Made. R. E. Desmond, secretary and general manager of the Sanitol Chemical Laboratory Co. of St. Louis, Mo., was in the city yesterday in connection with the establishment of a factory here for the manufacture of this company's products. The Toronto plant will be located in the Smith, Baggs & Hastings Building, at the corner of Bathurst Street, in which building a flat has been secured. From this factory, which will be equipped with the latest machinery and in operation in the fall of a few weeks, the Canadian trade will be supplied, as well as a large export trade.

This move has been taken on account of the big demand that has been created in Canada for the toilet preparation manufactured by the extensive advertising campaign that has been done through the newspaper and other advertising media. The Sanitol products have found it impossible to cope with the demand, and to make it possible for the retailer to handle these goods, without having a factory on the ground, the local plant will give employment to about 50 hands, men and girls.

Mr. Desmond states that the extensive newspaper advertising campaign which his company carried on in this country, has created an unprecedented demand for the "Sanitol" toilet preparation, and that the approval of all consumers, and no manufacturing of a similar kind has made such rapid progress.

The home factory, covering four and a half acres, is run on the co-operative plan, a large number of dentists and druggists throughout the United States are shareholders in the company, and are thus enabled to purchase all "Sanitol" products at cost price, at the same time receiving a dividend on their investment. Mr. Desmond informed The World that the Canadian factory would be run on the same plan, in fact, he said, a large number of dentists and druggists are interested. "Sanitol" products include tooth preparations and toilet preparations, such as face cream, powders, soaps, etc. They were first introduced by Herman C. G. Loyties, president of the present company, about ten years ago.

J. A. Thunders is in charge of the Canadian end of the business.

Broke Thru Bay Ice.

A sleigh with a load of 1000 brick, owned by John Russell, broke thru the ice on the bay and went to the bottom. The driver, Joseph Price, jumped in time, while the horses also managed to get loose and escape.

Two Waiters Suicided.

NEW YORK, Feb. 11.—Peter Toomey and Geo. Molloy, each 30 years of age, who had been employed as waiters, committed suicide in Toomey's room in West 35th-street, to-day by inhaling gas.

Arm Caught in Shaft.

TWEED, Feb. 11.—Peter Windower, belt repairer at the Marbank Cement works, near here, had his arm caught in the coal belt and crushed to a jelly, and he was held in position with the belt grinding over his arm for perhaps half an hour until his fellow-workmen discovered the accident.

Tweed Afraid of Powder.

TWEED, Feb. 11.—At a citizens' mass meeting it was decided to negotiate with the Ontario Powder Company, where an explosion recently occurred, either to secure its removal or to get assurances of future protection.

Saved Cattle, Boy Burned.

OXFORD, Pa., Feb. 11.—While his barn was being cremated in a burning barn at Pleasant Grove, the father and a number of neighbors were risking their lives to save horses and cows, which could not get out of the stable.

Will Go to See General.

Commissioner Coombs of the Salvation Army will leave on March 5 for England to see General Booth.

Raymond Hitchcock's Trial.

NEW YORK, Feb. 11.—The trial of Raymond Hitchcock, the comedian, was to-day set for Feb. 21.

DR. WOOD'S NORWAY PINE SYRUP

Contains all the wonderful lung-healing virtues of the Norway pine tree and cures Coughs, Colds, Bronchitis and all Throat and Lung Troubles.

Do Not Accept Dangerous Substitutes. There is nothing "just as good" as Dr. Wood's. Put up in a yellow wrapper; three pine trees the trade mark; the price is 25 cents.

COLD SETTLED ON THE LUNGS. Mrs. Irwin Bennett, Parrsboro, N.S., writes: "I feel it my duty to write a few words in praise of Dr. Wood's Norway Pine Syrup. I took a bad cold, which settled on my lungs, and made it almost impossible to breathe at times. I coughed constantly and could not sleep at nights. A friend told me how Dr. Wood's Norway Pine Syrup had helped her, so I procured some, and before I had taken one bottle my cough was gone and I could lie down and sleep at night."

MOVING PICTURE TRUST DISOBEYED INJUNCTION AND MUST GO TO PRISON

Organized in Buffalo With \$6,000,000 Capital—Controls Manufacture and Rental. Heavy Sentences Imposed on Typo Union Officers for Strike Misdemeanor.

PHILADELPHIA, Feb. 11.—The legal wars which Thomas Edison, the inventor, has participated in with moving picture machine manufacturers and dealers, for the past nine years, have been settled thru the formation in Buffalo on Saturday of an \$8,000,000 combination to control the entire moving picture business of the world. This moving picture business of the country, which this combination controls represents an investment, it is said, of \$50,000,000, with 4200 show places. Those in the combination are: Thomas Edison of Orange, N.J.; Selig & Co. and Kalem of Chicago; Essanay and the Vitaphone Company of New York; Pathé & Mellier, French manufacturers, and S. Lubin of this city.

In addition to the manufacturing and show places the combination will control what is termed 100 rental places, where films are leased. A complete understanding has been reached and in lieu of the settlement of the legal battles, in which he has indulged with the manufacturers, Mr. Edison will receive from the combination \$200,000 a year royalty, in return for which he is to permit no other concerns to use any of his patents, without which films cannot be made. The manufacturers claim the combination is justified in "that the members of the union be punished for contempt because acts of violence and oppression had continued. It was upon his report and recommendation that the sentence of to-day was inflicted.

CHINESE FAMILY OF 27 ATTEND VANCOUVER SCHOOL.

VANCOUVER, Feb. 11.—There are now 107 orientals attending the central school, which is nearest the Chinese district. It is supposed to open a special class room for them, as many orientals of from 18 to 20 years of age are sitting alongside Canadian children of six and seven.

Twenty-seven of the Chinese boys and girls in the central school are sons and daughters of Yip Sang, a prominent Chinese merchant who has a large family living and several other dead.

LISBON, Feb. 11.—The Diario de Noticias, in its issue of to-day, says that King Manuel will leave Lisbon shortly for Cintra, where he will pass several months. Cintra is 14 miles from Lisbon, and has a royal summer residence. Furthermore, the chamber of deputies will reconvene Feb. 20, when King Manuel will take the oath.

The Way to Cure.

Editor World: Like "Justice" in your issue of the 8th inst., I cannot understand leniency to the beast who assaults a little girl. Such criminals should not only be thrashed once a month for a couple of years, but also be subjected to the "swedish treatment," which would effectively prevent a repetition of the offence. What do scoundrels of the type spoken care for incarceration in a prison? They get what hundreds, perhaps thousands, of good, honest, decent citizens in Toronto are lacking to-day, good food and warm quarters. The punishment I have hinted at would soon stamp out this class of crime.

Harnessmakers' Convention.

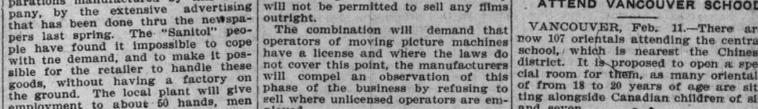

The Ontario Harness Makers' Association opened their annual convention in the board of trade yesterday. William McBride of Alliston presided, and there was a good attendance. The business yesterday was mostly routine, committees being appointed who will report to-day, when A. J. Adams will give an address. To-night the Toronto district will banquet the delegates.

Goldberg Goes to Jury.

Edward Goldberg, charged with conspiracy to defraud Toronto wholesalers of a quantity of dressgoods, was sent to a jury from yesterday morning's police court.

RUPTURE

Quickly and permanently cured by the use of one of our latest style Trusses. We have the largest variety of Trusses to select from. All Trusses fitted free by our expert fitters. Ladies in attendance for ladies. We repair and make trusses free by our expert fitters. Get our illustrated Catalogue of Trusses, Rubber Goods, etc. The F. E. KARN CO., Limited, 43 Adelaide St. East, Toronto, Ont., Canada.

DODD'S KIDNEY PILLS. CURE FOR RHEUMATISM, GRAVEL, GOUT, BRUISES, SWELLINGS, AND ALL AFFECTIONS OF THE URINARY SYSTEM.

Will Go to See General. Commissioner Coombs of the Salvation Army will leave on March 5 for England to see General Booth.

Raymond Hitchcock's Trial. NEW YORK, Feb. 11.—The trial of Raymond Hitchcock, the comedian, was to-day set for Feb. 21.

Arm Caught in Shaft. TWEED, Feb. 11.—Peter Windower, belt repairer at the Marbank Cement works, near here, had his arm caught in the coal belt and crushed to a jelly, and he was held in position with the belt grinding over his arm for perhaps half an hour until his fellow-workmen discovered the accident.
