

Q Can you identify it on the map?

A (Examining blueprint) Yes, and it is marked No. 15.

Q You have the impression that this application would infringe upon a timber limit?

A Yes.

Q Do you recommend it?

A Yes, I recommend it - if available, I recommend five acres.

MR COMMISSIONER MACDOWALL: Why do you recommend it?

A It is a fishing station and a hunting base there.

Q How much do you recommend?

A Five acres.

Q And you think it is reasonably required for these Indians?

A Yes.

MR COMMISSIONER MCKENNA: You have handed me here a list of applications made to you by Chief Richard Collinson since he appeared before the Commission?

A Yes.

Q And on this list there are 19 applications - is that correct?

A Yes.

Q The first is No. 14, for land at Green Inlet - what about that?

A I did not consider it was reasonably necessary for the Indians and I did not visit the point, and consequently I don't recommend it.

Q Now, the next is No. 15 - what about that?

A I make the same statement in regard to application No. 15 that I did in regard to application No. 14.

Q Now application No. 16, for land at Carter Bay - what about that?

A I make the same remark there as I did in the previous applications.

Q What about application No. 17?

A My last remark covers that.

Q What about application No. 18?

A The same.

Q Application No. 19, for land at Mussel Inlet?

A I make a recommendation there.

Q Did you visit the point?

170
