MC 2035 POOR DOCUMENT

ONE-HALF BOTTLE OF THE GREAT KIDNEY REMEDY ACCOMPLISHES RESULTS

When I sent for a sample bottle of Swamp-Root, I was in great distress day and night. Before I received sample by mail, I went to our best doctor (and he is second to none in this vicinity) and told him how I felt. He put me up a bottle of medicine. I was about a week taking the medicine, but was no better than when I began. I then began your sample bottle, and before I got through with it, I felt a change. The scalding sensation did not bother only a few times in the middle of the day. I would not have believed such a small quantity would have done so much, but before it was gone I learned that our druggist kept Dr. Kilmer's Swamp-Root and so got a large bottle for one-dollar but actually worth one hundred dollars. I only took one large tablespoonful three times a day and before I had taken one-half bottle I was all right and have been since. Gratefully yours,

GEORGE S. CHAMPLIN,
Ashaway, R. I.

State of Rhode Island,
County of Washington
ss.

Personally appeared Geo. S. Champlin, to me well known and made oath that the foregoing statement by him subscribed is true

E. A. ALLEN, Notary Public.

Letter to
Dr. Kilmer & Co.,
Binghamton, N.Y.

Prove What Swamp-Root Will do for You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information telling about the kidneys and bladder. When writing, be sure and mention the St. John Evening Times. Regular 75 cents and $1.25 size bottles for sale at all drug stores in Canada.

HARD PRESSED, SELLS GOLD IN HER TEETH

Her Husband Losing His Situation, Woman Makes Sacrifice to Keep Family Going.

A Pontiac, Mich., dentist tells this Christmas story. A woman whose name was not given out, in the days of the prosperity attendant on "a steady job," held by the head of the house, came to him and had a good deal of work done on her teeth. Several of gold fillings were made and the bills paid.

The husband lost his place. A little credit was obtained for the necessities of life, but horror of debt was strong in the household. There were little mouths to be filled, though, and the harassed mother cast about for some help, too proud to ask for charity.

It was then that she reappeared in the dentist's office and asked him to extract the gold from her teeth and buy it, that she might be able to buy food and fuel for the weeks before the better times promised "the first of the year."

The case was brought before some persons who will do what they can for the family.

At Home Then

"When can I surely catch your husband at home?"

"That's hard to tell, but he's nearly always here for breakfast."

TELLS OF NEED FOR GIRLS' HOME

Address By Rev. Dr. J. W. MacMillan

METHOD OF SUPPORT

No Public Appeal For Funds—Committees Appointed to Further Project

Rev. J. W. MacMillan, D.D., of Halifax, delivered an interesting address last evening in Bond's restaurant on the subject of a maritime home for delinquent Protestant girls. Rev. Gordon Dickie presided. Many of the clergy, and representatives of the different denominations in the city were present to listen to Dr. MacMillan's forceful arguments in favor of a project which, as yet, has received more attention in Nova Scotia than in the other maritime provinces.

After a few preliminary remarks on the subject of infant mortality, the speaker said: "The young are impressionable far beyond adults; what they are when they arrive at the age of twenty they will, almost without exception, continue to be. During their years of frailty, if they are to be robust and useful in the true sense, something must be done for them. We must consider the children whilst they are normal, and see that they are normally placed. If they become abnormal, defective, or delinquent, they must be cared for. It is to the delinquent class of girls that I desire to direct your attention."

The speaker then outlined the modern procedure in dealing with delinquents, with particular reference to the juvenile courts, the effect of supervision and control by probation officers, and of suspended sentences, remarking that a faithful interpretation of the law on the subject, combined with right action by a carefully chosen probation officer, was all important.

The Proposed Home.

With regard to the proposed home, Dr. MacMillan pointed out that it was intended to be a home or school for delinquent Protestant girls, there being already in existence institutions for Protestant boys and for Roman Catholic boys and girls of the delinquent class.

"It is not to be an orphanage, not a home for mental defectives, not a rescue home for adult prostitutes. Wayward girls can be reformed only when kept separate from other classes. It is not proposed that the home shall be self-supporting, and any money that the inmates may earn by sewing, garden work, and so on, must not be reckoned with in considering the matter of their support. There must be educational facilities, and vocational training, to be of use to them when they, in due course, go out into the world; and also proper discipline, of the invisible moral sort, and physical rehabilitation. All must agree that moral and religious training must receive every attention.

"It is estimated that the home will cost $80,000, towards which Halifax men have already subscribed $4,000, and it is proposed to locate it on the outskirts of some town, or city, where it will have the advantages of water, light and sewerage. It should occupy at least ten acres to allow plenty of room for outdoor life. Local jealousies can be avoided by leaving the choice of the site to two church secretaries living as far away as Toronto.

"It is proposed that the control of the home shall be vested in the board of temperance and moral reform of the Methodist church, and the board of social service and evangelism of the Presbyterian church, acting through a local board of management. The Baptists of the maritime provinces intended to deal with the matter at their last annual convention but no action was taken. The executive of the convention, however, is in sympathy with the project and promises to see that the matter is brought before the convention this year for definite action.

"The bishops of Fredericton and Nova Scotia were approached on the matter, but felt unable to commit their dioceses to co-operation without consulting their synods. They, however, favor the movement.

"The home will be a Protestant home conducted on non-sectarian lines. It will be supported chiefly by government grants from the province sending the girls. The government of Nova Scotia has engaged to pay $100, and perhaps $150, a year for each girl, the government of New Brunswick $150 a year, such sum to be paid by the municipality from which the girl comes, and the government of P. E. Island, $150 a year for each girl. There will be no annual appeal to the public.

"A superintendent will have to be carefully chosen for the home, as on him, or her, will depend the value of the training. Following up work will be done by probation officers."

Other Speakers.

Those present at the meeting were invited to ask any questions or make observations on the matters that had been brought to their notice. Rev. F. S. Porter said that in view of the fact that delinquent Protestant girls sentenced in St John John were sent to jail, the Catholic girls being sent to the Home of the Good Shepherd, he had heard with much pleasure of Dr. MacMillan's proposals. Rev. H. E. Thomas enquired whether it was quite certain that the grants would be forthcoming from New Brunswick, pointing out that as the Catholics care for their own children they might raise objection to grants for Protestant delinquents.

Mayor Frink pointed out that in the Boys' Industrial Home at St. John a sum of $150 is paid annually by the government for each boy. Roman Catholic clergymen visit the home regularly. He commented on the practice of sending boys to the home for truancy and thought this was a great mistake, as they had to associate with others who had been charged with more serious offences.

Some discussion followed as to how the proposal to establish the maritime home for girls could be dealt with and it was ultimately decided, on motion of Rev. W. F. Gaetz, seconded by Judge Forbes, that a representative committee should be appointed, with power to add to their number, to consider the matter. The following persons were appointed on the committee:

Committees.

Church of England—The Bishop of Fredericton, Rev. G. A. Kuhring and Mayor J. H. Frink.

Methodist—Rev. H. E. Thomas, W. B. Tennant, T. H. Bullock.

Presbyterian—Judge Forbes, W. C. Whittaker, Rev. Gordon Dickie, C. E. Macmichael.

Other organizations—A. M. Belding, Adjutant W. Cummings.

Two representatives of the Women's Council to be named.

Rev. Gordon Dickie was appointed convenor and chairman of the committee.

Rev. Dr. MacMillan's address was preceded by a supper at which a large number were present.

BOARD OF TRADE COUNCIL

At the regular meeting of the board of trade yesterday the report of the traffic committee was heard. Percy W. Thomson, the chairman, reported that letters had been sent Hon. Robert Rogers, minister of public works, and Hon. J. D. Hazen, urging more rapid wharf construction and asking if the Connolly contract had been cancelled. A reply from Mr. Rogers said that the matter had not yet been decided. No reply has yet been received from Mr. Hazen.

The committee's report also dealt with the matter of safeguards for navigation, the St. John-Yarmouth steamer service, on which the opinion of all the local merchants had been asked. Customs clearing formalities and the matter of urging the government to construct the two new wharves at Reed's Point were also touched upon.

The report of the housing committee was also submitted. J. H. Doody, who is to tour the West Indies, was appointed a delegate from the local board to confer with the other boards on the islands.

COMMING WEDDINGS.

The wedding of Captain R. J. S. Langford of the R. C. R., formerly of Fredericton, to Miss Gravely of Halifax, is announced to take place in Halifax on January 14.

Mr. and Mrs. Fred T. Mann of Fredericton announce the engagement of their daughter, Bessie Burna, to Rufus K. Steeves, of Berry's Mills; the marriage to take place in the third week in January.

The marriage of Josephine A. Goodall, of Gunningsville, Albert County, to Andrew Boland, of Halifax, will take place on Jan. 10.

Daily Hints For the Cook

English Batter Pudding.

This goes with green gooseberies and is made as follows: Pour a pint of milk over a slice of bread, crumbled, stir ten even tablespoons of flour in, add the yolks of four eggs, half teaspoon of salt, and finally the whites of four eggs which have been beaten to a stiff froth. Beat this batter carefully and stir in a quart of green gooseberries. Put the pudding into a greased mold, or tie it up in thick cloth which has been thoroughly greased and floured. Boil two hours. Serve with English brandy sauce, or olf-fashioned hard sauce.

Sussex Elections.

Sussex, N. B., Jan. 6—(Special)—Considerable interest was taken in the civic elections which were held here today, and everything passed off quietly.

The council for 1914 is as follows:

Mayor, W. B. McKay; alderman at large, W. D. Turner; Ward 1, J. D. McKenna and C. B. Spear; Ward 2, Gordon Mills and W. E. McLeod; Ward 8, Harry Chapman and Howard Pearn.

ECZEMA STARTED IN A RASH

Suffered Terribly. From Eyebrows Spread to Neck, Chest and Arms. Completely Cured by Cuticura Soap and Ointment.

Briercrest, Sask. — "When my baby boy was about four months old he suffered terribly from eczema. The trouble started in a rash and was very itchy. It made him very cross and fretful. I noticed the rash first in his eye-brows. From there it spread to his neck, chest and arms. When he would scratch, it would make sores.

"I got medicine but it did no good. I tried different remedies without result. At last I got a sample of Cuticura Soap and Ointment and after using them for two days I noticed a change. I then purchased a full-sized cake of Cuticura Soap and Cuticura Ointment. I would give him a hot bath with the Cuticura Soap every night afterward applying the Cuticura Ointment. Before I had used half of the Cuticura Soap and Ointment he was completely cured." (Signed) Mrs. H. L. Stromberg, May 29, 1913.

The regular use of Cuticura Soap for toilet and bath not only tends to preserve, purify and beautify the skin, scalp, hair and hands, but assists in preventing inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads, redness and roughness, yellow, oily, mothy and other unwholesome conditions of the skin. Cuticura Soap and Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

USE ABSORBINE, JR., LINIMENT FOR IT

Painful, Knotted, Swollen Veins, Milk Leg, Mammitis, Old Sores, Ulcers. It is Healing, soothing, strengthening and invigorating—allays pain and inflammation promptly. Germicide and antiseptic.
