

PROVINCIAL NEWS

ST. MARTIN'S, July 31.—In the absence of the pastor, the pulpit of the Baptist church Sunday was occupied in the morning by Michael Kelly and in the evening by Edward Lockhart, a native of this place, but who for a number of years has resided in Boston. Both services were of deep interest. Bro. Lockhart has for a number of years been engaged in evangelistic work in Boston and his many friends were delighted to see and hear him. He was greeted by a very large audience.

Miss Grace Carson, who has finished her course at a St. John business college, has returned home.

HOPEWELL HILL, July 30.—Downey Bros. of Curryville have the contract for building the new Methodist church at that place, the contract price being in the vicinity of \$1,900. Considerable indignation is felt by the residents of Curryville and Cape Station over the recent setting of a number of brush fires in that locality by some party, who, it is thought, had no good end in view. In all nine fires were started, which fortunately were discovered in time to prevent material damage. The people of the settlement think there should be a strict investigation.

J. D. Moore, who has been visiting relatives here, left by yesterday's train on his return to Boston.

H. L. Brewster of the I. C. R. treasurer's office, Moncton, returned to the railway town yesterday after spending two weeks' vacation at his home here.

Wright which has been offered for sale. Several other parties have also been in the area, but the property, which consists of some 500 acres in the Memeé settlement.

BURTON, Aug. 1.—On Saturday last Mrs. Samuel Chavard, daughter of residence, Shirley, aged 59. She had been subject to heart trouble for a long time. Her funeral took place on Monday, July 31st, when Rev. W. J. Kirby preached in the Oromocto Methodist church to a large congregation. Interment was in the Oromocto cemetery. Mrs. Crawford was a lady very much esteemed and beloved by all who knew her. She was married to the Methodist church. One son and one daughter, Mrs. Handford Allen, survive her.

James Logue of Upper Burton and Miss Flossie Hubble, daughter of Geo. Hubble of Oromocto, were married at the bride's home by Father McDermott. They will reside at Burton.

E. A. Hoben of Upper Gagetown has a large estate in the Oromocto. Ennack Bros. of Fredericton are mounting it. It is said to be a very fine specimen.

The line men have finished putting in new telephone posts for the present. The line is changed at the lower end of Upper Gagetown, and instead of going over the intervals as formerly, the line will go around the road at the head of Duck Lake.

A strange freak of nature is freely commented upon around Oromocto. Thomas McGrath has a black mare which had a colt a short time ago, which was most peculiarly marked. It had a red mane, pure white tail, forelegs white to the shoulders, white face, white rings around the eyes, white belt extending round the body, while the remainder was a bright bay color. It was sired by Kearsarge, Jr. Unfortunately it only lived a few days.

The Swan Creek bridge has received a much needed plank covering.

Dr. A. M. Scott of the U. N. B. preached very acceptably Sunday in the Shirley and Oromocto Methodist churches. Mrs. Scott accompanied her husband, and were entertained at Mr. and Mrs. C. L. Wade's.

Toner in his evidence said that on the night of the assault he was sitting near the railway track in Regent street when three persons came along whom he recognized as being McSorley and the two McCatherines. This was about 9 o'clock.

After a few words with them, the three proceeded up Maryland hill. The next saw three men standing near the Randolph fence. It was half an hour after that that he heard a scuffle in that vicinity and a voice saying: "You'd better stop, boys." About five minutes after, Toner saw down the hill, the hill, groaning considerably, and he thought he was helpless as he passed him. He did not see the three young men again. Adams' evidence was to the effect that he was on Maryland Hill on the evening in question. An application for position of town marshal from Purpee Estabrooks was referred to the Police Committee. Aid. Dixon, as chairman of the street committee, reported on the road work since May at an expenditure of \$1,027.24.

The motion was carried that the firemen who were called out at the fire in the Fawcett and Copp block be recompensed by the town at the rate of 25 cents an hour. It was decided to hold an assessment for the origin of the fire. Mayor Wood referred to the difficulty that had arisen re Stephen O'Brien v. Town Marshal, he being a non-resident. This would not be a fair assessment for town purposes. The motion was carried that a special constable be appointed till such time as a marshal is in office. The report of the finance committee was read and approved. It was stated that the committee met last Friday and with the mayor examined carefully the appropriations for 1905. The increase over last year of \$1,390 is explained as follows: The fire debentures of \$200 become due this year; maintenance of fire alarm requires \$150, also new expenditure; the poor assessment up Maryland hill, the sum of \$1,000; the sum of \$7,345 was a total of \$1,390. A WOMAN'S SYMPATHY.

Are you discouraged? Is your doctor's bill a heavy financial burden? Is your pain a constant torment? Do you feel that you are being deceived? I want to relieve your sufferings. Why not send the pain and the doctor's bill to me? I can do this for you, and will, if you will, send me a free box of the remedy, which has been placed in my hands to be given away. It will be a great benefit to you. It has done so for others, of so I shall be happy, and you will be cured for 2c. (the cost of a postage stamp). Your letters held confidentially. Write to-day for my free treatment. MRS. F. R. CURRIER, Windsor, Ont.

JOHN W. CLAWSON

Appointed to Chair of Physics in Ohio University.

John W. Clawson son of Joshua Clawson, manager of West End branch of the Bank of New Brunswick, has accepted the chair of physics in the State University of Ohio at Columbus.

The appointment is a great honor to Mr. Clawson as the university is one of the largest of the western universities having about 2,000 students in attendance. Mr. Clawson will take up his work in the fall.

The new professor was born in this city and studied at Leinster street school and the High school in this city. In 1901 he graduated from U. N. B. having made a good all round standing and with first class honors in mathematics and physics. He also obtained distinction in chemistry. In his junior year he won the Brydson-Jack scholarship. During his course he took a great deal of interest in astronomy.

He next took up post graduate work at Queen's College, Cambridge, where he graduated with honors in mathematics in 1904. During the last year he lectured at his Alma Mater at Fredericton on astronomy and also obtained his M. A. at the close of the term.

Mr. Clawson has always taken a great deal of interest in athletics and while in Cambridge he took a number of cups in rowing contests. He has travelled quite extensively on the continent and has a fluent command of French. His many friends here will wish him all success in his new position.

ALBERT COUNTY MAN

HOME FROM WEST.

Explained Increase Recently Made in Royal Arcanum—New Engine For Electric Works.

MONCTON, N. B., Aug. 2.—W. H. Colpitts, a former Albert county man, now in Winnipeg, is home on a vacation. Mr. Colpitts reports many former New Brunswickers doing well in the west, including Howard Lynch, formerly of Moncton, who is now running a C. P. R. engine out of Brandon, and another, a former engineer, who is now an engineer, the latter a conductor; S. W. McKinnon, who formerly ran between Moncton and Campbellton, and is now taking the Imperial Express at this point; and Patrick McDonald, another former I. C. R. man, now employed on the C. P. R. The crops in the west, Mr. Colpitts says, promised well when he left there. There was a meeting of the Royal Arcanum at this point, at which Daniel R. Beckford of Boston explained the recent increase in the insurance rates of this society. The Royal Arcanum has a large membership in Moncton, much new blood having been taken in during the last year or two.

The Scott Act continues to be a steady revenue producer. One hundred and fifty dollars was collected last month, and the total to date this year being about \$2,000, a sum in excess of the collections for the same time in any previous year.

The largely increased use of electric light and power has overtaken the present capacity of the works and the city has ordered a large new engine from the Robb works at Amherst, and has commenced work on the foundation for an extensive addition to the engine house. The additional power to be furnished will be expected to meet all wants for some years to come.

Rain fell freely today, preventing the baseball match between the Midleton, N. S. team and the Y. M. C. C. but it will be a great benefit to the crops, which were beginning to feel the effects of the drought.

TEST THE KIDNEYS.

Allow the urine to stand in a glass vessel for twenty-four hours and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. A test of this kind is the action of the kidneys and making them strong and healthy, there is no preparation so prompt and none so thorough as Dr. Chase's Kidney-Liver Pills.
