A Toronto - Montreal Train Was Well Loaded With Liqueur.
AGED LADY INJURED
Cobourg, Peterboro, and Kingston May Change Names of Regiments.

Train Loaded With Liqueur.
The appearance of several provincial police officers on the Grand Trunk express No. 19, en route to Toronto from Montreal, one morning this week, was the signal of a lively time, and at one time after the train left Belleville things looked serious for the officers.

The police became very active in looking for grips. Immediately they did so there was a shower of bags and grips thrown from the windows containing Christmas cheer that would have supplied a goodly number of homes in Cobourg.

When the train reached Oshawa the police had rounded up 300 bottles. One passenger stated that "if there were one bottle on the train there were five thousand." Cobourg Sentinel-Star.

Withdraws Alienation Suit.
Delmar J. Marshall of Watertown has withdrawn an action for alienation of his wife's affections against his mother-in-law Mrs. Sarah Reddie, of Massena and Marshall has retracted the statements that he made in his complaint.

Marshall claimed that his child was in the custody of his mother-in-law and alleged that the affections of his wife had been alienated. He has now written his mother-in-law apologizing and stating that he is now convinced the child has been in Morrisburg.

Aged Lady Injured.
When she fell down a flight of stairs at the residence of her son D. W. Booth, 270 Perth-street, at 7:30 o'clock this morning, Mrs. W. C. Booth, in her 80th year, suffered the fracture of both arms at the wrist, a laceration of the skin at the right wrist and a cut over the right eye. Dr. J. F. Purvis was summoned and had the injured lady conveyed to St. Vincent de Paul hospital where she is now receiving treatment and where her condition this afternoon was reported as satisfactory. Brockville Recorder and Times.

Nothing in it, Says Col. Currie.
A despatch from Kingston to a Toronto morning paper on Friday says: Col. J. A. Currie, M.P., is mentioned in connection with the vacancy in the wardenship at Portsmouth, Penitentiary officials who have served the Government faithfully for the greatest part of their lives and who entertained hopes of promotion for which training and attention to discipline fitted them are apparently doomed to disappointment. Inspector Watt, Ottawa, is endeavoring to get things in order so that when the new Warden is appointed every thing will be in good shape. "Nothing in it at all," said Col. Currie when seen by the Collingwood News. "If am not seeking an appointment from the government," he added. Oshawa Reformer.

Saw Meteor.
Just as Dr. Herriman was leaving the grounds at the Ontario hospital on Tuesday evening, on his way to town, a bright light illuminated the heavens. Looking up quickly, Dr. Herriman and his companion saw a huge meteor slowly falling towards the north. The light was bright enough to make the shadows of the horse and vehicle distinctly noticeable, and lasted for some seconds. Others in the neighborhood noticed the light though they did not see whence it came. The meteor must have been an unusually large one. Oshawa Reformer.

Mr. Harvey on Reformer Staff.
Mr. T. M. Harvey is now on the staff of The Reformer and will, in addition to other duties, take care of the musical critic work of the paper. All musical affairs of either professional or amateur nature will receive careful and impartial treatment in the hands of the new critic. Oshawa Reformer.

Has Written a Book.
Major (Father) Duffy, chaplain of the fighting 89th (Central) Division, U.S.A., has written a book on the

war, which is now being published. The book tells the outstanding picture story of the war, and is a glimpse into the hearts and souls of America's finest manhood. Father Duffy, who is a Cobourg boy, was awarded the Croix de Guerre by the French government and the Distinguished Service Cross and Distinguished Service Medal by the U.S. government. Cobourg Sentinel-Star.

Conductor Dies Suddenly.
Anthony Giostra, aged 50, for the last twenty years leader of the orchestra of the Thousand Islands Yacht Club, Alexandria Bay, died suddenly of heart trouble while playing in the orchestra of the Albany theatre, Albany, N.Y., recently. He is survived by his wife and one daughter. Giostra was a fine musician and he made many friends while at the Islands. Brockville Recorder and Times.

New Factory in Newmarket.
Applications were made by twenty girls to work in the Canadian Headwear factory in Newmarket, last Saturday afternoon and only two or three of them had worked in the factories here before. The representative of the Company was so well pleased with the response that he declared at once that a branch of the factory will open in Newmarket about the first week in January. Some machinery is to be shipped here next week. Newmarket Era.

May Change The Names of The Regiments.
To perpetuate the name of the famous 2nd Heavy Battery of Cobourg it is likely that the name of Cobourg Battery Unit will be changed to the former name. The overseas battery was principally manned by Cobourg men, though surrounding towns, including Oshawa, also gave a number of soldiers to this well known unit. The advisability of changing the name was favorably viewed at a meeting of officers commanding various militia and overseas units in Kingston. Discussion also centered on changing the names of the 57th Regiment of Peterboro to the 2nd Battalion and the 14th Regiment of Kingston to the 21st Battalion but nothing was done, as officers of these two regiments feared it would tend toward the obliteration of past history of the old local unit. The meeting was also desirous of recruiting militia units up to strength. Oshawa Reformer.

Car Stalled on Track.
An accident was averted Tuesday afternoon only by the prompt action of a motorman on one of the street cars going up Princess-st. Kingston. A Ford car was going up Princess street between the tracks and a street car was coming, up behind when suddenly the Ford stalled and but for the quick action of the motor man there might have been a serious accident. Fortunately nothing happened and both the Ford car and the street car proceeded on their way.

Only Authoritative Answer.
Time was when not one trace of sin was to be found in this whole world. "God saw everything He had made, including man, and it was very good."
How soon everything was marred. Man, who was made the moral centre of it all, disobeyed the command of God. Placed in a garden of God's own planting, and surrounded by countless proofs of His kindness, he turned his back upon that God and opened his ear and heart to Satan's base insinuations against Him. He fell from innocence in which he had been created, and involved the race in all the terrible consequences that God had said would result therefrom.

From this point the world in its present condition took its start. By one man sin entered into the world, and death by sin. (Rom. 5:12.) This is the first page of human history. God saw that the wickedness of man was great in the earth, and the thoughts of his heart only evil. (Gen. 6:5). Following this, Cain builded a city, surrounding himself with all that inventive genius could devise. As such as handle the harp and organ, artificers in brass and iron might do their best to make the world a happy place. But sin and death were there, and Cain had gone out from the presence of the Lord. (Gen. 4:16.)

God looked upon the earth and beheld it was corrupt, and such was its wicked condition that He brought the flood upon it. Did this judgment make any improvement in the heart of man? By no means. He recommenced his history with drunkenness and lust and idolatry. But God was not forgetful of man, and while in this state of moral degradation the God of glory appeared to Abraham and called him out from his kindred to walk by faith. (For 2,500 years sin had been rampant, and death had reigned from Adam to Moses. But now

Seek to Remove Tattoo Marks

Harmless Scientific Method Needed for Armenian Girls and Women.
New York, Dec. 27.—A harmless, scientific method of removing tattoo marks is now the object of an investigation being carried on by the Near East Relief Commission as a result of a report made to the Commission by Dr. Wilfrid M. Post, of Princeton, N.J., to the effect that many Armenian girls and women who were tattooed on their cheeks and forehead and must carry these hideous reminders of their defilement the rest of their lives unless some scientific method of removal is conveyed to them.
In the report, which was made public yesterday, Dr. Post reveals a pathetic dilemma which these women find confronting them after their escape or rescue from their masters. Many of them have sought to remove the tattoo symbols of their shame by applying caustics and irritants.
Some have burned their faces to a char with mineral acids, and all who have experimented with such drastic means have disfigured themselves for life. In the hospitals of the Near East relief, they are seeking treatment for their self-inflicted injuries.
Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a standard remedy for worms, troubles, and can be fully relied upon to expel worms from the system and, thereby, the suffering that worms cause. There are many mothers that rejoice that they found available, so effective a remedy for the relief of their children.

The Prospects of the World

Editor Ontario.—
What are they? A solemn question indeed. It will readily be conceded that its present condition is anything but satisfactory. No one is satisfied with the present state of affairs and many are the methods by which it is thought a change for the better might be brought about; but everyone feels that things must not continue as they are. Political, commercially, socially and religiously, everything is in a bad mix-up. The question arises: Is there any way whereby we may know what is ahead for this world? Many predictions have been unfilled, but there is one place where we may go to know its future without fail, and that is to the Word of God. His Word remains unchanged amidst the universal changes, and to the attentive ear its voice may be heard above the confusion of worldly opinions. It must be evident to every serious mind that the state of the world today is very far removed from what it once was. Some think things are getting worse, whilst others are equally convinced they are getting better. The Scriptures, we are persuaded, contain the

Jew and Gentile alike had a hand in His murder; yet God in His wondrous grace made that very deed the means whereby poor lost sinners may be reconciled to Him and pass from death to life. And the devil, that arch enemy of God and man, is doing his hellish work of keeping man from God. He is the god of

this world, the prince of the power of the air, and the world is lying in the arms of the wicked one, we are told. And the Scriptures plainly tell us that until he is out of the way the world will wax worse and worse. (1. Tim. 4:1-3; II. Tim. 3:1-5, 13.)

Now As to the Future
This article would be too long if I tried to cover the whole ground, and with your permission I will simply give an outline and defer details for another article. If may be asked why a righteous, loving, all-powerful God does not come in and put an end to present conditions, and put 'right? A very natural question. He will do so in His own way and time, and Scripture tells us how and when He will do it. Scripture also tells us what He is doing now.

The worst is yet to come, and any day those who are the Lord's may be caught away and I. Cor. 16:51-52, I. Thess. 4:16-17, and other Scriptures will be fulfilled. After that the anti-christ will appear, and the tribulation spoken of in Matt. 24, a time such as never has been nor ever will be—wars, famine, pestilences, earthquakes and such like. As we approach it the world is taking on the character of that time. Those days will finish with the battle of Armageddon, and the coming of the Lord in power with all His saints. Satan will be changed and cast into the bottomless pit, and then will come in the millennial reign of the Lord, and He will put the world right. Till then, it will continue to get worse in every way.

In the meantime God is saving out of the world a Bride for His Son, who will reign with Him and share all His glory.
The most interesting part to your readers will no doubt be the details of what is soon to take place in this world, and we are doubtless on the very verge of those wonderful events.
