LAFAYETTE'S GOOD MEMORY.

He Remembered a Room He Had Not Seen For Fifty Years.

Seen For Fifty Years. Washington's headquarters at Newburg, a small old fashioned Dutch house, front-ing the Hudson river, is now owned by the state of New York. In repairing it care was taken to preserve the ancient form of every part that was renewed. The front door opens into a large, square room, which was used by Washington for his public audience and as a dining hall. It is remarkable for having seven doors and only one window. special 1, 1 road scraper. A. J. strangely with the elegance of the other apartments. A low boarded, painted ceiling, with large beams, a single small, uncurtained window, with numerous small doors, as well as the general style of the whole, gave at first the idea of the kitchen or larges room of a Dutch or Belgian farmhouse. On a rough table was a repast, which consisted of a large dish of meat, uncouth looking pastry and wine in decanters and bottles, accompanied by glass and silver mugs, such as indicated other habits and tastes than those of modern Parls. "Do you know where you are?" said the host to Lafayetto.

Large Increase in Corn. Montreal, Sept. 20.—The corn that has been received in Montreal this eason already amounts to 16,480,626 bushels, against 9,829,226 bushels for the whole of last year, an increase of over 7,000,000 bushels, so that the increase of the whole year is likely to equal the entire trade of 1897. In a recent publication, "A Godchild of Washington," the author quotes from the New York Mirror for 1834 an interesting anecdote connected with this room. ctors Could Not Help Him, But Two Bottles of South American kidney Cure Removed the Disease-The Story of a Wingham Farmer.

Kidney disease can be cured, air. John Snell, a retired farmer of Wing-ham Ont, says: "For two years I suffered untold misery, and at times could not walk, and any standing position gave intense pain, the result kidney disease. Local physicians could not help me, and I was continually

growing worse, which alarmed family and friends. Seeing South American Kidney Cure Advertised, I grasped at thing Result—before half a bottle had been taken I was totally relieved of pain and two bottles entirely cured me." To cure kidney disease a liquid medicine must be taken, and one that is a solvent, and can thus dissolve the sand-like particles in the blood. Sold by J. P. Lamb.

English Farmers Fifty Years Ago. Gigs would be got ready soon after the early dinner, arrival being timed for 8 or 4 o'dock. The gentlemen would take a farming survey, the ladies chat over nee-diework, at 5 o'clock tea, if tes it could be called, awaiting hosts and guests. The first course of this elaborate regale con-sisted of home cured ham, that incompar-able Suffolk ham pickled in mice, and harvest beer-barves bear, itself olear as sherry and twice as strong-was frunk with this dish. Next came the strongest of tea and the richest of oream with withs, also a Suffolk specialty, and cakes squally unrivaled. The tea things removed, hot water and spirit decanter would be brought gestion being restored. Seldom did any one seem the worse for such prolonged eating and drinking.-"Keminiscences of Bentham Edwards." THE LISTENER.

George Jacob Holyoake of England says that he was the first person to use the word "jingo," which he did on March 18, 1878, in a letter to the London Daily News.

What ought to be done, ought to be done. He who borrows an umbrella ought to return it because it is borrowed. Um-brellas are for rainy days, and the borrowbrellas are for rainy days, and the borrow-er ought to be willing to carry an un-brella on a fair day in order to get it ro-turned to its owner in time for him to use it on the next rainy day. So long as be is in debt and could pay the debt by dispens-ing with a little varity or by a little axer-tion and yet does not discharge his debt he is not strictly honorable. The unbreils is not "only an umbrella," it is a point in morals. Many a man has dated upward or downward in life from the day he struck an attitude toward his neighbor's umbrella.—Sunday School Times.

Justifiable Indignation Justifiable Indignation. One evening John Scott (Lord Eldon) had been sipping rather too freely of the convivial bowl with a friend in Edinburgh, and upon emerging into the air his intel-lect became considerably confused. Not being able to distinguish objects with any degree of certainty ho felt himself quite capable of losing his way to his own home. While in this perplexity he saw some one coming toward him whom he asked, "D'ye ken whaur John Scott bides?"

ken whaur John Scott bides!" "Whaur's the use of your speering that question? You're John Scott himsel'." "I ken that," answered John indignant-jy, "But it's no himsel' that's wanted—it's his house."
