IN MEMORIAM

In loving memory of our little daughter, Gladys M. Lovely, who departed this life, May 2, 1923.

Dear one, you have left us. Gone to dwell with God above. Gone to meet our other loved ones In that mansion house of love.

If you have left sad hearts behind you. Where you once made glad our home. Left many hearts grieving— But we know God's will be done.

You have found a friend in Jesus. Better than an earthly friend. And one who was ever near you And with you to the end.

But we never will forget you. Neither will thy memory fade. Flowers of love will bloom forever On the grave where she is laid.

Father, Mother Sister, and Brother.

In loving memory of George W. Lund who died April 30, 1923.

You're not forgotten, Father dear. Nor ever will you be. As long as life and memory last We will remember thee.

And again we hope to meet him When the days of life are fled And in heaven once more greet him Where no farewell tears are shed Wife and Family.

Eminent Railway Builders

A unique record of Canadian railway pioneer engineers embodied in a photograph taken in Vancouver recently of three prominent members of the profession whose record for continued service in the survey and construction of railways is possibly without parallel. They are—reading from left to right, H. J. Cambie, M.E.I.C., eighty-seven years of age; T. H. White, M.E.I.C., seventy-six years of age; and J. H. Kennedy, M.E.I.C., seventy-two years of age. They are all resident in Vancouver.

Each has been identified with one of the three great transcontinental railroads now operating in British Columbia, and under his direct supervision the part that runs through the canyons of the Fraser was built. At the age of eighty-seven he is still hale and hearty, enjoying the love and esteem of his fellow men.

Thomas Henry Kennedy, M.E.I.C., was born on January 25th, 1848, at St. Catharines, Ontario. He was chief engineer of the location and construction of the present main line from the Yellowhead Pass, down the North Thompson River and Fraser Canyon to New Westminster. It is interesting to note that he was Mr. Cambie's right-hand assistant during the work in the Fraser Canyon.

Mr. White has always been popular with his fellow engineers, being noted for abundant good nature, keen sense of humour, and an absolute fairness in all his associations. James Henry Kennedy, M.E.I.C., was born on March 3rd, 1849, at Carleton Place, Ontario. He had charge of the location of the main line in British Columbia under the Vancouver, Victoria and Eastern Railway charter, from the Fraser River to the coast.

As chief engineer, he built the first section in the Province, from Laurier to Grand Forks, through the Kettle Valley country and afterwards constructed the longer section from Chetopa to Brookmere, through the difficult Similkameen and Tsalameen Valleys.

The complete record of the life work of each of these pioneer railroaders is full of interesting reminiscence, and the monuments of their handiwork are to be seen in practically every province of the Dominion.

Although British Columbians take great pride in the achievements of these men, they nevertheless feel that they belong to Canada, from coast to coast.

A man came in the store one day looking rather sad.

He said he'd like to see the chap that writes the selling ad.

I looked at him a moment in wonder and surprise.

Which increased when he asked me if it paid to advertise!

"Why, yes! my friend," I said "If you have anything to sell."

There is no investment that will pay you quite or half so well."

"I'm glad I called. I've yet a little hope."

So when he rose to go he bought a bar of Gold Bond soap.

PIGS FOR SALE

For Sale—Purebred Yorkshire Pigs

There is no better stock in the province than the dams of these pigs; their sire was imported from Ontario last fall. His sire took first prize at the great Toronto Fair last fall. The sire of his dam took first prize at the Toronto Fair in 1922.

These pigs are the correct hound type, and are stock that I am proud to recommend, of very prolific strain. Considering the small extra first cost you cannot afford to use inferior stock as breeders. Plans are now on foot to ship hogs this fall to be sold on the graded basis with premium for 400 lbs. Get the best we have here.
