Ross' Red Ruin has nothing to de

No, gentle reader, Ross' Red Ruir No, gentle loads, won't be easy to take.

It's a pretty bad committee roo that needs whitewashing.

If the Deering Harvester Works, what will that \$50,000 do?

I had often heard that the party needed whitewashing.

I wonder Watt those committee room painters were trying to do? Ross' Red Ruin is the name of the

this election. When the Tories go into the painting business, they will that won't fade, they will use a blue

brand of liquor the Grits will use

When Chatham gets the window glass factory, Hamilton can have the Deering works.

Don't you think, Mr. Voter Man, that you have paid 75 cents for a 42 cent geography long enough? Mean trick of those Grit persons to

blame the bad painting of the committee room on the Conservatives. Silence isn't always golden. Chas.

John Kenny, a witness, spent a day in the cells because he wouldn't talk. A thirsty individual struck this office yesterday and inquired his way to the room where they were "settin'

Those civic waterworks people are as bad for precedent as the lawyers. The water in those city fountains couldn't be turned on before May 1st because it had never been done before.

Candidate John Davidson may have a gent's furnishings store but yet he doesn't expect the result of the elec-tion will be a tie. He is going to collar all the votes he can and cuff the Grits every place he sees them.

Dear Satellite,-There was once certain English Bishop who had a text chosen for him by a King. When entering the pulpit, a slip of paper was handed to him and upon unfolding it he found nothing written upon it. He paused for a moment and then began: "Here my brethren is nothing and out of nothing the world was created, etc." I have heard of sermons ending with nothing but never before of one beginning with

THE MARKETS

Deliveries of all grains continue very light at present, farmers not having necessary time just now and besides they are sold up pretty close on current crops. The most money is coming from corn, of which a fair quantity is offering. What is left of oats, barley, wheat, corn and bean crops will come to market more freely after

will come to market more freely after seeding is fully done, as generally good prices prevail, and higher are hardly looked for on this crop.

Beans are in better demand and have looked up about ten cents a bushel for the past fortnight, possibly they may continue improving they may continue improving, as stocks are not up to the average

A FALSE FACE.

When dyspepsia fastens on a man it changes his feelings and it changes his looks. He frowns now instead of smiling. His expression is harsh instead of kindly. He is wearing a false face—a face which does injustice to the real nobility of his nature.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and allied organs of digestion and nutrition, and the record of the ture is written both in the face and the feelings of the person cured.

"Golden Medical Discovery" is not a stimulant or temporary tonic. It cures the diseases that are the cause of ill-health and builds up the body with sound flesh.

sale of less meritorious medicines.

"Last spring, early, I wrote you my feelings and condition," says Mr. A. J. Vanderwater, of 873 West Division Street, Chicago, Ill., "and you advised me to take Dr. Pierce's Golden Medical Discovery, and then write how I felt. I am happy to say I am getting to feel fine. In all I have taken six bottles of the 'Discovery' and four or five vials of the little 'Pellets.' They have done me worlds of good. All my friends say: 'Vanderwater, how well you are looking.' The medicines have made the great change in me: from the slow mope of a man that could hardly crawl, tired and sick all the time, could do no work, to a man who can work, sleep, eat, and feel fine, and that tired feeling all gone away. I am very thankful that I wrote to Dr. Pierce. His 'Golden Medical Discovery' and his little liver 'Pellets' have almost made a new man of me. I feel young as I did at thirty years."

The Planet, says:—

Crop reports just at the moment are not as reassuring as they might be; but the drouth has at last been broken, and with a continuance of favorable weather for a reasonable length of time, no doubt considerable of the loss of condition can be regained. Good crops are what make good markets after all, because they make good railroad earnings, and good railroad earnings make good dividends, and good dividends make good buyers of railroad stocks—those who buy and pay cash and put the property away in their strong boxes for safe keeping. Farmers hold and own the lands that produce these crops, and they have been getting very rich as a result of the prosperous conditions we have had for several years past. There would be something radically wrong if Wat. Street, too, did not occasionally have a good crop season to make the constant and hard-working men of the Street also prosperous. I anticipate an active market, and sharp irregularities are likely to occur because the situation is not as satisfactory as a year ago, and realizations must follow, yet there are at present all the
