THIS extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invented with the sciennity of a centh-bed bequest, has since gained a reputation unparalled, fully sustai-ing the correctness of the inmented Dr. Grid-ley's last confession, that "he dared not die without giving to posterity the bencht of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Sole-homon Harsy, the screte to this discovery.

MOZISON'S UNIVERSAL MEDICINE.

MC21SON'S UNIVERSAL MEDICINE. NOTICE. THE Subscribers, general agents for Me-rison's Pills, have appointed Villiam Whittaker, Sub-Agent for the Upper Town, No. 27, St. John Street. LEGGE & CO. That the public may be able to form some idea of Morison's Pills by their great con-sumption, the following calculation was made by Mr. Wing, Clerk to the stamp Office, Somesset House, in a period of six years, part only of the time that Morison's Pills have been before the public, the number of stamps delivered for that medicine amounted to three million; nine handred and one thom-stand.

to three minors, mae namere and one not-sand. The object in placing the foregoing power-ful argument in favour of Mr. Morison's system, and to which the public attention is directed, namely, that it was only by trying an innocuous purgative medicine to such an extend that the furth of the Hygeian syn-tem could possibly have been established. It is clear that all the medical men in Eng-inad, or the world, put together, have not tried asystem of vegetable purgation to the extend and in manner prescribed by the Hy-geists. How, therefore, can they (much less individually) know any thing about the extent of its properties. of its prop erties.
