### LEAGUE OF NATIONS ENDORSED BY LABOR AFTER SHARP FIGHT

Irish Vote Was Strongly Hostile and Fate of Resolution Seemed Uncertain.

**HARD TO KEEP ORDER**  
Montreal, June 20.—Despite an outburst of bitter feeling against the league of nations principally because it was believed to be of British design and for British benefit, the convention of the American Federation of Labor closed at 7 p.m. Saturday by placing itself on record as endorsing the league of nations by an overwhelming majority.

Particularly bitter was the Irish vote, and it seemed at times that the motion to endorse might be defeated. President Gompers broke his gavel in trying to maintain order, and was himself called to "time" for overstepping the speech limit. The eloquence of Vice-President William Green swung the meeting around and in the end the endorsement by the convention of the league of nations was made almost unanimous.

A policy of "hands off" as regards Mexico was unanimously adopted by the convention.

Denver, Colorado, was chosen as the convention city for 1921.

The federation has sent President Gompers and the executive council to Washington to plunge into the task of fighting labor's battles for the next twelve months. The firm move will be to obtain from the Democratic party at its convention in San Francisco, incorporation of labor's demands in that party's platform. The executive will also press the carrying out of the federation's non-partisan political policy as approved at the convention. The general points outlined by the labor convention were:

1. Ratification of the peace treaty governing ownership with democratic control of railroads.

2. Curb on profiteering and high cost of living.

3. Tailing of food and clothing profiteers.

4. Right to strike and abolition of compulsory arbitration and anti-strike legislation.

5. Right to vote in Mexico by the United States government.

6. Endorsement of the Irish republic.

7. Right of collective bargaining.

8. Advance in wage wherever necessary to maintain the United States standard of living.

9. Shorter working day, if necessary, to prevent unemployment.
