Carries Seven Passengers

COSTS ONLY

\$2,760 Equipped

Russell 7-Passenger is the only car in Canada of the kind. For years there has been a crying need of a real seven-passenger touring car which would give all the accommodation and comfort necessary, but which would cost much less to buy and maintain than the regular seven-passenger type.

Do you realize that at last such a car has come? Do you know that to-day you can buy a Russell model specially designed for seven-passenger service at this low figure?

Here is a car strictly high-grade in every respect; a long car—120 inches wheel base; a car with big wheels—36 inches all around; a car with full standard construction. But it is a light car, and therefore an economical car to maintain.

No man who has needed capacity in his car for seven passengers can fail to appreciate the importance of this splendid model.

Come in and see the car. Have a ride in it. We'll be glad to show you what this car can do.

Fully described in our catalogue.
