Washington, Sept. 26, 10.30 A. M.

To Major General Dix: Despatches from Sheridan up to 11 o'clock n Saturday-night, dated six miles south of

Newmarket, have been received. He had driven the enemy from Mount Jackson without being able to bring on a general engagement. The enemy were moving rapidly and he had no cavalry present

Torbett had attacked Wingham's force at Luray, and captured a number of

Sheridan found rebel hospitals in all the towns from Winchester to Newmarket, and was eighty miles from Martinsburg. Twenty pieces of artillery were captured

at Fisher's Hill, together with 1,100 prison ers, a large amount of ammunition, cais sons, limbers, &c., and a large quantity of entrenching tools, small arms and debris. No list of the captured material has been received.

The small towns through the Valley have a great many of the rebel wounded, Gen. Stevens reports the arrival at Har per's Ferry of a train of our wounded. 20 captured guns, and 80 additional captured

Breckenridge has gone to take command of the rebel army of the South-west. Despatches received this morning from Sherman's command state that Hood appears to be moving towards the Alabama

A strong force of rebel raiders were re ported to be operating against Sherman's communications, and had captured Athens,

Vigorous exertions are being made to vertake and destroy this force. Jeff. Davis is reported to be at Macon. Reports have also been received from

Major Gen. Canby. Gen. Steele had been strongly reinforced

and had taken the offensive. Despatches from Gen. Grant, dated 1 o clock last night, report no military opera-

mmediate use. Albany, Sept. 3, 1864.

[If, whitewash, made of lime and water brought in contract with carbonic acid,

be lime enters into combination with the acid, forming carbonate of lime. usually contains carbonic acid, for if brought in contact with carbonic acid gas, it absorbs its own bulk of the gas. When whitewash is made, therefore, a portion of he lime is immediately converted into carbonate of lime. The water being thus freed from its carbonic acid, gradually absorbs a fresh supply from the atmosphere and he process of converting lime into carbonate ontinues. This earbonate of lime is not dhesive, and its mixture in the whitewash impairs the quality of the wash. In order to make a whitewash that will keep, the carbonic acid should be expelled before the lime is introduced, and the wash should then be excluded from the atmosphere. The acid may be expelled by boiling the water, and it may be prevented from returning by keeping the whitewash in a tightly corked bottle.-EDS. Sci. American.

THE KING OF DAHOMEY AND THE EARTHQUAKE.—In July, 1862, a very grand custom was held at Aboney, the capital of Dahomey, in honor of the former King the anniversary of [whose death occurred about this time, A large number of cap tives were, as is usual on such occasions, offered up in sacrifice. It was during the continuance of these rites that the dreadfu earthquake occurred, which terrified a large portion of the Western Coast. When the riolent rocking of the ground was perceived one of the terrified and awe-struck chiefs inquired of the King what was the cause of o unusual a phenomenon. "Oh." replied Badahung, "it is the spirit of my father that is shaking the ground to show his displeasure at our want of religion in not killing enough of people at his custom."

THE TAXES OF ONE FIRM .- The Coal ol Circular gives a long description of the works of a firm engaged in refining in the oil region of Pennsylvania, and states that the taxes which this firm will pay to the United Government will amount to \$1,200, 000 per year.

Birth.

At Aylmer, on the 24th instant, the wife of Charles Devlin, Esq., Merchant, of a son.
At Douglas, on the 24th ult., the wife of Edmund Edey, jr., of a daughter.

Married.

On the 21st instant, at Christ's Church Cathedral Montreal, by the Rev. Canon White, E. A. Bates, Esq., of Smith's Falls to Matilda Harriett, youngest daughter of the late C. H. Sache, Esq., of Perth, C. W At the residence of the bride's father. 16th September, by the Rev. E. S. Shores Mr. Wm. Rudsdale to Miss Margaret Mc-Keracher, both of Bathurst.

Died.

Holt, wife of Mr. George McConnel, aged 63 61 to 7 cen 1.

At March, on the 25th instant, Ann, widow of the late Thomas Morgan, aged 27 40 cents.

On Thursday evening, 29th Sept., at his father's residence in Almonte, John Hagarty Monaghan, aged 18 years 3 months and 95 cts.

OILS.—Linseed, Raw 95 cts. Bolled \$1.00. Fish Oils scarce. Cod; 75 to 80 cts. Seal; Straw 85 to 90 cts., Pale 90 to 95 cts.

At Lewis's Hotel, Almonte, for the week ending Oct. 1st, 1864. FAMILY PHYSICIAN

at hand; and by its timely use save hundreds of dollars that would otherwise be swallowed up in discharging doctors' fees, Sold at every Drug and Country Store

throughout Canada. Price 25 cents per Bottle. Prepared and sold by WARD:

Chemists, Arnprior, C. W. DEAD SHOT

WORM CANDY.

(GERTIFICATE.) (CERTIFICATE.)

Abany Medical College, December 15, 1862.

I do hereby certify that I have analyzed Dr. Ward's Dead Shot Worm Candy, and to the public I would say that they contain nothing that is in the least injurious to the youngest infant. They are entirely vegetable, and possess those truly anthelmintic qualities which above all others are preferable as exterminators of the common or Tape Worm.

J. V. P. QUACKERBUSH,

Prof. of Obstehics and diseases of Women and Children.

This Medicine has been prepared by the This Medicine has been prepared by the proprietors for a number of years; has been used with the most decided success in numerous families of the first respectability, and has received the approval and recommendation of several eminent medical gentlemen.

The most alarming symptoms of the disease arising from the prevalence of worms in the intestines have been speedily and entirely removed by the use of the VEGETABLE WORM CANDY.

Dreadful indeed are the effects of these pernicious veru n on the constitution, destroying the appetite, vitiating the nourishing principles, and their certain consequences are paleness, emaciation, a stoppage of the growth, etc., and often followed by consumption and decline. Even where werms are not discharged, this medicine acts as a gentle and safe domestic physic—clearing the passages of whatever is noxious, introducing a healthy ehyle into the constitution. This is a purely vegetable preparation, and contains nothing that is injurious to the smallest infant, and children will eat them
