#### 2------BENT UPON REFORM.

Citizens Who Will Take a Hand in Civic Matters and are Anti Ring Rule-Anti Christie and Millidge and Anti Clique.

The contest for aldermanic positions may be keen enough before Tuesday week. There is opposition now in Lansdowne and Kings and on the West side. Nothing has developed in Dake's or Sydney though there is not much reason to doubt that any two citizens known at all could be elected to replace the present representatives. This seems a blunt statement but the hon-esty of it cannot be disputed. Ald. Waring represents Sidney ward and works in Lancaster. Before that he was out of the city for months in the woods of Messre. Cushing employed by fithem and before that he worked in Carleton. The people in that ward are easily satisfied. Ald. Tufts has been in the council for

some time and it must be said for him that he gives his efforts for the city with a cheerfulness that is refreshing. He is not cheerfulness that is refreahing. He is not sharp enough however for the men at pres-ent at the board. His objections to this or that scheme are not listened to as they should be. Dukes is an important ward and its representative' should be listened to with respect and his opinion have as much weight as that of any other.

In Kings ward a canvas is being made against Ald. Allan because he is in Queens ward now instead of Kings. He moved his store from King to Charlotte street last May and though he is only a few yards distant from Kings ward now peop's are asked to vote against him on this ground. He has two stores in Carleton, one in Queens ward and is a school trustee and hospital commissioner. Yet to make sure that he would not be disqualified for Kings he rented an office in, that ward when he moved to Queens. He hasn't any sign out to announce the fact but PROGRESS heard him say so months ago, before civic elections were spoken of and has no doubt that it is so. His opponent is Colonel John R. Armstrong, and he was in the same capacity last year. In the four largest wards, Prince,

Queens, Wellington and Victoria no opposition has developed. The triends of Dr. Christie think he

made a great mistake the other day when he talked about the exhibition as he did and engineered the postponment of the consideration of a grant. His remarks were not popular with the business people who look back to their cash receipts for September and wonder why they should vote for a man who wants to rob them of this additional trade.

The canvas of the candidates for mayor columns of this issue may throw some light upon the matter. The correspondent seems to have a good many ideas about civic affairs and he expresses them in a blunt feabion. But the people like plain speaking and so PROGRESS prints it. Perhaps, where there is so much assertion there is some trutb.
He is after two of the present aldermen. Christie and Millidge with a sharp stick, and apparently their movements toward re-election comes within his knewledge. He talks quite freely of the P. P. A. or ganization and hints that the aldermen named are ameng the latest converts. is most interesting. Dr. Daniel is the

propose to reform the council are now working in the open. The platform of the working in the open. The platform of the reformers has not been published but there is no doubt that they have some suggestions to make, something that their candidates can go to the people with and urge as a reason why there should be a change in the council.

DR. DANIEL.

A paragraph in one of the morning papers indicates that Messrs. Colwell and White are among those whom the club proposes to favor and at the same time some hope is given that others of the aldermen may be called upon to assist in making up the new combination.

The letter of "Taxpayer" in other

named are among the latest converts. That seems, in his mind, to be an objec-tion to the election of these gentlemen, but he fails to give his reasons for that but he fails to give his reasons for that conclusion. "Taxpayers" good words for the chairman of safety and his somewhat ourious criticism of others at the board, will be read with interest and, partiance, approved of by many. The introduction again of the catholic and protestant question is not welcome. and protestant question is not welcome. We concede freedom of speech and action to every citizen and the protestant who wants to join the P. P. A's or the Amorwants to join the P. P. A's or the Amer-ines or Algerines or whatever they are called, has a pertect right to do so; so has a catholic a perfect right to join the asso-ciation, peculiar to the people of that re-ligion. To array one organisation against another however, is a different matter and does not jlead to sny good results. The independence et an alderman who goes to the council as the candidate of and supported by any organization canthe council as the candidate of and supported by any organization can-not amount to a great deal. His refusal to follow their wishes in every instance is the cause of much indignation in the asso-ciation and great discomfort to himself.

but feel that the average policeman earns all that he receives, he is more liable to sickness and incapacity from the very nature of his employment, and the fact that he is obliged to face all weathers and work at night as well as day, makes him more deserving of our sympathy than almost any other class of the community which we can reo
