The keel will be laid at once, so that she will be completed early next spring. The new vessel will be commanded by Capt. John By, late master of the topsail schooner Rhoda.

When asked today with reference to the re-opening of night school, Supt. Bridges beyond saying that the board would deal with the matter at this evening's meeting declined to express any opinion as to the project. There had, he said, been no provision made in the estimates, and he did not see that night school could be established till the new year.

Marked success has attended the efforts of those concerned in the signalling school which has been in progress for the past few weeks. Sgt. Instructor Kemplin, R. C. R., Halifax, in a verbal report to the board, already achieved and will allow a number of those in attendance to begin the mutual instruction course. About forty-five signallers are taking the course.

A number of the drug clerks of the city are busy "plugging" for their examinations which are to take place in the near future and they have for some time past been attending a special course of lectures given by M. V. Paddock in his laboratory, on Wednesday afternoon of each week. At present about eleven students are attending the school. These examinations will be held to permit those trying them to qualify as druggists. Preliminary examinations will also be held.

GLEANER GIVES HOCKEY PLAYERS POOR ADVICE

The Effect of the Suspension of Baseballists—Only One Proper Course is Open

The Frederick Gleaner makes the following pronouncement on the baseball and hockey troubles and the M. P. A. A. A. "The hockey situation in New Brunswick especially is going to be more or less troublesome this year, on account of the wholesale suspensions made during the past summer through baseball when the M. P. A. A. A. took action.

"There are some professional baseball players in New Brunswick, and to make up teams in small centres such as there are in the maritime provinces it is necessary that amateurs and professionals should play together to make up the teams. "This is a situation that should be and probably is recognized by the M. P. A. A. A. officials, and if they cannot get the M. P. A. A. A. which they are affiliated, to come to a similar view, they should break away and either relinquish jurisdiction over baseball or become affiliated with the Federation, which as a matter of fact has the only sensible rules of the two organizations.

"At the present time it seems that the hockey situation in New Brunswick will be materially interfered with by the M. P. A. A. A. suspensions, and personally I would not be surprised to see the M. P. A. A. A. suspensions and personally, I people, just as the baseball players did last summer. "It can only be said, as has been said over and over again, that the talk of ignoring the governing body is a waste of time. Many of those baseball players who ignored the M. P. A. A. A. would be glad if they could undo their ill-considered action. To advise or encourage hockey players to do anything of the kind is to hinder, rather than help matters. The remedy would seem to be simply, play either amateur or professional hockey and be above board. Some hockey players in New Brunswick look the Gleaner's advice some time ago and as a result the game is dead there.

COMMERCIAL

TRAVELERS SAY

I. C. R. IS O.K.

They're the Best Barometer Says Hon. Mr. Graham and Their Opinion Means Something

LONDON, Ont., Nov. 8.—(Special)—Hon. George F. Gidley, who passed through London on Saturday, on his way to Stratford, spoke to a newspaper man about Lord Northcliffe's structures on the Intercolonial railway. "Lord Northcliffe travelled over the road at a time of heavy washouts in the east," said Mr. Graham. "At that time portions of the roadbed were washed completely away on account of storms, making it impossible to operate the road properly. However, I have asked commercial travelers, who are the best barometers as to the operation of the road and they state that it was never handled better than during the past year. These men are on the road constantly. "That to me is much more satisfactory than the report of persons who went over the road only once. Large shippers also say that traffic is being handled rapidly as well."

Rev. W. W. McMaster to Leave For Toronto on Thursday—"At Home" Tomorrow

Rev. W. W. McMaster, pastor of German street Baptist church, preached his farewell sermon in that pulpit last evening. On Tuesday evening in the church vestry, Mr. and Mrs. McMaster will be at home to their friends in the church and congregation and after that they will leave on the C. P. R. train for Toronto, where they will remain for a time and about the first of the year Mr. McMaster expects to go to British Columbia. He has no settled plans for the future as yet.

WAS EPOCH MAKING

Bishop Casey Speaks of the Plenary Council—St. Vincent de Paul Report

In the Cathedral yesterday morning, speaking of the plenary council just held in Quebec, His Lordship Bishop Casey, said great things had been done at the council; great decrees passed, there were matters that would live in history, laws framed which would govern their children and children's children. Nothing definite could be said as to the proceedings, however, as they must first receive the seal of the Sovereign Pontiff. The council, His Lordship said, was epoch making and was a magnificent success.

His Lordship read the 22nd annual statement of the St. Vincent de Paul society showing receipts of something more than \$80, which was expended for the poor in coal, groceries, meats, shoes, clothing and funeral expenses. The Cathedral collection last year furnished \$11.92 of the receipts. The annual collection will be taken up next Sunday.

Last evening at the meeting of the Holy Name Society, Rev. A. W. Meahan spoke on the Second Crusade, giving a graphic account.

The fire department responded to a still alarm about 11:30 o'clock, and found its cause to be a slight blaze in the house occupied by Thomas W. Kee, 178 King street east. The fire was caused by children playing with matches near the stove. One of the matches becoming ignited, set fire to a tablecloth, and the blaze spread. A set of curtains which were quite badly damaged. The woodwork also caught fire and was scorched. The arrival of the chemical engine soon put an end to the flames.

If you want a Heater, we can give you one that will keep you warm.

In the Glenwood Heater we have one of the best and neatest heating stoves on the market. We only make it in two sizes 14 and 16, but we can guarantee them to do the work they are required to do. It is only wasting money to buy a stove too small—you can't get the body of fuel in it to keep it going. The Glenwood Oak in either size will keep in all night and save you fuel. It shakes on the side, avoiding dust. It has ball bearing grate, removable nickel and will burn wood or coal.
