**IT IS A FACT THAT**

Grain or Garden truck will ripen from one to two weeks earlier when the land is fertilized, but adulterated compositions are a positive injury to land.

**Griffin Brand Fertilizers**  
 are absolutely pure

The rich, strong, healthy growth which springs from overworked land when assisted by a slight sprinkling of Griffin Brand Fertilizer has an effect like a pouring rain on a sun-baked garden plot. We put this up in 50, 100 and 200 lb. sacks—price quotations on request. Write us.

**IF IT IS A MOWER**

on which you want to feel you can rely under all conditions, and at all times, then buy a **FROST & WOOD** No. 8. We know from experience that it cannot be surpassed by ANY other make of Mower. That will be your verdict too when you have tried one.

Cuts 4 1/2 ft., 5 ft. and 6 ft. wide.

The INTERNAL GEAR as used on the No. 8 has many advantages over the old EXTERNAL way. The cogs are kept constantly in mesh—no possible chance of jolting, or any necessity of a running start. The first forward motion of the horse MUST and DOES start the knives. The PITMAN connections on the No. 8 are forged steel. The connection is simple and common-sense. The FOOT-LIFT on the No. 8 raises the WHOLE bar clear of the ground, and is conveniently situated—no stretching to get at it. Our Catalogue "F" explains our full line. Send for it.

**GOSSIP.**

W. W. Jacobs relates the following story: "I was looking at a butcher shop's display, when the butcher came out and said to an old man: 'Henry, I want you.' 'What do you want?' the old man asked. 'Why,' said the butcher, 'I'll give you a shilling and a joint of meat, if you'll kill all the flies in my shop.' 'All right,' said the old man. 'Give me the shilling first and the meat afterward.' The butcher handed out the shilling. Then the old man asked for a stick about a yard long. This was brought him. He grasped it firmly, went to the doorway and said: 'Now, turn 'em out, one at a time.'"

A bachelor farmer a little past his prime, finding himself hard up, thought the best thing he could do would be to marry a neighbor of his, who was reported to have some bawbees. Meeting with no obstacles to his wooing, he soon got married. One of the first purchases he made with part of her money was a horse. When he brought it home, he called out his wife to see it. After admiring it she said: "Well, Sam, if it hadna been for my siller it wadna hae been there." "Jenny," Sam replied, "if it had not been for yer siller ye wadna nae been here yersel."

The Hackney stallion, Sky Pilot 147, illustrated on another page, is one of the good sires kept by Duncan Clark, at Crowfoot, Alta. He is a splendid, stylish stock horse, with plenty of bone and substance to give strength and constitution to his colts, and also that proud, attractive bearing so essential to high-class carriage horses. He is four years old, sired by The Puritan (imp.), dam Frolic 176. In all, some eight hundred horses are kept at the Clark ranch, mostly high-grade Clydesdales, headed by that well-known show horse, Pride of Eastfield, and by Chieftain, besides a young horse or two. About three hundred mares are bred each year, and this spring a carload of horses from this ranch made an average of \$147 in Calgary, the highest average price for a carload in that market, the average being pulled down by a quartette of cow ponies.

**GET THE BULLS READY FOR THE SALES.**

The rapidly approaching sales of bulls at Calgary and Winnipeg should see many bulls brought out in good shape. Get the halters on them, teach them to lead well, do not spare the bran, crushed oats and crushed flaxseed, and exercise freely. Condition takes the buyer, and he takes the bull.

**THE ARAB OR BARB.**

About a year ago some American horsemen, convinced of the superiority of the Arabian or barb horse, imported eight stallions direct from Africa to be used to improve the light horse stock wherever their services would be acceptable. After being kept in the neighborhood of New York for more than twelve months, and having received a lot of publicity through the press, the lot were put on the market recently, and brought from \$40 to \$150. Judging by the price, one would conclude that they were not very good specimens of their breeds.
