

# Lenny nips Jerry

Jerry Lewis from his new film *Hardly Working*.

Concomitant with the "sick comic" label is the carbon cry, "Whatever happened to the healthy comedian who just got up there and showed everybody a good time and didn't preach, didn't have to resort to knocking religion, mocking physical handicaps and telling dirty toilet jokes?"

Yes, what *did* happen to... Jerry Lewis? His neo-realistic impression of the Japanese male captured all the subtleties of the Japanese physiognomy. The buck-teeth malocclusion was caricatured to surrealistic proportions until the teeth matched the blades that extended from Ben Hur's chariot. Highlighting the absence of the iris with Coke-bottle-thick lenses, this satire has added to the fanatical devotion which Japanese students have for the United States. Just ask Eisenhower.
