GOV.-GENERAL IN EDMUNDSTON SEPTEMBER 28

The vice-regal party to make first stop here, in an official tour through the Maritimes, from Sept. 28th to Oct. 19th.

A RECEPTION IS PLANNED

His Excellency Lord Bessborough, Governor-General of Canada, and the members of his party in an official tour of the Maritimes, will first stop in Edmundston on September 28th.

His honor Mayor J. E. Michaud was notified in a recent letter emanating from Rideau Hall; most likely, a reception to the representative of His Majesty on Canadian soil will be prepared by the Town authorities.

The vice-regal party will spend three days in Fredericton, two in St. John, three in Halifax and two in Charlottetown, with brief stopovers in smaller cities.

Following is the itinerary announced: Edmundston, N. B., Sept. 28; Grand Falls, 29; Fredericton, 29; St. John, 30; Saint John, 30; leaving 30; Moncton, 2; Amherst, N. S.; Truro, 3; Windsor, 3; Wolfville, 4; Kentville, 5; Annapolis Royal, 5; Digby, 6; Yarmouth, 6; Sheburne; Lockeport, 7; Liverpool, 8; Lunenburg, 8; Halifax, 9; leaving 10; Antigonish, 11; Sydney, 12; New Glasgow, 13; Charlottetown, P.E.I., 14; leaving 15; Chatham, N. B., 16; New castle, 16; Bathurst, 17; Campbellton, 17; and arriving back in Ottawa, Oct. 19.

A. F. Lascelles, secretary to the Governor-General, and the following aides-de-camp will accompany the official party: Lieut. D. H. Fowler, Capt. R. Stuart-French and Capt. Sir John Child.

Charming Wedding At Kingsley

A charming wedding was solemnized on Monday afternoon, August 24th, at 2:30 o'clock, at the home of Mrs. James Burnett, Kingsley, when her daughter, Jean Kathleen, became the bride of Malcolm Ernest Amos, of Edmundston. The ceremony was performed by Rev. Harry Burns, pastor of the Gibson Memorial Church, South Devon, and witnessed by immediate relatives of the family.

The bride was given in marriage by her uncle, Alexander McFarlane, and passed through an aisle of white ribbons held by her sisters, as the Bridal Chorus was played by Mrs. Harry Burns of Devon. She wore a most becoming gown of pencil line georgette, large blue velvet hat grey shoes and stockings, and carried a bouquet of Columbia roses, infantia breath and sweet peas. Her youngest sister, Margaret, gown in Nile green georgette with matching hat and carrying a basket of sweet peas made a charming flower girl. The parlor where the ceremony was performed was attractively decorated with palms, ferns and golden glow.

Following the ceremony a luncheon was served, the dining room being in yellow and pink, and the bride's table centered with a four tier wedding cake with wedding bells and sweet peas. Yellow roses and sweet peas and yellow tapers in silver holders were attractively placed. Mrs. Harry Seymour, Mrs. George McFarlane and Mrs. Alex. McFarlane presided.

The bride and groom who are popular with a large circle of friends received many gifts, including silver, china, linen and cheques. The groom's gift was a wrist watch set with brilliant, to the flower girl a sapphire ring and to the pianist a sterling silver pin with onyx setting. The bride's gift to the groom was a set of gold cuff links.

Mr. and Mrs. Amos after a motor trip through the Upper Canadian cities will reside in Edmundston. Going away the bride wore an ensemble of navy blue cape, Roman stripe blouse, black belt hat, shoes, stockings and other accessories to match.

Among the out-of-town guests at the wedding were Mr. and Mrs. George McFarlane, Mrs. Hutchison and daughter Edna of Edmundston, Mrs. Catherine Amos of Saint John, and Mr. and Mrs. William Hurley of Stanley.

RALPH WALHEM MANSLAUGHTER CHARGE DROPPED

The driver of the car which fatally injured Mrs. Jos. Courcy of St. Rose, on the 20th, is allowed his liberty.

Charges of manslaughter against Ralph Walhem of Detroit, Mich., in connection with the death of Mrs. Jos. Courcy of St. Rose, on the 20th were withdrawn last week and the American motorist was allowed his freedom.

Walhem's car ran into the ditch on the Riviere-du-Loup-Edmundston highway, and the woman was fatally injured. Walhem, who was on his way to Edmundston, was detained by police and charged with manslaughter, following the coroner's inquest.

PERSONALS

Ronald L. Rideout, who has been the guest of his parents, Mr. and Mrs. C. M. Rideout, for the past few weeks, left on Tuesday morning for Chicago and New York.

Mrs. Archibald Fraser is spending a week in Montreal and Boston.

Ralph McLeod of Worcester, Mass., spent several days in town recently.

Miss Lillian Dunn, who has been enjoying a vacation at her home in Blackville, returned on Monday.

Delicious refreshments were served on Friday, when the guests were Mrs. Hugh Kennedy, Mrs. N. Franchetti, Mrs. R. G. MacFarlane, Mrs. Alex. Dunbar, Mrs. James Reith, Mrs. Robert England, Mrs. Wallace Matheson, Mrs. Douglas Stevens, Mrs. T. J. Scott, Mrs. Donald Fraser, Mrs. W. McQuarrie, Miss Ella Reith and Miss Frances Dunbar.

G.P. Genberg left on Tuesday morning for Cornwall, Ontario.

M. Morrison spent the week-end in Montreal.

Sam Barber returned on Monday after a pleasant vacation in Montreal.

Mrs. Hugh M. Kennedy and little daughter Jane returned to Montreal on Monday, after a delightful visit with Mr. and Mrs. Archibald Fraser.

Miss Evangeline Bernier is spending two weeks vacation at her home in Connors.

Mrs. P. H. Laporte entertained very pleasantly at Bridge on Monday evening for the pleasure of Mrs. Thomas Malcolm of Montreal, who is the guest of her sister, Miss Emily Bablin. The guests were Mrs. A. Desrochers, Mrs. William Matheson, Mrs. Albert Van Buren, Mrs. Robert England, Mrs. Douglas Stevens, Mrs. N. Franchetti, Mrs. J. M. Stevens, Mrs. C. M. Rideout, Mrs. R. V. McCabe and Miss Emily Bablin. Malcolm was presented with a dainty guest prize, and Miss Emily Bablin won the prize for the highest score.

Delicious refreshments were served by Mrs. Landry.

The hostesses at the Golf Tea on Saturday, were Mrs. T. J. Scott, Mrs. Garrie Larlee, Mrs. J. F. MacKenzie, Mrs. Oscar Horton, and Mrs. A. W. Morrison.

Mrs. G. P. Genberg entertained at a delightful Afternoon Tea given for the pleasure of Mrs. Hugh M. Kennedy of Montreal.

Mrs. Ralph B. Murchie and son Bobby are visiting friends in Quebec City.

GRAND LAKE STEAM STATION NOW OPERATING

Fredericton, N. B., Sept. 1st. - Another link in the publicity opened and operated electric power system of New Brunswick went into operation today when the new steam plant at Newcastle Creek started its supply of electrical energy to the mill of the Canadian Cottons Limited, at Marysville.

This plant, with a capacity of 5000 K. W., is one of the most modern of its kind on the continent, and brings into operation in New Brunswick the latest development in the utilization of pulverized coal for the generation of electrical energy.

Construction of the plant started at Newcastle Creek, in the Grand Lake coal area some ten months ago and this evening current will be ready for distribution to the Milling Electric Company at Fredericton. This latter company was not prepared to accept current this morning but will be in position to take energy from the new plant tonight, so Hon. E. A. Reilly, Chairman of the New Brunswick Electric Power Commission stated.

Hon. Mr. Reilly, together with Premier C. D. Richards, P. J. Robidoux, member of the commission, Hon. Lewis Smith, Minister of Agriculture, Hon. A. J. Leser, Provincial Secretary Treasurer, S. R. Stewart, M.P.P. for Sunbury, J. M. Scott, M.P.P. for York and others were at Newcastle Creek today for an informal inspection of the plant.

A luncheon was served in the dining room of the United Engineers and Constructors, who built this 5000 K. W. steam plant, and among the speakers were Premier Richards and Hon. Mr. Reilly. They both referred to this development as part of a program to electrify the province cheap power to the central portion of the province. The Premier pointed out that in addition to giving the people of Fredericton, Marysville and Moncton hydro power, this plant serves other purposes.

Construction of the transmission lines to Fredericton, Marysville and Moncton, was carried on during the last winter and early spring, and Canadian material, machinery, and equipment were purchased as far as possible a large part originating in New Brunswick. The labor, with the exception of a few specially qualified men and technical experts, was practically all drawn from this province and the operating staff of the plant is 100 per cent. New Brunswick.

Contracts have been entered into with the Canadian Cyanide Limited at Marysville and the Maritime Electric Company at Fredericton for the supply of all the power requirements in these districts. The plant has been running for the last two days but the Premier, Hon. Mr. Reilly and the other officials were at Newcastle Creek today for the purpose of making a general inspection of the plant and to see at first hand the completion of this most important development.

An interesting feature in connection with this plant is the fact that a working force of some twelve men will be necessary to carry on the operation. Automatic devices govern the housing situation, and the number of days, weeks, or months employed during the past six or twelve months, or since July 1st 1931, as well as the amount earned in wages or salary during that period.

Hon. Mr. Stewart believes that this data, when compiled by the Town Clerks and City Clerks, will provide the department with a thorough knowledge as to the actual number of unemployed in the urban centers.

Visitor - You have a fine crop of tomatoes this summer! What do you do with them all?

Native - Oh, we sell all we can, and can all we can't.

Blood Pressure Treatment in Early Stage Permitted

New Discovery to Enable Taking of Readings is Announced by Experts.

Dr. ROMEO J. LAJOIE OF EDMUNDSTON AMONG THESE

Treating cases of hypertension, or high blood pressure, before they become chronic will be made possible through the discovery of a new method of taking blood-pressure readings with the sphygmometer it was announced yesterday. The finding follows a year and a half of work at the Hospital de la Pitié by Professor Henri Vaguez, a leading cardiologist and one of Briand's physicians; Dr. P. Gray, physiologist, of Paris; Dr. M. Gomez, of Cuba, and Dr. Romeo J. Lajoie, Edmundston, N.-B. Canada.

"Hitherto," said Dr. Lajoie yesterday, "the maximum and minimum blood pressures have been used and have shown too great variation from time to time to permit dependable diagnosis. But this method of taking the average pressure will result in greatly improved technique. The new discovery has thrown light on what probably will lead to the eventual ability to measure the dynamic capacity of the heart."

"Our findings have been confirmed by outside investigators in Germany and Italy. The new method of measuring blood pressure is so simple that hypotension, or low blood pressure, is not a disease, as was formerly believed," he said.

"People should give more attention to the question of their blood pressure and not wait until they are 'too consult a physician'."

It was pointed out that the new method of measuring blood pressure will be invaluable to insurance companies in determining more accurately risk possibilities.

UNEMPLOYMENT REGISTRATION IN PROVINCE

Hon. D. A. Stewart, Minister of Public Works, Initiates More In-Depth Study of Unemployment in New Brunswick.

Fredericton, N. B., Sept. 1st. - As part of the province-wide movement, initiated by the Provincial Government, to obtain a complete survey of New Brunswick in an effort to obtain the number of unemployed within the province. This latest move is being made to enable the provincial government to have further data on the works which the cities and towns believe are essential to undertake during the coming winter. Hon. Mr. Stewart pointed out in a statement today that no individual cases will be handled by the Department of Public Works or the government, but that the relief work will be carried out entirely on a provincial scale, as part of the general programme, now being unrolled by the government, to bring relief money into the hands of the unemployed.

This registration seeks to ascertain, through the Town Clerks and City Clerks, the name, address and length of residence of anyone now out of employment, and the name, nature and status of the individual; whether married or single; number in family actually dependent upon the earnings for support, and the name, age and relationship of such dependent, as well as the number who are partially dependent.

Efforts will be made by the Department of Public Works to ascertain as well, the number of aliens out of employment, so that preferential treatment may be accorded to British subjects in the matter of employment at this time.

The questionnaire will also seek information regarding the real estate held by unemployed, as well as the personal property holdings of such individuals. In addition, information is sought regarding the housing situation, and the number of days, weeks, or months employed during the past six or twelve months, or since July 1st 1931, as well as the amount earned in wages or salary during that period.

Hon. Mr. Stewart believes that this data, when compiled by the Town Clerks and City Clerks, will provide the department with a thorough knowledge as to the actual number of unemployed in the urban centers.

The Mutual Life Continues Present Dividend Rate

Leading producers of the Mutual Life of Canada, comprising the Company's Quarter Million Dollar Club met in Convention at Lucerne in Quebec September 1st and 2nd.

Mr. McCulloch made an announcement of greatest importance to policyholders and field men of the company alike, when he stated that after all factors of situation into account, the board of directors has in contemplation no change in our present scale of dividends for 1932.

He felt sure that would be welcome news in view of dividend reductions being prevalent in so many directions. He concluded his address by pointing out that the Company's progress continued steady, substantial and satisfactory, the gross amount of the Company's life insurance in force now being well over 510 millions.

RE-ORGANIZE GAME PROTECTION

Permanent Policy to Be Appointed After November 1st - Draught Change in Force Made to Protect Most Important Asset of New Brunswick, Says Hon. Mr. Tilley.

Fredericton, N. B., Sept. 1st. - New Brunswick's Game Protective System is to be completely re-organized by Hon. L. P. D. Tilley, Minister of Lands and Mines.

Announcement of the plan whereby a modern, efficient and effective re-organization is to be put into operation after November 1st was made today by the Minister of Lands and Mines.

"A complete survey of the fish and game protective system now in force has demonstrated that a re-organization is imperative, the results of which are being carried out in recent years, in the way of protection of this important asset of the province, having been far from satisfactory," said Hon. Mr. Tilley.

On and after November 1st a new force will be organized, so the Minister stated today, and permanent Game Warden posts will be appointed. These will be limited in number but will be representative of every section of the province. The new Game Warden posts will be at the disposal of the Department of Lands and Mines for service, either in the counties where they reside, or in other sections of New Brunswick. In brief, Game Warden posts may be transferred from one section to another for service at any time, under the direction of the Chief Game Warden, Col. H. H. Ritchie, who will be in charge of the new organization.

Only qualified woodmen, with sufficient education to be able to lay proper information, will be appointed to the new force. Hon. Mr. Tilley pointed out that it is the aim of the government to have this new force of Game Wardens efficient and fully trained and on the merit system entirely.

Co-operating with the new force will be that splendid body of men known as Forest Rangers. They are all sworn Game Wardens and will materially assist the new organization in the protection of our game resources. In addition there is an auxiliary force for game protection, in the personnel of the Registered Guides of New Brunswick, who are also sworn Game Wardens. These men are of a class who should render a most valuable service to the province in the matter of game protection and will undoubtedly be of great assistance in furthering the policy of a more rigid enforcement of the game laws. There is also another body of men 2000 known as Game Wardens who have sworn to enforce the fish and game laws, namely the members of the New Brunswick Fish and Game Protective Association. The new force have the co-operation of the New Brunswick Provincial Police, who are also Game Wardens by virtue of their oath of office.

"This re-organization is being put into effect because we believe it is essential to protect one of our greatest assets," said Hon. Mr. Tilley. "We now know the results that have been attained from the campaign to conserve our forest wealth and the success that has followed the organization of our Forest Protective Association. The people of New Brunswick were sold beyond that organization and have co-operated to the fullest extent to lessen the fire hazard in the forest. I believe the same spirit of co-operation on the part of the people will be manifested in this policy of protect and conserve our fish and game. We have in New-Brunswick a great asset in our fish and game resources it should be the aim and desire of the people as well as the government to protect that asset to the full."

The Minister pointed out that instances of the slaughter of game have been brought to the attention of the Department and when a survey was made of the whole protective system now in force, the decision was reached by the government, following Hon. Mr. Tilley's report to the cabinet this week, to re-organize the protective system in New Brunswick.

Here and There

GIANT TUNA CAUGHT OFF INVERNESS COAST

PORT HAWKESBURY, N. B. - The first tuna fish ever caught along the Inverness coast, Cape Breton, of which there is record, was landed off Mahou Harbor a couple of days ago. It weighed well over six hundred pounds and measured six feet from end to end and four feet four inches in girth at the middle. The giant tuna was brought to Port Hawkesbury where it sold for sixty dollars.

FUNGSTEN FIND ENCOURAGING

Lunenburg, N.S. Aug. 31st. - Diamond drilling which has been carried on for the past two months by a mining company in Lunenburg County gives encouraging results as regards scheelite ore, according to information reaching the Natural Resources Department of the C.N.R. A high percentage of tungsten is indicated in the three shafts that have been sunk to date. One vein of scheelite measures 11 feet. Work is now proceeding on the fourth hole which has reached a depth of 67 ft. and several rich veins have been located. Drilling will be continued until the end of September or middle of October when definite plans will be formulated with regard to more extensive development of the property.

DRIVE PAST, SEE OUR MAUSOLEUM

Citizens of Brantford, Ontario, recently saw a cartoon enacted in real life, when a visiting motorist took a flit and came to a stand still beside a tombstone in Greenwood Cemetery. The driver of the car came down a steep side street, and turned left, but not left enough. He missed a tree on the boulevard and the car dived through the cemetery fence, and nestled among the tombstones. The granite caused a few facial injuries and bruises to the driver, and he was also required to make good some of the damage to the tombstones.

SOMETHING NEW IN PUNISHMENT

Bish Gee, a colored boy who didn't wash his soap, and who was held up for reckless driving not long ago, got a new kind of sentence from the Judge. Detroiters are accustomed to a wide variety of punishments meted out for violation of the traffic laws, but the Detroit Judge gave Bish something just a little different. He was sentenced to six months probation, with the understanding that each month he must have a brake inspection to satisfy the Court as to that safety factor.

YOUTHFUL CAMPERS RETURN CLEVELAND

New Mills, N. B. Sept. 1st. - A party of bronzed youthful campers, looking the picture of health, left Camp Bonaventure here for their homes in Cleveland, Ohio, and vicinity. They have been in camp for the last seven weeks and are travelling in a special Canadian National Railway's sleeper right through to Cleveland. Each year a party of boys from Cleveland and the district adjoining is brought to this camp which is located on the shores of Baie de Chaleur. Several Canadian boys from Montreal were with the party. The Director of the camp, Mr. J.D. Littlefield, of Cleveland, said this year was the most successful one since the camp was established in 1923. It is the desire of the camp to declare to take care of a larger number of Canadian boys as it was found that this makes for a greater broadening of character in the boys of both countries. Canada's National provinces offer many opportunities for the establishment of boys' and girls' camps with their close association with the sea and vast forest areas.

4000 CARIS GRAIN TO BE SHIPPED VIA CHURCHILL

WINNIPEG, Man. Sept. 1st. - Twelve cars of grain loaded by the Canadian Co-operation Wheat Producers, Limited, from the government elevators at Saskatoon have been shipped by Canadian National Railways to Churchill, according to W. G. Manders, Freight Traffic Manager. This is the initial shipment of 4000 odd cars from Western Canada for Europe via Churchill. The loading of the first ship will be between September 15th and 20th and the second between the 20th and 25th. The initial shipment was made over the Aberdeen-Melfort line.

The amount of grain involved in this shipment of approximately 153,000 bushels of not strain, grain handling facilities at Churchill harbor. Mr. Manders points out that the elevator, which is to be completed by September 15th, has a capacity of 2,500,000 bushels which includes the warehouse storage. It is provided with cleaning machinery and the dock of 1800 feet in length will be equipped with galleries for loading grain from the elevator to ship.
