THE BINDER TWINE DEAL.

By the Stratford Herald the various binder twine transactions have been summarized as follows:

In 1893, 1,000,000 pounds of Kingston penitentiary binder twine were sold for \$4.25 per 100 lbs. The twine cost \$4.00 to make, and the price to the farmer was \$11 to \$13 per 100 lbs.

In 1897 another 1,000,000 pounds were sold for \$4.66 per 100 lbs. The cost was \$4.13 to make, and the twine reached the farmer at from \$11 to \$13 per 100 lbs.

In 1898, 1,000,000 pounds were sold at \$4 per 100 lbs. The cost was \$4.72 to make, and the twine reached the farmer at from \$14 to \$15 per 100 lbs.

In 1899 the Government sold 1,000,000 pounds for \$6.51 per 100 lbs. The twine cost \$6.25 to make, and was sold to the farmer at from \$14 to \$15 per 100 lbs.

Regarding the transactions of 1900 the Government refuses to give any information at all.

On the various transactions \$191,900 was paid to the Government for twine, and taking the lowest price which the farmer was charged, the lot brought in just \$500,000. There was thus a profit of \$308,000 in the deals.

COMMERCE OF THE GREAT LAKES.

For several years the U. S. war department official at Sault Ste. Marie canal has made an accurate record of the shipments through that passage-way which connects Lake Superior with the Lower Lakes, and so statements have been made from time to time of the tonnage of vessels passing that point. Aside from that, no definite information has been collected regarding the commerce of the lakes as a whole, or of the business of the various ports. In 1899 the matter was seriously taken up by the Bureau of Statistics at Washington, and a system was devised by which this information could be obtained, showing the receipts and shipments of every United States port of all the important articles entering into the commerce of the lakes.

The statistics compiled for July show that during that month 5,385 vessels arrived at the 37 ports on the Great Lakes and from the opening of navigation up to last August, the total number of arrivals was 15,941. There entered the port of Chicago during July 1,108 vessels, or an average of 36 vessels per day; and from the opening of navigation to August 1st, 3,518. Cleveland ranked next to Chicago, for at that port 543 vessels arrived during July, with 1,999 and the whole season both Milwaukee and Buffalo outranked it with 1,336 and 1,355 vessels respectively, against 1,336 at Cleveland. During July 275 vessels arrived at Detroit, 914 at Du. Urb. Wis. and 439 at West Superior, Wis. The statistics show further that the iron roads made by the railroads on canals; traffic are less serious than commonly supposed.

Grain proved almost the exclusive shipment to Chicago and Buffalo. Last season about 100,000 tons of flour were shipped to each port of Duluth and Milwaukee, West Superior coming next. Chicago heads the list for corn shipments, while Milwaukee takes the lead in shipments of barley and oats. Of the 16,749,000 bushels of wheat received at all lake ports, no less than 14,217,441 bushels were consigned to Buffalo, where also was sent 23,975,796 bushels of the 29,638,915 bushels of corn despatched from all ports. This season the iron ore traffic in the lakes has attracted special attention, and thus far the total receipts have footed up 7,890,069 tons.

When the candidates choose their colors we would suggest that the Ald. Stephens select Tarte's tri-color as the proper thing.

Do the electors of Kent propose to endorse the dog biscuit deal by which the lives of the Canadian boys in South Africa were endangered? If they do they must vote for Ald. Stephens and the Laurier government.

You know, we feel sorry for Ald. Stephens. Just think of a candidate having to go into a campaign with Tarte, Sifton, Blair, Borden and Cartwright for leaders. Laurier need not be included; he doesn't lead, he follows when the others order.

The machine organs of the Government have been pooh-poohing the Vankleek Hill Review — the Ottawa Free Press has even cut it off from its exchange list — because of its independent criticism of the administration and demanding, on pain of defeat, that Sir Wilfrid reform his cabinet and expel the Tarte element. But the Review appears to be in full accord with the Liberals of that district, for on Saturday last the editor, H. Carl Jones, was unanimously elected president of the Liberal association of Prescott county, but declined the honor. Yet Mr. Jones, in his paper, is repeatedly stating that the Government as it is now constituted ought to be defeated in the interests of the Liberal party and the country.

"Keep to Your Place and Your Place will Keep You."

Without good health we cannot keep situations nor enjoy life. Most troubles originate in impure blood. Hood's Sarsaparilla makes the blood rich and pure, and thus promotes good health, which will help you "keep your place."

Never Disappoints

Trooper Glover looks well. He must have escaped having to eat the five-cent dog biscuit which Dr. Borden paid \$2 a pound for.

Sir Wilfrid (musingly) — It looks as if I would fall with the leaves. — Ottawa Citizen.

In other words he will leave office this fall.

Any government that increases the living expenses of the people of Canada by 33-1-3 per cent ought to have a surplus. But what good does that do those who are footing the bill?

John Charlton, M. P., in an article in the Forum, expresses his opinion that the 33-1-3 per cent preference on British goods "is probably a mistake."

The oil industry of Canada covers a couple of townships in Ontario. The Laurier government maintains a duty of nearly six cents a gallon on oil to protect them. The corn industry covers 15 or 20 townships. Corn is not protected at all. The Laurier government took the duty off. Why is a coal oil dealer worthy of different treatment from a corn grower?

The Liberals profess to be opposed to bounties yet they are giving the iron kings hundreds of thousands of dollars in bonuses. But that doesn't make our hardware any cheaper, it simply makes the iron kings wealthier. Now, if they wanted to depart from their declared policy in the matter of bounties, why didn't they bonus sugar, which would cheapen it for us all. Instead of that they raised the duty on it 25 per cent.

The Banner does not like the interviews this great family journal has been publishing with Liberals who intend to support Mayor Smith. Most blame to it. However, if our esteemed local contemporary wants to question any of the interviews the names of those who gave them are all attached. Suppose, now, it starts the business by dropping around on Col. Sam Holmes. The Colonel always likes to see a friend and we feel certain he would give the Banner an interview that would prove better reading than anything it has had for some time.

Archie Campbell will trim Clarke Wallace to perfection. There must be a solid York for Liberalism, in spite of the gerrymander. — London Advertiser.

We cannot understand how the readers of any newspaper will tolerate such tommy-rot in its columns. Any body who knows the first thing about West York knows that Mr. Campbell is not serious in contesting it. Clarke Wallace's normal majority there used to be about 600. Last election, with the tide running in favor of the Liberals elsewhere, he beat his Reform opponent by 4,000 or 5,000. If Archie puts up a stiff fight he may hold Wallace down to 1,500 or 2,000, and even that will be good work. Archie understands all this, and what he is probably working for is a seat in the Senate. However, what we set out to ask was, of what use to people are newspapers which make statements such as that in the Advertiser.

The Time Is Close

October 9th, 10th and 11th are the red letter days for the County of Kent this year.

Last year everybody said the Fair was a good Fair—this year is going to be a great deal better.

Every resident in the County is anxious or ought to be anxious to see the County prosperous. A good County Fair is the best sign of a prosperous County.

Let every body then push it along and show the people what a really good Fair Kent can have.
