

There is a reason: Brandon is the money centre, the great natural market, for a territory covering a radius of seventy miles. It is the breeding and stock centre of Manitoba. It is the distributing centre for the fruit trade of the west. It is the centre of 1000 miles of Canadian Pacific western lines. Its railway service reaches out like a spider's web, embrac-ing four transcontinental lines—the C.P.R., Canadian Nor-thern, Grand Trunk Pacific and Great Northern.

## A GREAT WHEAT CENTRE

Fifteen million bushels of wheat were marketed in Brandon last year. Payment for this places millions of dol-lars into the channels of Brandon's business. You see now why ten chartered banks are necessary. They have big, roomy offices, and Brandon is their base of operations for a wide area of western trade.

In a previous advertisement, we enumerated the colleges, schools and institutes that make Brandon a centre of

o yesterday resigned the office county crown attorney. He will be succeeded by James Baird, K.C.

Frankland says that he considers his his duties as soon as he can be spared.

Boarding House Problem.

When is a boarding house not a boarding house? The civic island com-

mittee would like a lucid explanation,

The question came up in considering

since at present the line of demarca

tion is shadowy.

Brandon's population has doubled since 1905. It has fifty miles of railway sidings. Twenty thousand people have passed its Fair gates in one day. It will soon have a street railway system embracing East Kensington Heights.

Of 3,000,000 acres of Manitoba land under wheat, 2,500,-000 are tributary to Brandon.

## **CITY'S CREDIT UNEXCELLED**

The city's credit is indisputable. Its debentures are held above almost any financial institution in Canada.

Brandon is the head office of three fire insurance companies. The Government Experimental Farm is there, and the eyes of the west are upon it.

One hundred and twenty-five commercial travellers find it more convenient to do business out of Brandon than any other city of Manitoba.

We are offering lots in East Kensington Park, Brandon, to-day for \$60. The interest which we will retain in this section is far larger than that which we are sharing with the public. We will be candid in stating that we believe we are following a wise policy in getting others interested with us in East Kensington Park. Your presence will enhance the in East Kensington Park. Your presence will enhance the value of your lands; as well as ours. The city is now built up right to our property, and we are in the line of the city's rapid growth. These lots are to-day worth more than we are offering them to the public. The land is rolling, well drained, and every lot guaranteed. The lots are 25 feet by 120 to a 20-foot lane. You may find that the lot you purchase to-day for \$60 is worth \$500 or more in less than two years. But one fact amounts to a certainty; Brandon is bound to grow, and every new family established in the city makes your land more valuable more valuable.

This is an exceptional sale. The merit of the offer will result in the whole block being taken up quickly. We will deal with the applications in the order that they are received.
