**New Way to Banish All Hairy Growths**

(Modes of Today.)

Many people will be interested in the new and simple treatment by which hairy growths can be permanently removed from the face, neck or arms. This consists in making a paste with plain powdered talcum and water and applying to hairy surface. After two or three minutes it is rubbed off, the skin washed and every trace of hair has vanished. This is a painless, harmless method and seldom requires the second application to remove even a stubborn growth, and it is so simple to use that failure cannot result. Straggle eyebrows can be made to grow thick and beautifully lustrous by rubbing proxiton on frequently, and to make short, straight eyelashes come in long and silky, apply proxiton at least twice with thumb and forefinger. Use care and don't get any proxiton where no hair is wanted.
