Who has not avor of milk when ows just before or Milk is a very all one can do is to eful as possible. ce to do the milking ave been fed hay een be-lded down deal of dust is in and all this tends

Market Reports Six Days a Week

EVER-CHANGING prices make it imperative that the farmer should keep in touch with the markets.

The loss of one day's quotations may mean the loss of dollars to the farmer who fails to notice a change in prices.

The same with the womenfolk on the farm—prices of their produce frequently change. Before leaving for market on market days, they should see how prices are running in the principal markets of the Province.

The Globe enjoys a reputation for the absolute accuracy of all its news. This reputation it zealously guards.

Upon nothing is it more insistent than accuracy in its market reports.

Its staff correspondents collect quotations and market reports

daily. They accept nothing but the most authoritative reports.

The quotations are changed the last thing over night so that The Globe's readers shall obtain the very latest figures.

Farmers in Ontario get this service six days a week, the year round, when they read The Globe.

Such a service, in addition to the Weekly Department—"Farm and Country Life in Canada"—is of infinite value to the farmer.

But add to this the daily recording of the best Canadian and world news gathered by means of the greatest news organizations in the world; consider the many valuable and entertaining features in The Globe—remember the thoughtful and informing editorial comments, and you begin to realize the part The Globe plays in Canadian Farm Life.

It has won a place in thousands of farm homes in the Province. Is it in your home?
