THE OBSERVER.

ST. JOHN, TUESDAY, OCTOBER 5, 1841.

The *Acadia*, with the second September Mail, had not arrived at Halifax up to 5 o'clock on saturday afternoon. If she left Liverpool on her regular day, the 19th, she would have been out thirteen days. Her progress has doubtless been greatly impeded by the late heavy weather.—The mail probably will not be received in this City until the return of the steamer from Windsor, on Thursday morning.

The strong Easterly winds which have prevailed since Sunday morning, have also prevented the arrival of the steamer *North America* from Boston.

The non-arrival of these vessels has disappointed us in our expectations of being able to communicate much valuable information to our readers in this day's paper.

A Forerunner!—Since Sunday morning the weather has been uncomfortably cold, accompanied with a piercing wind fresh from the East, which has brought fires and overcoats into common requisition, and forcibly reminding us that winter—cold winter, with its biting frosts and snows, is again near at hand.—Let all (who can) prepare to meet it!

Four hundred postulants have joined the Catholic Temperance Society in Fredericton, whose President is the Rev. Mr Dollard, Vicar General; and one hundred have joined at Woodstock, through the exertions of the Rev. Mr. Barron.

A dreadful fire occurred at St. Thomas, Upper Canada, on the morning of the 17th ult., which threatened to destroy the whole town. It was fortunately subdued after several buildings had been consumed.

The Hon. Edward Everett, U. S. Minister to the Court of St. James, is now in Europe, and requires only his credentials to assume his office.

ANOTHER FERRY BOAT.—A new Steamer, intended, by the City Corporation, to ply across the Harbour as a Ferry Boat, in conjunction with the *Victoria*, (which has been found to answer admirably well,) was launched from the Building Yard of Mr. M'Leod, in Carleton, on Thursday last.—She was named the *Lady Colebrooke*, and is to be furnished with an engine of thirty horse power, precisely the same as that of the Victoria, built by Messrs. Fawcett & Preston, of Liverpool. This beautiful piece of machinery, which has just been completed by our townsmen, Messrs. T. Barlow & Co. (Phœnix Foundry) will be placed in the boat forthwith, and she will be in operation without loss of time.—*Courier.*

"The AMARANTH" for October, is just issued, and presents a choice selection of Tales for the amusement of the lovers of light reading. Among others, we are happy in noticing the Original Tale "Malsosep, or the Forsaken," by *Eugene*, a writer whose productions will doubtless afford much gratification to the numerous readers of the Amaranth. This periodical certainly continues to advance in public estimation.—*Ib.*

A Diving Apparatus, the property of James D. B. Fraser, Esq., of Pictou, is now employed in raising the guns and shot have overboard from H M. S. Malabar, when on shore, near Cape Bear, P. E. Island. Ten guns already have been drawn up, and it is expected, if the weather continues fine, the remainder (26 32 pounders) and 100 tons of shot will be recovered, and placed in H. M. Ordnance here. Too much praise cannot be bestowed on Mr. Fraser for his exertions in endeavouring to recover the guns and shot referred to, as the exact position of the place where they were thrown was not known previously, and it was not until the brother of Mr. F. undertook to dive for them that they were discovered. Such indefatigable exertions deserve liberal compensation, and in which we trust the owner of the apparatus will not be disappointed, so that he may be stimulated to perseverance in his highly beneficial experiments, should his services be hereafter required in re-covering property buried beneath the sea.—*Halifax Recorder.*

Eighteen of the guns of the Malabar have been raised and forwarded to Halifax, and the remainder it is probable will be raised during the next summer.—*Pictou Mechanic & Farmer.*

SIR CHARLES FITZROY.—The Inhabitants of Queen's County, Prince Edward Island, have presented a Farewell Address to His Excellency the Lieutenant Governor, on the 20th Sept., congratulating him upon his promotion to the Government of the Leeward Islands, and expressing their entire satisfaction with his administration of the Government of Pr. Ed. Island. The Highland Society presented a similar complimentary address; and at a special meeting elected His Excellency an honorary member.—*Halifax Times.*

Sir Charles and Lady Fitzroy arrived at Halifax from Prince Edward Island on Friday last, to take passage in the *Caledonia*, which was to sail for England yesterday.

Halifax, October 2.

ARRIVAL OF THE ADMIRAL.—H. M. Frigate Pique, Capt. Yates, arrived from Port-mouth, yesterday afternoon, with the newly appointed Admiral of the North American and West Indian Station, Sir Charles Adam, and Commodore Bouverie.—*Recorder.*

The attention of the inhabitants heretofore appears to have been devoted almost exclusively to the transportation of pine and other kinds of timber, formerly abundant in this part of the Province. The best interests of the country do not appear to have been advanced—agriculture has been much neglected.—nor does the trade in timber seem to have been profitable to those who have been engaged in it.

The inhabitants are settled along the banks of the principal streams. Remote from these, the country is in its native wilderness state; except where the lumbermen have removed the largest trees, or such as were adapted to the English market.

Most of the rivers are lined on each side by tracts of excellent intervale. Many of these tracts still remain unreclaimed by the hand of industry. These intervales, like those on the upper part of the Saint John, are remarkable for their terraces, which have evidently been formed by the bursting of lakes, and changes in the level of the streams, by the lowering of their beds. Four of these terraces are seen at some situations, and there are instances where the former beds of the streams are now covered with graceful elms.

Some of the most extraordinary geological facts in this division of the country are seen in the evidences of changes of level. At Bathurst, the country has been uplifted, while at the mouth of the Miramichi the shore has been depressed within a comparatively recent period, and large peat bogs are now buried beneath the sea.

A visit was made to a mining establishment of an English company at Bathurst, conducted by Mr. Stevens, a most enterprising individual. The first efforts of the company were directed to the mining of Copper Ore, veins of which are evidently contained in the slates of Tete-a gouche River.—At present the mining of Manganese is carried to some extent, and powerful machinery has been erected with sufficient water power, which will be directed to cleaning the ore, and other operations. The mine of manganese is situated eight miles from the town of Bathurst. The ore occurs in veins and disseminated masses in clay slate. Fifty tons were ready to be shipped at the time of my visit. The sterling price of the ore is stated to be £10 per ton.

This is evidently a mining district, and one of great importance to the country. I have also analysed two kinds of marl found in the County of Gloucester. They are superior in quality, and will soon be applied to agricultural purposes.

The Counties of Northumberland, Gloucester, and Restigouche are evidently rich in mineral wealth, and regret that my examinations could not be extended to them this season. My object has been to complete the geological exploration of all the southern and eastern parts of the Province, as for northward as the main south-west branch of the Miramichi and Woodstock, which I am in hopes of completing before the winter appears.

I have thus given a brief outline of my last exploration. the details of which must from necessity be omitted until the general Report for the season is made, which, with the present communication, I sincerely hope will prove satisfactory to His Excellency.

I have the honor to be, &c.
ABRAHAM GESNER.

To Alfred Read, Esq., Private Secretary, &c.

A GOOD HAUL.—On Thursday, Mr. Thomas Beatty took over one hundred barrels of mackerel from nine at one haul, at Sherwood, Bedford Basin. The fishermen are now trying their luck in the Basin of Halifax harbour, and ample success attends their industry. For several years past, mackerel have run in large shoals up the harbour, but their number this season is commonly great; they have attained a full size, and are very fat.—*Ib.*

The Case of McLeod.—Our Co-temporaries do not appear to have noticed, that, although the Court before which Mr. McLeod will be tried, *is to open* at Utica on the 27th of September, yet, according to the United States and Canada papers, *his trial* is not to take place till the 4th of October.—*Halifax Post.*

The following remarks on the subject are from the Halifax Royal Gazette of Wednesday last.

"The trial of this individual, it is presumed, commenced on Monday last. We cannot come to any satisfactory conclusion as to what will be the result of the proceeding. If he is acquitted, we shall be anxious for his safety until we hear of his being again under the protection of British Laws—if he is not acquitted, but sentenced to capital punishment, or to close confinement for any period of time, and the General Government permits either verdict to be entered, we are quite satisfied a rupture between England and the United States will be the consequence. Great Britain has unquestionably shewn unusual forbearance in this matter—the demand of the release of M'Leod, and the declaration that the destruction of the Caroline was a national act, were formally made the 10th March last—still McLeod is kept in confinement, and on the 27th Sept. will be put upon his trial. There is another feature in the case which exhibits some surprise—the State of New York claimed the right to arrest, detain and try M'Leod—The General Government appears to have conceded it—the question arises, if the verdict should be unfavourable to M'Leod will they interfere, and prevent its being carried into effect? All these considerations produce much anxiety, from which, however, we shall probably be relieved in a few days—we shall know the result of his trial, and be better able to judge whether or not the present relations between the two Countries are likely to be disturbed.

THE MCLEOD CASE—*The Approaching Trial.*—The trial of McLeod, charged with the murder of Durfee, will commence some time next week; the precise day is not fixed upon. The prosecuting counsel, Willis Hall, has been very busy for some time past, in the endeavor to obtain sufficient material upon which to convict McLeod of the charges against him under the indictment. On the other hand, McLeod's counsel, Joshua A. Spencer, has been equally industrious in endeavoring to procure testimony upon which to acquit him. So stands the matter at this time which, before the lapse of a week will be disposed of for the weal or woe of one or of thousands, unless, indeed, as many suppose, the jury should not be able to agree on a verdict, either one way or the other; which is by no means improbable.

The excitement which exists at present, and which has existed for some time past, among both sides of the border, and the importance in a national point of view which this case has assumed, has every where drawn public attention to its merits; and there exists at the present time, as great an anxiety in Louisiana and the South to know the result, as there does in the city of New York. It is the general belief, that let the case be disposed of in whatever manner it may be, that there will be trouble of some kind, and perhaps of a very serious character. Efforts have been making for some time past, and are now making, by the various Hunters' Lodges on the borders of this State, to produce a riot some where, of some kind, in case McLeod is not convicted. The recent stealing of powder and cannon is of course connected with these movements.

To the credit of the General Government be it said, it has taken every means in its power to preserve peace and put down outbreaks of every kind. Troops have been sent into the disaffected districts, and General Scott has devoted his entire energies, for some time past, to this purport. The greatest difficulty and most fruitful source of trouble, however, has been the alienation between the General and the State Governments, brought about chiefly by the latter; and growing out of the selfish efforts of a few miserable speculators and violent partizans, who are applicants for all sorts of office. Disappointment in relation to this has caused the State Government to do many foolish things, calculated to increase the excitement. Some papers have asserted that Governor Seward has supplied one of the funds for the Hunters' Lodges. Its object is to bring about a war; but we dare not believe.

The result of the trial is by no means sure. There is a probability that he will be acquitted; but this cannot be calculated on for a certainty. The aspect of things is very gloomy. The calm but firm position of the English government, and the equally firm and calm position of our own, taken in connection with the hostile disposition of the State government, and terrible feelings of excitement that exist along both sides of the line—all forbode trouble, and that of the most serious and lasting kind. God grant both countries and all parties a safe and speedy deliverance.—*New York Herald.*

Capture of Grogan.—A party, twelve in number, of the Canadian Volunteers, stationed at Mis-isiquoi Bay, crossed the line on the 19th ult. and seized a Colonel Grogan, at Alburgh in Vermont, whom they carried to Montreal. Grogan formerly resided in Canada, and figured rather conspicuously in the late rebellion. He afterwards fled to the States, and his treason was passed by the confiscation of the property which he possessed. He has on several occasions since stole into Canada, and like a vindictive demon, retaliated the last infliction of law by setting fire to the buildings of private, inoffensive residents of the country, wherein he might have lived in comfort and competence, had he maintained his allegiance. Meetings have been called and a Committee appointed at St. Alban's to inquire into the abduction of this incendiary, and to report upon the case.—*Halifax Recorder.*

The New York Journal of Commerce of the 29th ult. states that a man named *Fennegan*, had been arrested, charged with the murder of Miss Rogers, his participation in the crime having been previously ascertained by the confession of one of his accomplices. It is said that they belong to a gang of 6 or 7 persons who met Miss Rogers on the morning of her disappearance and enticed her to enter a boat with them. This she did, and being afterwards persuaded to go on shore, she was led to a secluded spot, where she had been violated and then murdered.

Passengers in the ship *Emerald* from Liverpool—Drs. Harry Peters, Jun. and John Bedell, from the University of Edinburgh, and Mr. W. Kenah, of this City.

IMPORTATIONS AT SAINT JOHN,
For the week ending on Friday.

MARRIED,

On Saturday, by the Rev. Dr. Gray, Mr. Jesse Pickard, of Fredericton, to Annabella, eldest daughter of Mr. Ambrose S. Perkins, of this city.

On the 24th ult., by the Rev. Mr. Wilson, Mr. George Irving, of the parish of Portland, to Miss Catherine Wilson, of this city.

On the 28th ult., Mr. James Doherty, to Miss Johanna Donoghoe, both of the parish of Saint John.

At Carleton, on Wednesday last, by the Rev. William T. Wishart, Mr. William King, of this city, to Margaret, youngest daughter of the late David Henderson, Esq., of that place.

At Sheffield, on Thursday last, by the Rev. Michael Pickles, Wesleyan Missionary, Rev. Samuel McMasters, of the Parish of Ludlow, County of Northumberland, to Miss Martha Jewett, of the Parish of Sheffield, County of Sunbury.

DIED,

On Saturday, last, John, aged 6 months; and on Sunday evening, Ann, aged 34 years, the beloved wife and child of Mr. John P. M'Kay.—Funeral To-morrow (Wednesday) afternoon, at 4 o'clock, from the residence of Mrs. Mary Robertson, foot of St. James's street, when friends and acquaintances of the family are respectfully invited to attend.

Last evening, after a short illness, William, third son of the late Mr. William Barr, of this city, aged 17 years and 6 months.—Funeral on Thursday next, at 2 o'clock, from his Mother's residence in Wellington street.

On Tuesday last, 28th ult., after a long and painful illness, Barbara, third daughter of Mr. George Speer, aged 13 years and 11 months. She died with a blooming hope of a glorious resurrection.

On Sunday, Eliza Jane, wife of Mr. W. M'Naughton, after a long and tedious illness, which she bore with pious resignation to the Divine will, aged 24 years.

On Monday morning, Charles Matthew Holdsworth, aged 14 months, only son of the late Mr. Matthew Holdsworth, of this city.

In Portland, on Wednesday se'nnight, Alice, wife of Mr. Hugh Gallagher, aged 30 years.

Sudden y, at Yarmouth, N. S on the 12th ult. Mrs. Ruth Scott, consort of Mr. John Scott, Sen aged 70 years.

At Yarmouth, on the 22d ult, after a severe illness, Mrs. Bethia Davoue, wife of Mr. Leonard, M'Cormack, of Digby, aged 35 years.

At Cranberry head, near Yarmouth, on the 23rd ult. Capt. Robert Beveridge, late of the Brig *Haidee*, aged 32 years—leaving a widow and three children to lament their loss.

At Montego Bay, (Jamaica,) on the 1st Aug., in the 39th year of her age, Margaret, wife of James Rait, Esq. merchant of that place, (formerly of St. Andrews,) leaving a husband and seven children to lament their irreparable loss.

At the Quebec General Hospital, on the 15th ult. after an illness of three weeks Mr. Patrick O'Hara, aged 104 years, retaining his faculties until within a few days of his decease. Mr. O'Hara emigrated to Quebec in the year 1818, from his native town, Ballymena, in the County of Antrim, (Ireland,) in which place he spent 80 years of his life, esteemed and respected by all classes. The last ten years of his life were passed in the General Hospital, under the care of the Ladies of the Convent attached to that institution.

Port of Saint John.

ARRIVED.

Tuesday—Ship Pons Ælii, Gardner, Cork, 36—R. Rankin & Co., ballast.

Wednesday—chr. Mercy Jane, Longmire, Philadelphia, 10—J. & R. Reed, flour.

Friday—Schr. Challenge. Valpey, New York, 5—C. McLauchlan, assorted cargo.

Ship Elizabeth Bently, Hunt, Liverpool, timber, deals, &c.—N. S. Demill; Hebe, Wright, Cork, deals, lathwood, &c.—E. Barlow & Sons.

Saturday—Barque Perthshire, Risk, Greenock, 27—John Robertson, general cargo.

Sunday—Barque Mary Ann Harvey, Potter, Truro—ballast.

CLEARED,

Brig Horatio, Tiffin, Dublin, timber and deals—R. Rankin & Co.; Belle of Maitland, Lingly, Boston, paster, &c.—J. & T. Robinson; Ida, Fields, Baltimore, plaster and fish—R. D Wilmot; Caroline, Kirkpatrick, Sligo, deals—R. Rankin & Co.

Schr. Collector, Anderson, Halifax, limestone—Master; James Clark, Beck, Boston, coals—Master; Mercy Jane, Longmire, Philadelphia plaster—J. & R. Reed.—Olive Branch, Bouche, Halifax, slewives, &c—F. Harding—Angelique, Troude, Cocaigne, gypsum—Sancton & Crookshank.

Wreck of the Ship London.—Owing to the indefatigable exertions of George Ball, Esq. (the Magistrate residing at Mispeck,) the whole of the goods landed from the ship London, were secured without loss,—a circumstance which speaks very favourably for the inhabitants, and the judicious arrangements made by Mr. Ball, on the occasion, as in many similar cases, in other places, wholesale plunder often follows. The services of a boat's crew of Her Majesty's Brig Racer, who tendered their aid to protect the property, were dispensed with, in consequence of the prompt and praiseworthy measures adopted by Mr. Ball.—*Cou.*

The new ship Glenlyon, Capt Moore, which sailed hence for Liverpool about a month since, in returning to port, having sprung a leak at sea, was driven up the Bay by the late high winds, and came to anchor at Quaco, whither assistance was sent to her, and she arrived off the harbour this morning.—*Ib.*

Arrived at Quebec, 24th Sept. barque Lord John Russell, Daly from London; 21st. ship Queen of the Ocean, Tiley, Liverpool; 22d. ship Albion, Moran, London. all of this port.—Cleared, 17th, barque Atlantic, Hardenbrook, of this port, for London.

Sale of LOTS for the Interment of the DEAD.

ATTENDANCE will be given on the Ground of the Wesleyan Yard, Marsh Road, for the sale of LOTS still unpurchased, on Monday afternoon, October 11, 1841, at 4 o'clock, and adjourn to the Vestry of Germain-street Chapel, at 8 o'clock the same evening.

The very suitable soil for the purpose to which this ground is appropriated, has been very much approved of by parties who have already purchased Lots, and the only restriction which is imposed for the sake of preventing unpleasant errors, is, that the Sexton appointed by the Trustees, and no other person, has power to dig any Grave in the said Yard, who is to be applied to in every instance.

By order of the Trustees.
W. WHITESIDE.

Mr. WILLIAM CROTHERS, is the Sexton at present; he resides in Exmouth street, Vinegar Hill.

St. John, Sept. 29, 1841.
[All the City Papers.]

BIBLE SOCIETY REPORTS, &c.

THE Secretaries of the Branch Bible Societies and Associations connected with the New Brunswick Auxiliary Bible Society, can be furnished by the Secretary of that Society with Copies of the Thirty Seventh Report of the British and Foreign Bible Society, and the Speeches delivered at the last Anniversary.

St. John, Sept. 28, 1841.

September 28.

NEW ADVERTISEMENTS.

GRAMMAR SCHOOL.

MR. PATERSON having returned from Great Britain, desires, in resuming his duties as Head Master of the Grammar School of this city, to offer his most sincere acknowledgements to his friends for their former patronage and support, and to inform them, that having made it his principal business to visit the most respectable seminaries of learning in London, Liverpool, Edinburgh, and Glasgow, he is prepared to engraft upon his own plans of instruction and scholastic discipline, whatever he deemed useful in the systems which he saw in operation. Several vacancies having occured in the School during his absence, parents desirous of giving their children the advantages of a thorough Classical, Mathematical, and Commercial Education, have now a very eligible opportunity.

Terms, as established by the Directors:—For Tuition, £6 per annum, payable quarterly; fuel, school-cleaning, &c. 7s.6d. per annum.

Mr. P. can now admit into his family five or six pupils as boarders, either to attend the Public School, or to receive their education privately in the house. A wholesome moral influence will be continually exercised upon their minds, and the fear of God constantly inculcated. Terms per annum, including Tuition, fuel, and light, books, paper, pens and ink, £61. In the evenings, instruction will be imparted, if desired, in Natural Philosophy, French, and Drawing, at an extra charge. The lessons in Drawing will be given by Miss PATERSON, who has rendered herself fully competent to impart instruction in that useful and ornamental branch of education.

Saint John, 5th October. 1841.

EDUCATION.

THE subscriber intends opening an EVENING SCHOOL for the accommodation of Apprentices and others whose occupations will not admit of their attention in the day-time. The School will commence on Monday the 18th of October, and continue from 6 till 9 o'clock each evening, during the Winter season

THOMAS HUTCHINGS.
Duke Street, 5th October, 1841.

STORE, &c. To Let.

THE *STORE*, Cellar, and Premises in Dock street, belonging to the subscriber, recently occupied by Mr. Brannan, Hatter.—Possession given immediately, at a low rate until 1st May next.

October 5. J. JOHNSTON.
[Cour. News 3w.]

FLOUR.

LANDING ex Schr. *Angelique*, from Quebec:—50 Barrels Superfine FLOUR.—For sale by

JARDINE & CO.

Brown's Compound Boneset Candy,
MEDICATED.

A REMEDY that has gained a great reputation for the cure of Coughs, Colds, Whooping Cough, Phthisic, Sore Throat, and all diseases of the Lungs; also it is in extensive use for clearing the voice for vocalists and public speakers; and in consequence of the extensive sale and wonderful efficacy for curing the above complaints, has caused a number of Druggists and Confectioners to counterfeit this valuable Cough remedy. An imitation has just been shown me with my name stamped on the Candy, evidently to deceive the public. For the genuine you will call for "Wm. Brown's Boneset Candy. Medicated," and see that the direction is signed by the proprietor, and the Candy stamped "Wm. Brown."

☞ The subscriber has just received a supply of the above genuine article from Boston, which he offer for sale at his store, late *Circulating Library*, Germain street.

J. ELLIOTT.
