

### MINISTER OF LABOR REQUESTED TO ACT

Wages Paid by the Collingwood Company is Now Chief Bone of Contention.

### CONFERENCE OF CHIEFS

The federal labor department will be urged to employ its offices for the settlement of the labor difficulties in the Dominion Shipbuilding Yard, according to authoritative information gleaned Saturday by The World from members of the Toronto local of the Shipbuilders' Union.

The conduct of the yard, since its resumption under the direction of the Collingwood Shipbuilding Co., is declared to be such as to render government intervention inevitable. The policy allegedly employed of importing Collingwood labor is understood to have proven a failure to the extent that only 75 men are working on the yards.

The factor which the Collingwood concern are believed to have overlooked in their attempt to enforce their local wage scale in Toronto, is the divergence of living costs between the two places. Collingwood workers, who at first welcomed the opportunity of Toronto employment at rates to which they were accustomed, are declared to have regretted their change and to have advised their Collingwood associates against coming to this city.

A conference which union officials and representatives of veteran organizations held yesterday morning with the Collingwood executives was productive of no agreement. The company officials are understood to have indicated as final their present wage offers.

"Will you be willing to pay the union rate if Senator Robertson so orders?" a member of the labor delegation inquired. The question remained unanswered.

For more than an hour on Saturday James Dalrymple, general superintendent of the shipyards, held a conference with other yard assignees and E. W. Compton, federal wage officer, relative to the employment of service men and union men.

E. W. Compton stated to The World that there was nothing to give out, so far as his department was concerned.

### U.F.O. CO-OPERATIVE COMPLETES BOARD

The United Farmers Co-operative Company Limited, at the directors' meeting held Saturday morning in their King street headquarters, filed the following executive officers: President, A. A. Powers; Ontario vice-president, Col. J. Z. Fraser; Burford vice-president, W. E. Morrison; secretary-treasurer, J. J. Morrison.

### Electric Fixtures Cheaper

Electric light fixtures and wiring has been reduced to pre-war prices by the Electric Wiring and Fixture Co., corner College street, and Spadina avenue. The company is doing this at a loss, but are reducing the stock and keeping their employees working.

### CHARGED UNDER O. T. A.

Daniel Saxon, 15 Humberville avenue, was arrested on Saturday night on a charge of violating the O. T. A. P. C. Fleming, who made the arrest, claims that Saxon had a bottle of whiskey illegally in his possession.

### MEN YOU HEAR OF Seen as Their Friends Know Them

MR. W. B. REID, president of the United Cigar Stores of Canada, is seen in the group picture. He is a great believer in the future of Canada, and has friends from coast to coast. He is a member of the Ontario Club, an ardent motorist, and a good golfer.

### NOTED BRITISH ORATOR FOR MASSEY HALL

The seat sale opens at Massey Hall today for the address to be given next Wednesday evening by Victor Grant, the distinguished orator, journalist, traveler and soldier. His subject, "Distressed Europe and the Outlook," should undoubtedly prove one of the most interesting ever heard in Toronto, for, coming as it will from one who has been especially privileged to make a personal study of European conditions and who is qualified to judge as to what the future may bring, it will contain a fund of interesting information for every thinking man and woman who can make it a point to attend. Mr. Grant will treat of the conditions as he saw them in Russia, Germany, France and Ireland, and, in describing them, there will be brought into play that style of oratory for which he is well-known.

### NEW PROFESSOR AT UNIVERSITY CLUB

Describes Interesting Work in Collaboration With Research Students.

The Research Club of the University of Toronto held its third meeting of the session in the chemical department on Friday evening. When the club was formed last year some 250 members were present, and the club has since been growing steadily. The members would not turn out to hear disquisitions or researches on subjects outside their own particular fields of work. That these doubts were groundless is proved by the excellent attendance at the meetings; indeed, it is now regarded that the friendly criticisms and discussions between the different departments have become the chief sources of interest in the club.

This meeting was especially interesting as it gave the members an opportunity of hearing the newly appointed professor in the department of chemistry—Mr. J. B. Ferguson. Since graduation from the University of Toronto Mr. Ferguson has been connected with the physical laboratory of the Carnegie Institute, of Washington, and more recently with the largest research institution in the world, the Western Electric Co., of New York. His experience and training in scientific research in these laboratories are valuable additions to the University. Professor Ferguson described the work he is now doing, in collaboration with several research students, on the reaction between arsenic and phosphorus. The character of this work was shown by reference to its relation, on the one hand, to the study of synthetic minerals, and on the other, to the production of coatings used technically for the protection of iron against rust. He also told of his work on the chemical relationships of the phosphate minerals found by Professor T. L. Walker in British Columbia.

Professor Ferguson gave an account of a continuation of his series of investigations on one of the fundamental methods of preparing organic compounds—the so-called Friedel and Crafts' reaction.

Professor Kenrick described a new method by which it is hoped to settle the vexed question as to whether or not different faces of crystals have the same solubility. This question has a general bearing on the problem as to how crystals "grow" and the special form they assume, a problem which has always been one of the mysteries of science.

Professor Rogers gave an account of a method he had devised for the accurate and rapid determination of arsenic in nickel and cobalt ores. The method is applicable to quantities as low as 1-100 per cent., and whereas the old process required at least 24 hours, this can be done in 1 1/2 hours, and is a much simplified process.

### PREACHER PRAISES SPIRIT OF PEOPLE

Thirty-Five New Members Join Rhodes Avenue Presbyterian Church.

Rhodes Avenue Presbyterian Church, East Gerrard street, is so crowded every Sunday evening that late-comers cannot find seats. Many have worshipped in the vestry room at the rear of the pulpit. Yesterday Rev. H. A. Berlis, the minister, conducted communion services both morning and evening. Preaching from the text, "Be not weary in well-doing," he said that Mr. Berlis complimented the congregation on not only continuing to go to church regularly, but on manifesting the spirit of worship and devotion. "Ordinarily," the preacher said, "this text is applied as an exhortation to perseverance. Be not weary in praying, loving, giving, going to church. But there is another meaning to this text, and that is 'Be not weary in doing well the things which God gives you to do.'—Be an efficient servant of God. Do all things well."

"I am pleased to acknowledge," Mr. Berlis continued, "that the responsive and devout spirit of the worshippers in our church is a demonstration of their obedience to God's command not to be weary in well-doing."

Thirty-five new members joined the church at this communion. The Sacrament of the Lord's Supper was dispensed at both services, the church only holding half the number of communicants. One of the new members received the sacrament of baptism before the morning communion.

### SANTA CLAUS TODAY AT G. W. V. A. CLUBROOMS

Santa Claus will dominate the festivities in the G.W.V.A. clubrooms, Isabella street, this afternoon and tonight. When a host of children, many of whom lost their fathers in the great war, will receive gifts. It is announced that Santa will welcome the little ones both at 4 p.m. and 8 p.m., and Mayor Church will be present on both occasions. Comrade George Moore will be master of ceremonies.

### CHIEF FORECASTS CHANGES IN FORCE

Will Press for Extra Police Refused by Board of Control.

Chief of Police Samuel J. Dickson outlined his plans for the reorganization of the Toronto police force on Saturday afternoon. His plans will be subject to the approval of the board of police commissioners, before whom they will be placed in due time. Following is the new chief's proposed city council for the additional 250 men refused by the board of control.

Request city council for the additional 250 men refused by the board of control. New police administration building, as present quarters at city hall badly overcrowded.

Additional detectives at police headquarters, and more police women to strengthen present squad.

Increase motorcycle squad and create street patrol.

Retire officers and constables of four years, whose age makes them unfit for active duty; younger men required in executive positions.

Chief Inspector Beatty to take over supervision of all police divisions and co-operate with inspectors.

Will Go to Council. In discussing his plans, the chief stated that he was dissatisfied in the board of control refusing his request for 250 additional men. He stated that he is prepared to go before the city council to press for them, as present conditions demanded an increased and better distributed force. The 150 additional men approved by the controllers meant very little when various factors were considered, he said, adding that "a workable force was good insurance for the citizens."

"At present," said the chief, "the traffic men have too long hours on duty, and I plan to make it easier for them. It is one of the hardest duties in the department and very trying on the men."

Referring to the detective department, the chief stated that more men were urgently needed. At present, he said, the men were working long hours overtime.

Better results could also be obtained if more men were added to the motorcycle squad. The chief stated that he strongly advocated a new administration building for the police, and that he was badly cramped for proper accommodation at headquarters. There is no room in the present headquarters building, and the chief stated that he was badly cramped for proper accommodation at headquarters.

"Toronto is the only city in Canada of any size that has not a proper police building. Vancouver, Calgary, Winnipeg and Montreal have buildings and Toronto is behind them in that respect."

Altho the chief declined to discuss the retirement of senior officers he intimated he felt that younger blood should be injected into the force. "Sentiment cannot enter into the question when efficiency is the factor that counts," the chief declared.

### TRAIN STRUCK AUTO CONTAINING 4 MEN

Occupants Escaped, But the Motor Was Left a Total Wreck.

When the auto in which they were driving was struck by a stock train at the G. T. R. crossing at Keele street on Saturday morning, four men had a narrow escape from injury. The auto, which was in charge of Edward Stonehouse, of Weston, had just reached the crossing when the train backed into the stock yards siding from the east. Fortunately it was traveling at a slow rate of speed, so that the occupants of the auto had time to jump. The auto was thrown up against the platform and smashed to pieces.

### CHRISTMAS SPIRIT IN TORONTO CHURCHES

Being the last Sunday before Christmas, the services in most of the Toronto churches yesterday breathed the spirit of the great Christian festival. There were large congregations, and the sermons were for the most part in keeping with the occasion.

### CANADIAN CURRENCY IS STRONG BUYING MEDIUM

An authoritative review of European finances was given last evening at the meeting in the Labor Temple of the I.L.P. Forum by J. H. Gundy, Canadian representative to the financial conference in Brussels. Mr. Gundy spoke of Austria and Rumania as being irretrievably bankrupt for generations to come. He further dealt at length with the discounts on the moneys of the various countries of the world, and showed by comparison that Canadian currency was retaining its purchasing power to a thoroughly creditable extent, in the face of world-wide finance disorganization.

### CHRISTIAN SCIENCE TO REFORM WORLD

Arguments of Lecturer at Crowded Gathering in Toronto Theatre.

Healing the sick by spiritual means is a subject to the front in Toronto. Much interest was aroused last summer by the Hickson Mission in St. James' Cathedral and people are seeking information or help if it's to be had. It was not surprising, therefore, to find a lecture on "Christian Science: The Science of True Living." He said in part:

"I come here this afternoon to speak to you on Science, which rests upon the fundamental facts of being and which is the measure that it is understood is capable of improving, and even of transforming, the life of every man, woman, and child. Because it can do this it follows that it can also reform the world, and I am prepared to show that it will do so, just as fast as you and the rest of mankind understand and adopt it."

Happy Class of People. "Christian Science reveals the fact that thought governs or misgoverns mankind, as the case may be, including the body, and that as we approach and attain a divine standard, the health and safety of the body are proportionately secure. Such work is not less scientific than that of sciences which have to do with material phenomena, in fact, to investigate and understand thoughts and their nature and laws is the highest kind of scientific research, and is the most interesting and instructive of all studies. Besides this, there are no directions that have been accomplished, but to be attained by such a course. They are often acknowledged by the general public, who do not hesitate to say that nature and law are generally a happy and healthy class of people. In mentioning this I am not claiming that all that can be desired in these directions has been accomplished, but at any rate, thousands of people who are alive and well today testify that they were saved from death and their health restored through Christian Science."

Healing of Disease. "The founder of the Christian religion proved beyond all question that diseases even of the most fatal nature could be absolutely healed by the power of the mind. He taught, however, that such power is only available to men in proportion to their righteousness, their rightness of heart, and their knowledge and declared that the power to heal is wholly from God, the Divine Mind, and he said and showed by his own works that this power is natural to men and women in the proportion of their understanding or enlightenment on the true nature of God and His law. With arms extended to encompass mankind in reverence and adoration to the God who is Love, and in devotion to His Christ, we give you this message of Life, of health, of peace, and we ask to express and make daily more practical in behalf of ourselves and for all mankind the compassion of Him who very well abolished if the power to heal is wholly from God, the Divine Mind, and he said and showed by his own works that this power is natural to men and women in the proportion of their understanding or enlightenment on the true nature of God and His law. With arms extended to encompass mankind in reverence and adoration to the God who is Love, and in devotion to His Christ, we give you this message of Life, of health, of peace, and we ask to express and make daily more practical in behalf of ourselves and for all mankind the compassion of Him who very well abolished if the power to heal is wholly from God, the Divine Mind, and he said and showed by his own works that this power is natural to men and women in the proportion of their understanding or enlightenment on the true nature of God and His law. With arms extended to encompass mankind in reverence and adoration to the God who is Love, and in devotion to His Christ, we give you this message of Life, of health, of peace, and we ask to express and make daily more practical in behalf of ourselves and for all mankind the compassion of Him who very well abolished if the power to heal is wholly from God, the Divine Mind, and he said and showed by his own works that this power is natural to men and women in the proportion of their understanding or enlightenment on the true nature of God and His law. With arms extended to encompass mankind in reverence and adoration to the God who is Love, and in devotion to His Christ, we give you this message of Life, of health, of peace, and we ask to express and make daily more practical in behalf of ourselves and for all mankind the compassion of Him who very well abolished if the power to heal is wholly from God, the Divine Mind, and he said and showed by his own works that this power is natural to men and women in the proportion of their understanding or enlightenment on the true nature of God and His law. With arms extended to encompass mankind in reverence and adoration to the God who is Love, and in devotion to His Christ, we give you this message of Life, of health, of peace, and we ask to express and make daily more practical in behalf of ourselves and for all mankind the compassion of Him who very well abolished if the power to heal is wholly from God, the Divine Mind, and he said and showed by his own works that this power is natural to men and women in the proportion of their understanding or enlightenment on the true nature of God and His law.
