## PRAISE FOR TEAM

Duke of Connaught Toasts the Canadian Artillerymen.

### GIVEN FAREWELL DINNER

The Dominion's Next Governor-General Says He Will Be Sailing For Canada In a Month—He Eulogizes the Gunners For Their Work and Commends the Practice of Competing in Great Britain.

London, Sept. 6.—Last night's farewell banquet in the Connaught rooms, given under the auspices of the National Artillery Association to the Canadian Artillery contingent, who are homeward bound to-day, proved a brilliant spectacle, and one which will live long in military annals of the Dominion and the Motherland. The Duke of Connaught presided, and among the prominent guests were Lords Strathcona and Stradbroke and the Lord Mayor. At the cross table His Royal Highness were Lieut.-Col. Renouf and Col. MacKachian. The duke, in proposing the toast of the Canadian artillery team, said it was wonderfully creditable to the Dominion that they should have been successful in winning the Prince of Wales' Cup, the association's second principal trophy, and congratulated the team on the many trophies they were taking back, including the King's Prize for coast defence, and the Canada and London-Edinburgh Cups. He congratulated them on their coming to England, as nothing could do more to promote comradeship than rubbing shoulders with the British soldiers. In conclusion the duke said he was sailing for Canada exactly a month hence, and hoped to meet them all on the other side of the Atlantic.

Earl Stradbroke jokingly said that while the association was not jealous of the Canadian artillery's prowess in taking back to Canada more than the lion's share, they did resent the carrying off of their president, too.

What is a Publication?  
Ottawa, Sept. 6.—Just what class of matter is entitled to be called a publication and to receive publishers' privileges is a point over which some friction has developed between the Post-office Department and some societies which publish official organs.

A deputation yesterday waited on the Deputy Postmaster-General in regard to one of these publications, "The Co-Operator," issued by the Canadian Co-operative Union. The Postoffice Department recently declined to grant publishers' privileges to it and this the union claims is somewhat unfair. The reason given for the Government's action is that as the magazine is not supported by individual subscription, but is bought by numbers by different local societies, it is not properly a publication. As opposed to this its publishers claim that different fraternal organs such as those of the Sons of England, are granted publishers' privileges, although not supported by private subscription. Consideration was promised by the Postmaster-General.

Night Watchman Run Over.  
Toronto, Sept. 6.—Run over by a C.P.R. light engine at the Ryding avenue crossing, ward seven, Henry Hembert, aged 40, of 264 Ryding avenue, was instantly killed at 6 o'clock last night. He was riding a bicycle on his way to work. Some trees are thought to have obscured his view, for evidently he did not see the engine.

Hembert was a night watchman in the employ of the Campbell Milling Co., and he was on his way to work. He came out from England only a couple of months ago, and the widow and several children are over there now.

Coroner Rowe will open an inquest at Speers' undertaking establishment this afternoon at three o'clock.

Increases Its Capital.  
Montreal, Sept. 6.—The Bank of Montreal shareholders met yesterday and ratified the change in the by-laws increasing the capital from \$14,400,000 to \$16,000,000.

The motion was made by Sir Edward Clouston, seconded by Mr. E. B. Greenfield, and carried unanimously. The price at which the stock will be offered to the shareholders has not yet been decided upon by the directors.

## FORCES MOBILIZING

Rumors of Franco-German War Rife in Europe.

### MANOEUVRES BEING HELD

The Kaiser Reviews His Fleet, Which Is Now Second In the World, and M. Delcasse Makes Significant Remarks at a Similar Review of the French Fleet—Troops Are Hurrying to the French Frontier.

Paris, Sept. 6.—The Minister of Marine, Theophile Delcasse, at the close of Monday's review at Toulon said: "The vessels which you have just seen are ready to be mobilized immediately. Their powder magazines are full, and all of them could be mobilized immediately."

La Patrie, in headlines running across its entire front page, announces a movement of French troops toward the French frontier. Inquiries made at the Ministry of War elicited the information that this movement is connected with the manoeuvres of the French army, which, beginning yesterday, will last until Sept. 13.

In addition to the garrisons stationed in the district, 30,000 troops are now moving toward the French frontier, which is the objective of the army. The aeronautes participating in the manoeuvres, numbers forty experienced airmen.

Kaiser Reviews Fleet.  
Kiel, Sept. 6.—The fleet that assembled here yesterday is believed by German experts to give Germany for the first time the rank of the second naval power of the world, the three great Dreadnoughts of the German fleet, the two Dreadnoughts, the cruisers Von der Tann and Blucher, commissioned during the year, ousting the United States from the position which it held by a slender margin last year.

The total displacement of the great fleet gathered yesterday amounted to about 500,000 tons in round figures. Its engines were capable of developing 1,400,000 horsepower, while it was manned by 12,000 officers and 30,000 men. The armament consists of 188 big guns, 48 of middling calibre and 670 smaller cannon, without counting machine guns, while the vessels are fitted with 400 torpedo tubes.

Belgium Sharpening the Sword.  
Brussels, Belgium, Sept. 6.—Thirty field pieces arrived yesterday at the fortified town of Namur, thirty-six miles from Brussels, from the National Arsenal at Antwerp. Last week two special trains arrived at Namur carrying sixty field guns, twelve Hotchkiss guns, and five carloads of ammunition.

Run on German Banks.  
Berlin, Sept. 6.—Wild rumors are being circulated in the German provincial towns. At Stettin large sums of money have been withdrawn from the savings banks, this action on the part of the people being influenced by rumors that war was impending.

Two Drowned.  
Rainy River, Sept. 6.—Dick Howan of Saskatoon and Frank Hopen of Barwick, Ont., were drowned in the Rainy River, just east of the town, about 7.30 Monday night. The two men were employed as log pushers and were paddling down the river for Beauclaire, Minn., in a canoe, after their day's work, when the accident occurred.

About an hour later the upturned canoe and the hats of the two men were found floating in the river. LePage was a strong swimmer, but probably lost his life in trying to save Howan. The bodies have not yet been recovered.

Four Dead, Forty Hurt.  
Freemont, Wis., Sept. 6.—Four men are dead and forty passengers hurt as the result of a wreck on the Soo line early yesterday, when a limited passenger train from St. Paul for Chicago ran into an open switch. Engineer Kueser and two tramps and a passenger, names not known, are dead. It was not for hours after the wreck that there was any help sent, for the first word of the disaster was brought by an injured brakeman. He was forced to almost crawl two miles from the scene of the wreck to this city.

Wilson on Reciprocity.  
Lincoln, Neb., Sept. 6.—Secretary of Agriculture James Wilson delivered an address at the Nebraska State Fair here yesterday advocating the reciprocity agreement with Canada, and dwelling on the beneficial results which he believed would accrue from the adoption of the agreement, which he believed, would be to the advantage of both countries.

Fatal Runaway.  
Lindsay, Sept. 6.—W. S. Singer of Kirkcaldy was killed when a team belonging to Sir William Mackenzie's estate ran away. It appears that the box on the wagon slid on to the horses' heels, causing them to make a bolt for liberty. Singer was thrown and ran over, dying from internal injuries.
