Fifty-six Diplomas and Certificates Presented at Closing Exercises Monday Night

Monday Night The 96th anniversary exercises of Acadia Collegiate and Business Academy were held in University Hall on Monday evening before a large gathering of in-terested friends. As the processional march was being played by Misses Christine Miner and Francis Whitman, Principal W. L. Archiblad and the mem-bers of the faculty and distinguished visitors took their places on the plat-form, and the students in the front seats of the hall. The exercises were opened with prayer by Rev. E. S. Mason, of Wolfville. Three essays were delivered, the first, on the popular subject of "Maritime Rights", being given by Geraid S. Cold-well, of Wicham. N.B. The case of the Maritimes was presented in a most in-teresting and capable manner. The Class Prophecy was given by Gilbert W. Titus, of Norton, N.B.; and the Vale-dictory by William Francis Roberts, of St. John, N.B. Both these essays were exceptionally good.

dictory by William Francis Roberts, of St. John, N.B. Both these essays were exceptionally good. The musical numbers on the program consisted of a vocal solo by Miss Beulah Wry, a piano solo by Miss Jewel Hender-son, and a vocal solo by Mr. Harry Mollins. All were much enjoyed. The address to the graduating class was given by Rev. G. R. Baker, D.D., of New York City, Associate Secretary of the Northern Baptist Convention. His address was most inspiring and helpful. Dr. Archibald announced that fifty-six students had qualified for diplomas and certificates, 27 in the Collegiate De-partment. He then presented diplomas to the Matriculating class as follows: Ross L. Blackadar, Jr., Port Maitland, Bilss Edward Berry, Moneton. James Adolphus Beyea, Saint John. Harold S. Carter, Aulac, N.B. Joseph Chisholm, Jr., Sydney Mines, Gerald Seaton, Colwell, Wickham, N.B. George Eaton, Shinimecas Bridge, N.S. Lee Fuller, Truro. Ferguson, Everett G. Matapedia, P.Q. Robert A. Ferguson, Fictou. James Grey Hamilton, St. John. Arthur Leslie Harrison, Maugerville, N.B. The Acadia inter-class track and field meet was held Monday afternoon. Al-though the weather was threatening all during the tournament, a large crowd watched the events. The outstanding feat of the meet was the winning of the mile run by A. V. Denton, of Little River, Digby coun-ty, in the fast time of 4 minutes 47 seconds, equallyng the Maritime Intercol-legiate mark for the distance, set by Brown of Acadia in 1912. Denton had an easy win.

the choir under the direction of Mr. W. A. Jones. Dr. George Barton Cutten, Ph.D., D.D., LL.D., formerly president of Aca-dia and now president of Colgate Uni-versity, was the speaker, and he had an attentive and inspiring audience. In his address to the 1925 graduates Dr. Cutten discussed the two opposing tendencies in nature, life, religion and education-progress and conservation—and declar-ed that our religion should demand the most developed intellects and the most strenuous thinking, as it is the most important subject with which we have to deal.

strenuous thinking, as it is the most important subject with which we have to to deal. The sermon was based on the text in Luke 17.32, "Remember Lot's Wife", and the fate of the biblical character who was turned into a pillar of salt as the result of looking backward served as the moral of the discourse. While the backward look, he said, is the most natural thing in the world, because by nature we are conservative and mentally lazy, he advised the young people before him who are entering upon the realities of life to continue to keep their eyes upon the east rather than the west, on the sun-rise rather than upon the sunset. Un-less their diplomark instead of a period their we ducation would be in vain. If they caused to read if they ceased to study, if they ceased to think, they could not be classed among educated people. In these wonderful days we cannot separate phases of life and say that one is closed and the other opening. We cannot say that there are wonderful ness, and industry, but no new revela-tion in religion. The God of science and in nickly is the God of religious life. We cannot think of His revealing new things about His handiwork without revealing new things about Himself. As the days per forward look rewarded and see His glory anew. The we must not stop there. We most holes forward to new experiences

go by, we as a people should have our forward look rewarded and see His glory anew. But we must not stop there. We must look forward to new experiences of a richer and grander character, in our individual relations with God. Too early in life, the backward look is all there is to our religion. It is something which is to be renewed, and augmented and enriched. "By faith," which is the forward look, we are to grow in grace and in power; we are to see the invisible God and to know Him who the backward look shows is unknowable. "Nothing is so enriching in our lives as to come in contact with great personality. Forward to your continuous contact with God. Remember Lot's wife." On Sunday afternoon at 3 o'clock the service of dedication was held, when the vast auditorium was again thronged to the doors by a most interested and attentive gathering. Rev. Dr. Patterson presided and upon the platform with him were the other speakers of the occasion. Mr. W. A. Jones, Director of Vocal Music at Acadia Seminary, rendered a very pleasing solo, and the choir rendered the anthem, "The Heavens are Telling". Beethoven. The prayer of dedication was by Rev. Dr. Gucher, of St. Stephen, N.B.
