Cabinate and the chartest the President Cabinate and bar chartest and and having to the Canadan, and the neighbouring we have very little reason to be distruct the contaxty, we are not wonewast confi General Pierce has marked out as his it time the most liberal programme of an recipionity. If we are not videly mist will prove himself to be fully up as the fundamies of these times, and by no men bly opposed to the permanent settleme fishery question upon the breadest rare a with the colonies. And here, would permit, we might proceed to some statistic and the colonies and bear, would expensit, to say that a judicious es enlarged reciprocal free trade with the provinces would instantly throw as amount of additional traffic upon our rail canals; and that if particular interests suffer from the cheaponing of breader motton, lumber, and other articles of a sumption, the masses of the community correspondingly benefited from the in these supplies. And it is in this light e gest benefit to the greatest number, this live the subject is regarded by, and will under the auspices of Gen. Pierce.

How the fishery question proper a exactly, we are not apprised. We peremains where Mr. Meater for it—the negotiations of Mr. Everett on the the ten ing been dropped by the Senate. At there is a sufficient margin for a broad preisensive treaty, embrasing the fish reciprocal free trade; and from all that ascertained we have no reason to fast Piezce is in this matter behind the ap age. We have an abiding hope that ment of this business will be a feather in the individual of the subject is received the page.

HASSARD'S GAZE

Werdnesday, May 25, 185.

Wirminawal of The Thioles. A dated April 22nd 1853 has been publimating that the Major General Comm Note Stotia, is instructed to with troops from this Island before the se Winter, as stated in our paper of faith We make the following extract. Despatch, which may be interested readers: If the Colony were threatened with taggression, Her Majorty's Government wow in affecting every assistance for the but no such datager is threatened; and we is not right to relieve the Logislature of ward leland from the duty, and the charataining a firm, which may be present the internal peace of the Colony.

We are now reducing the garrisons and and Nova Scotia; but some troops there for the occupation of important lifling for other imageness which are barely a Prince Edward, Island, there are no work quity to be accupied for military, purpose might, not equally well be accupied by Prince Edward, Island, there are no work quity to be accupied for military, purpose might, not equally well be accupied to the question which was safe by my prodecesses, in his dampets of the history, and the replied to the question which was safe by my prodecesses, in his dampets of the last, as to the special when it would be pvenient to your Government that arrespe be unde for with-drawing the troops, the Militia, or enrolled Peinstolers, as contracted the last, or a subject of the practicable.

I have beind our tonne, expectations.
