

# Industrial Review From Many Sources

## Do We Take Small Accounts?

We do more than that. We invite them—welcome them—and take good care of them. If you wish to open a Savings Account for any particular purpose—or wish to teach the children to save by having an account in each child's name—do not hesitate to do so because the amounts to be deposited will be small. \$1. is sufficient to open a Savings Account, and deposits of \$1. are always welcome.

### LABOR WANTS ELECTION.

At a meeting between Right Hon. T. J. MacNamara, minister of Labor, and representatives of the Labor party made little progress with the unemployment problem. Regarding an enlargement of the export credit agreement has yet been reached owing to the indecision concerning the extent of the guarantees likely to be required.

The Laborites are known to regard the suggestion of aid to emigration dubiously, contending that the prospects in the Dominion are not so rosy as the advocates of that policy are apt to declare. Labor opinion is also hardening against the proposals of a twopenny weekly levy, on all workers. Arthur Henderson, secretary of the Labor party, speaking at Edinburgh, said the Labor executive were convinced that there must be an early general election. Although Labor is prepared to give all assistance possible, the government, he said, must accept full responsibility for its own policy. There could be no effective solution until the international situation was boldly faced.

### WANTS LABOR REPRESENTED.

Lord Robert Cecil, speaking at Hull, said he considered the great blot on the League of Nations was the fact that it contained no working men delegates. He emphasized the urgent need of government control of the manufacture of arms in order to minimize incitements to war. He held that Germany ought to be admitted to the league, and he believed would have been admitted at the recent assembly if she had applied.

### JOBLESS PARADES.

A section of London's out of work were felled through police efforts to hold their demonstration at Trafalgar Square, and the final result was in a clash, in which several of those who had taken part in the long three hour march received injuries.

At Sheffield 10,000 jobless assembled and adopted resolutions demanding increased doles, the opening up of trade with Russia, and the release of all political prisoners. A deputation visited the Lord Mayor, who promised to put their case before the Ministry of Health.

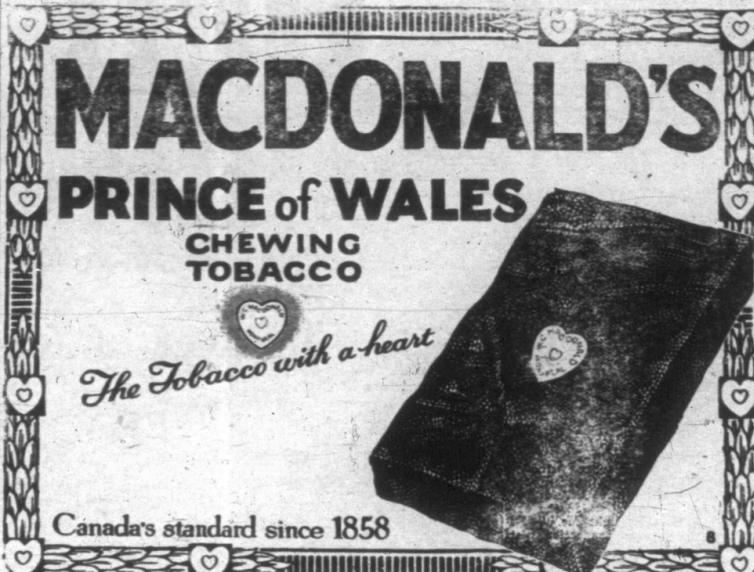

At Manchester several thousands assembled at the Town Hall, while a deputation waited on the Lord Mayor. According to reports, the Sheffield and Manchester demonstrations were entirely orderly.

### RATION UNEMPLOYED.

After a long discussion of the unemployment problem, of England the Manchester Chamber of Commerce has suggested that the government enforce a system of rationing of work so as to spread it among the greatest number of workers.

The chamber has also memorialized the premier remarking on the distinct improvement noticeable in the textile trade and urging the cancellation entirely or partially of the inter-union industrial agreements in order to maintain this, in order to maintain this, in order to maintain this.

It was further declared by this important mercantile organization that while generally admitting the importance of a wise and reasonable policy being maintained by the

Canada's standard since 1858

banks it was felt that caution was being carried in some directions to a greater degree than events justified. It was thought that nothing in the nature of a further inflation should be permitted.

### PRICES TO FALL.

The National Town Planning Council declares that the present position of the building world will within a few weeks bring a break in prices of building material and labor. It is anticipated that by the middle of next year two hundred thousand houses will have been built by local authorities in the United Kingdom.

### TORONTO OFFICIAL DERIVES INFORMATION.

For the purpose of aiding the city of Toronto in adopting relief measures during the winter, Dr. C. J. O. Hastings, Medical Officer of Health, has sent a questionnaire to the Board of Trade, Canadian Manufacturers' Association, Trades and Labor Council and managers of the larger industries, to ascertain how the unemployment situation compares with the years 1913 and 1920.

This information is desired so that whatever is done will work toward definite objects—first, to provide adequate work; and, secondly, to get some return for the money expended. It is recognized in some cases work will have to be provided for men who are not more than 50 per cent. efficient, and in this respect the cost will be high, but it is hoped that this

### MONTEAL TRADES COUNCIL.

Representatives of the Metal Trades Council waited upon the Hon. C. C. Ballantyne at Montreal, and asked his assistance in obtaining employment for the idle metal workers of this city, of whom they alleged there are 5,000. They suggested to the Minister that work might be found for them in the various ship yards. Mr. Ballantyne promised to take the matter into serious consideration.

Hard times are reported among the cloak, suit and raincoat workers. Out of the 1,500 members of local unions there are 1,300 men out of work, according to the statement of one official today. Only 200 have steady employment, he claimed. Members of the Clothing Workers' Union, however, are better off, for out of the 4,000 men not more than 10 are unemployed, it was stated.

**Flooring That Wears**  
 There are few floors that are subject to greater vibration than those in our Sheet Metal Factory, yet they show no effects of the strain. This is because they are covered with Rock Mastic Flooring. Rock Mastic is elastic and resilient, so does not crack easily and is dust and damp-proof. Rock Mastic will withstand heavy traffic and the constant vibration from heavy machinery. Prices and particulars gladly given upon request.
