

NO OPERATIONS NEEDED NOW. GRAVEL AND BLADDER DIS- EASE CURED BY DODD'S KIDNEY PILLS.

Toronto Bricklayer Relieved of Those Terrible Troubles—Medical Science Makes Another Move Forward.

Toronto, Ont., June 6.—(Special).—Medical science has at length awakened to the fact that Gravel and other bladder troubles are caused by disordered kidneys and that the modern method of curing them is to cure the kidneys with Dodd's Kidney Pills. This does away with those terrible operations that in past years have been all too common.

The case of William Thomas, bricklayer, 158 Mill street, this city, is one of the recent proofs of the efficiency of the treatment. Mr. Thomas says:

"I had been troubled with Gravel and Bladder Disease for seven years. I had to go to the hospital and have water taken from me. I tried medicines of different kinds, but they failed to remove the trouble.

"Hearing of cures by them prompted me to try Dodd's Kidney Pills, and after taking them for a time I passed a stone the size of a large bean. Four boxes of Dodd's Kidney Pills made a complete cure in my case."

A MEAN MAN.

"That Charlie Pinchback is a mean man."

"What has he done?"

"You know he's engaged to Tilda Rickrack. Well, he found a ring somewhere at a bargain, and gave it to her. It was too small for her finger. What do you suppose he did?"

"What?"

"Advised her to diet until she could get it on."

THE FIFTY MILLION DOLLAR

WORLD'S FAIR ST. LOUIS.

District Passenger Agent McDonald of the Grand Trunk Railway who recently returned from St. Louis, states that it is hard to find suitable language to describe the magnitude and beauty of the greatest Exposition ever held.

The site of 1240 acres being two miles long and one mile wide, is covered with beautiful buildings, broken with lagoons, canals, grand courts, monuments, statuary, parks, etc., all forming a picture that must be seen to be realized.

An Electrical railway, called the Intramural, makes it easy to get from one part of the grounds to another, and follow out the daily programme, enjoying an hour listening to "Sousas" or other famous bands, or taking in a lecture or address, or Art Gallery.

When you consider the immensity of the buildings, one alone having over 20 acres of floor space, and reflect that they are filled with the choicest of exhibits from all over the world, one exhibitor vying with another to obtain the coveted Gold Medal, it seems to suggest the thought of what a grand opportunity and an education it will be, to the young men and women of our land, to spend a week or two at St. Louis this year. Really no intelligent man, woman or child can afford to miss this great World's Fair.

The beautiful Electric Lighting of the Pan American Exposition, which few thought would ever be approached is entirely eclipsed by this Monster Fair.

One of the features of the fair, is the "Inside Inn," a hotel accommodating 6,000, splendidly run, and at reasonable rates.

The total expenses of a trip to St. Louis based on half railway rates, is within the reach of all and permits stop over at Chicago, and other points, and the trip is made quickly and comfortably.

It is the intention of the Grand Trunk to run through cars from Montreal and Toronto to St. Louis, commencing June 13th, and possibly before.

The Canadian Press Association were unanimous in their praise of the Grand Trunk and Illinois Central route, and with the Exposition.

OVER THE WABASH.

To the Great World's Fair. St. Louis, Mo., everything is now wide open, round trip tickets on sale until December 1st, at lowest first-class one-way fare, good fifteen days, fare and a third good sixty days. Now is the time to see this, the greatest of all Expositions in the history of the world. The great Wabash is the Banner Line, the shortest and quickest route from Canada to St. Louis. The through trains on the Wabash are the admiration of all travelers going to St. Louis.

BEDROOM IN TREES.

A remarkable hotel is in California on the road between Santa Cruz and San Jose. California possesses the largest trees in the world, and a shrewd hotel-keeper has conceived the idea of utilizing as a wayside hostelry a group of these mammoths, thus saving himself the cost of building or rent. The hollow trunk of one tree, whose circumference is about 22 yds., is arranged as a reception-room, and the surrounding space, sheltered by a thick roof of spreading branches, serves as dining-room and smoking-room. A number of other smaller hollow trunks make comfortable bedrooms, furnished in the most approved style, and some trees at a little distance are occupied by the hotel staff.

ENGLAND'S PICTURESQUE RAILWAY.

The majority of Canadians who visit the Old Country make the great mistake of rushing straight through from Liverpool to London, instead of first visiting some of the historic spots on the way to the Metropolis, such as are to be found in the vicinity of Liverpool, Manchester and especially Derbyshire. The Midland Railway is by far the most picturesque route between Liverpool and London, giving the tourist in this run glimpses of the rural beauties of the Motherland which delight the eye and fill the heart with the most favorable impression; it also gives to the man of business an idea of England's great manufacturing abilities as the train passes through the principal cities and commercial centres. The luxurious carriages of the Midland Railway add greatly to the pleasure of the trip. It is largely through its accomplishments in this direction that the Midland Railway owes its present position as the pioneer line of England.

BUSH AND LIMA BEANS.

Bush beans are harder than commonly supposed and may be sown earlier than corn and other tender vegetables. They will injure corn and prove fatal to squash vines. Sow and drill 3½ feet and cover about two inches deep. Plants of the bush variety should grow about six inches apart. The ground should be kept soft and yellow and free from weeds. If intended to cultivate with a wheel hoe the rows may be considerably nearer together. Snap beans will be ready for table use about two months from sowing. A quart of beans will sow one hundred feet of drill.

Lima beans are best planted in hills as poles are needed. It is important to plant the seed eye down else many of the seeds will fail to come up. The limas are more tender than the bush varieties and cannot be safely planted so early. The roundish variety, called potato lima, is earlier than the Deers and other flat kinds, and although not so fine in flavor, is better for planting.

SETTING THE EXAMPLE.

Tommy had been quiet for fully five minutes. He seemed to be engaged with some deep problem.

"Papa," he said.

"Well?"

"Do unto others as you would have others do unto you—that's the golden rule, isn't it?"

"Yes, my son."

Tommy rose, went to the cupboard and returned with a knife and a large cake. The latter he placed before his astonished sire, and said with great solemnity:

"Eat it, papa."

He—"Could you marry a man who was your inferior?" She—"I suppose I shall have to."

Beware of Ointments for Calarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

GRAND TRUNK AT THE WORLD'S FAIR.

The Grand Trunk Railway Exhibit at the World's Fair is one of the handsomest pavilions on the grounds. It is of Doric and Corinthian architecture, with Doric and Ionic heads as central pieces in the cornice. The interior is decorated with large photographic productions, well mounted fish, consisting of brook trout, landlocked salmon, ouananiche, wall-eyed pike, small mouth black bass and maskinonge. Two oil paintings, 9 x 13 feet, and titled, "The Royal Muskoka Hotel," and "Head of Lake Joseph," scenes in the Muskoka Lake district, handsomely framed, are on the inside front wall. One of the largest Moose heads in the world, is also on the wall.

The ceiling is divided in three panels, each panel having an art glass skylight of unique design, the whole being lighted with over one hundred ground glass incandescent bulbs. Two moving picture machines, showing scenes on the road from the St. Clair Tunnel to the Androscoggin River in Maine, are run continuously while the wonderful reflection picture "On Shadow River," continues to revolve every thirty seconds, and a puzzle to many is, which is the reflection?

Handsome printed matter, descriptive of the different sections, is being distributed, and the representative in charge gladly furnishes information regarding same.

This notice is posted up in a wayside station in Ireland:—"If the gentleman who left a baby in a third-class railway carriage on the 26th ult. does not claim the same within a fortnight it will be sold to defray expenses."
