ELGIN NATIONAL WATCH CO., ELGDI, ILLIMOIS

It will be costly to doubt this because we have the proof and there's no cost if Flening's Spayin Cure ever fails. One 45-minute application is usually all required to cure the spayins that others are't cure. Pinghone Soliet Curb etc. that others can't cure. Ringbone, Splint, Curb, etc., just as easy. Our FREE BOOK will be worth dollars to you.

Miles Crandall, Rochelle, Ill., writes: "It is wonderful. Case of bone spavin of about one year's standing. Had several veterinarians who could not cure. Got worse all the time. One application of your Spavin Cure cured to stay cured.

Fistula and Poll Evil Cured in 15 to 30 Days. Not one failure in the two years. Cures in half the ordinary time. Cures easily the cases nothing else can cure. Simple, human and sure. No cure, no pay. Write today for circular about Fleming's Fistula and Poll Evil Cure.

FLEMING'S LUMP JAW CURE.

About as certain to cure Lump Jaw as that water will put out fire. Recent or severe cases alike curable. Easy to use, can't harm, prompt and thorough, and seldom leaves even a sear. Death certain if you neglect the disease; cure certain if you use the remedy. Send for illustrated book today.

A postal brings printed matter on all the above. Mention this paper.

ADVOCATE. FARMER'S

GOSSIP.

Mr. W. W. Hubbard, searctary and manager of the international Exhibition, St. John, N. M., writes us that everything looks well from a live-stock standpoint at the approaching exhibition, August 30th to September 6th.

Shropshire shearling rams, ram lambs and ewes are advertised in this issue by har. Malcohn Molbougall, Tiverton, linuce Co. Ont. About of head in all are offered, some 30 of which are rams, all registered or eligible, bred from sires from the flocks of Hon. John Dryden and John Campbell. 'Iney are said to be a good lot, low-set, well covered, and in good condition. See the advertisement and write for prices, etc.

Geo. D. Fletcher, Binkham, Ont., breeder of Shorthorns, in ordering change of advertisement, writes: "My young stock at present are a very thrifty lot, and my stock bull, Spicy thrifty lot, and my stock bull, Spicy thobin, is making himself quite famous by the prominent places his calves are taking in large show and sale rings in Canada and the U.S. Many of them Canada and the U.S. Many of them was Roan Missie, bred by me, and sold at W. C. Edwards' sale at Chicago, June 14th, 1902, under 16 months old, for \$700. Spicy Robin, together with a mumber of his get, will probably be exhibited at Toronto and other leading exhibitions this fall."

Mr. Gus. A. Langelier, Quebec, whose advertisement of Ayrshire cattle and Large rorashire hogs appears in this issue, writes: "My herd of Ayrshires is headed by Lune of Larthern, a smooth young bull that gives promise of becoming a sire capable of improving any herd. He is by matchless (7560), a noted prizewinner, out of Imp. Neilie Osbome, cnampion cow at the World's Fair, Chicago. His grandsire is the well-known amp. Glencairn 111, and his grandam, benie hamin (0007), is a persistent minker, with a record of 7,452 lbs. milk for last year. It is easy, therefore, to see this bull is bred from stock which have shone not only in the show-ring, but also at the pail, and the herd of which he is now the head should be heard from in future. In Yorkshires, we now have ten imported animals, which should take a leading position at the fall shows. One of the sows, lmp. Summer Hill Walton Sarah 5th (9752), is probably as good a specimen of the Improved Large Lorkshire as now exists in Canada. She was bred by Sir Gilbert Greenall, and to aloyone posted in breeding, that fact alone is sufficient to show that she is a typical animal. There is probably no higher-priced pig him the Province of Quebec at the present time. Her last litter of nine pigs were all raised, and thus she possesses the commendable quality of being both a show animal and a breeder. Summer Hill Dalmeny Chief 2prd (9070) is a young boar of great length and smoothness. He was bred by Earl Roseberry, which should have no trouble to win at the fall shows. Some of them are for sale to make room for expected litters."

OFFICIAL RECORDS OF HOLSTEIN-FRIESIAN COWS.

OFFICIAL RECORDS OF HOLSTEINFRIESIAN COWS.

From July 1 to July 29, 1902. One record for twenty-one days, one for fourteen days and forty for seven days each have been approved.
