I have also to inform you that I noticed the contour
of the whole reserve, and the road which ought to have led to
the Government wharf runs elsewhere, another and more convenient
passage was found for it so that we shall be clear and quiet.

The culvert which was made for the water runs between
two houses, it is high and dangerous for children and this cul-
vert is useless for water, which runs elsewhere. This culvert
should be covered to avoid accidents to children.
