IN THE MAKING

Manufacturing very much of our Ready-to-Wear garments for women gives us a great advantage in favor of our customers. It's so much easier to supervise the cutting, the stitching and the pressing in our own factory. Then too we can be careful in selection of the material and examine the finished garments to see that they are up to the highest mark of perfectness in every way. The material is bought direct from the mills. Our buver, who has grown up in the cloth business, selects the different patterns at the looms after satisfying himself that the latest fashion is being observed, giving large orders which means a discount off for quantity and cash.

THE MAIL ORDER WAY

Have you become acquainted with the convenience and satisfaction there is in buying from Eaton's by mail? By dealing at this store through the Mail Order Service you do not have to pay a price for goods which have one, two or three middlemen's profits added. Our price means only the producers or manufacturers price with our one small profit added. You'll notice the difference when you have examined the goods we sell you. The price we ask is payment for the goods only, and not the goods and two or three profits besides. You will be pleased with the quick time in which your orders are filled, and much delighted with the high-class of goods at a low price.
