and the paid agent of a Company which has shown its determination to secure more than its share of the public land. It is because the precedent set in this instance is of the most dangerous tendency and unjustifiable on any public grounds. The Press of the country has almost unanimously condemned the "dual position;" all reflecting men condemn it, and Mr. Fraser himself must see that he is weakening his personal and political influence by continuing to represent those conflicting interests. We trust he will decide for the public and the public good. We do not desire to withdraw anything we said in his favor when he offered for the seat in the Assembly, for we still maintain that Mr. Fraser is a man of talent and calculated to make a useful and valuable public officer. But for public reasons and for his own sake, his longer retention of the two offices will be most damaging to public morals and his ewn fair reputation.

The News of to-day remarks:-Mr. Fraser still retains his dual position, being at once a leading member of the Local Government and Solicitor of the Riviere du Loup Railway Company. The public judgment is that one gentleman should not at the same time hold these

two offices. As the paid legal servant of the Company, Mr. Fraser is bound to consult and promote the interests of that Company. At certain times and in certain directions the interests of that Company are likely to conflict with those of the Province, of which as Executive Councilfor Mr. Fraser is a sworn trustee and guardian. In his character as Provincial Trustee, Mr. Fraser may, and doubtless will, be called upon to pronounce upon demands advised by him to be made in his character of Company Solicitor. Under these circumstances he would be under a strong temptation to favour, as an Executive Councillor, the course he had advised as Company Solicitor. It is not fitting that any man should be placed. We trust Mr. Fraser will speedily extricate himself therefrom. It is a position that is wholly indefensible. No man as yet has even atsay man should be placed in such a posi-tion. About 600 members of the International went in procession, amid thousands of the public, to the house of the Burgomaster, in order to tell him that they want cheaper houses, and ask him to use his intervention to induce the Government to forbid the export of food. These workmen grumbled that beasts, sheep, vegetables, fruits, potatoes, &c. are exported in large quantites to England, so that prices increase so enormously as to become prohibitive.
