Canada's Place In The Empire

Canada is the foremost of the family of the British Empire, and, being nearest, the great responsibility rests upon her, not alone to aid and succor in battle, but to lead the van in all forms of industrial life, to seize every opportunity to forward the grandeur and stability both of herself and of the Empire.

Pure Bred Poultry Stock Pays

The pure bred fowl possesses many advantages over crossbreds and mongrels. There is more reliability in their breeding. Experience has shown that pure bred birds will convert every particle of food and energy toward production. The meat is of improved quality and the flock is superior in every way for table poultry. The uniformity of the grade is more even and gives better market returns. The eggs are more even in size and color. The fowls present a much more attractive appearance, being uniform in size and color. The eggs and stock for breeding purposes are worth much more than for market alone. The revenue from this source in a good flock is not a small item. The preferred breed may also be selected for the particular purpose to which the farmer of poultry-men wishes to specialize upon.

ROYAL YEAST CAKES

are now packed in square packages. Each package contains five cakes, which are equal in quantity to six round cakes. All dealers are authorized to guarantee the quality of the round and square cakes are identical in every respect.

Plantfood Mixtures That Should Not Be Made

Fertilizers should never be mixed with manure, because such a mixture tends to let loose some of the nitrogen in the form of ammonia of both the manure and the fertilizers. Acid phosphate can be applied to manure at the rate of 50 lbs. to the ton of manure with great profit to the farmer. Best results can be obtained by applying manure and fertilizers separately. Never mix fertilizers with lime or ashes, or lime itself. A mixture with lime or ashes, tends to change the soluble phosphoric acid of the fertilizer back to the slowly available or unavailable form.

Ontario Rural School Fairs

During the year 1919 the Ontario Department of Agriculture, through its agricultural representatives, distributed seeds and eggs to 78,946 pupils in 3,278 rural schools of the province. R. S. Duncan, B.S.A. writing to the Agricultural Gazette for January states that the following quantities were distributed:—1,890

bushels of potatoes, 432 bushels of grain, 12,575 packages of root seeds, 30,700 packages of vegetable seeds, 21,900 packages of flower seeds and 11,045 dozens of eggs of a bred-to-lay strain of Barred Plymouth Rocks. These figures give some idea of the magnitude of the school fair movement in Ontario.

The first school fair was organized in 1899 with three schools taking part. Ten years later 857 rural school fairs were held in the province and the pupils had \$9,848 home plots and made 111,328 entries. It is estimated that about 350 people saw the first school fair in which 58 pupils took part, while last fall 93,496 children and 107,590 adults attended the school fairs in Ontario. This is truly a wonderful growth.

A RISE OUT OF HIM

A farmer and an Irishman were at work in a field when an airplane passed over their heads. "I'd hate to be up there in that thing," said the farmer. "Faith I'd hate to be up there and not in it," retorted the Irishman.

Mr. J. A. McFarlane of Wexford, Ont., had chilblains so bad that he couldn't wear boots. Egyptian Liniment relieved them. Don't suffer from chilblains this winter. This liniment is also for Frost Bites, Burns, Scalds, Cuts, Bruises, Sore Throat and Throat, Neuralgia, etc.

DOUGLAS' EGYPTIAN 35 LINIMENT

To Those Who Bake

EXPERIENCE has taught good cooks that there is no flour quite so good as Beaver Flour.

BEAVER FLOUR

is the ideal flour for all baking purposes. It is a blended flour, combining the richness and delicate qualities of the world-famed Ontario Winter Wheat with the strength and body of Western Hard Wheat.

Beaver Flour imparts to bakings the qualities which make your bread, pies, cakes and pastries real food treats.
