

THE PEOPLE'S PAPER.  
**The Evening Telegram**  
THE BEST ADVERTISING MEDIUM  
IN NEWFOUNDLAND.

The paper that goes into the homes of all the people must of necessity have a great influence; and that is where the EVENING TELEGRAM scores its strongest point—it influences the home—and the person who uses its columns for advertising purposes secures a wider field of publicity than can be obtained through any other newspaper in Newfoundland.

**Where the Sea Is Not Blue!**

The majority of poets sing of the deep blue sea. But the sea is not always blue by any means. There are any number of colours to be observed. The Mediterranean, however, is

true blue, because very few large fresh-water rivers enter it, and, being practically landlocked, and exposed to powerful sunlight, it has the greatest evaporation of all seas.

Ten years ago the sea off the Californian coast turned almost black, and fishing came to an end, but no cause could be assigned for the phenomenon. The dull-reddish tint of the

Red Sea which has given it its name is due to millions upon millions of microscopic algae or seaweeds and sub-aquatic plants. The Yellow Sea of China owes its colour to the floods of muddy water the great river pours into it.

Generally speaking, the blueness of the sea water is in constant ratio to its saltness. In the tropics the tremendous evaporation induced by the blazing sun causes the water to be much saltier than it is in the more northern latitudes. For about thirty degrees both north and south of the equator the waters are of an exquisite azure.

**Sports for the 16th.**

Last evening a special meeting was held of the C. C. C. Star Sports Committee in order to advance the preparations for the games, which will be held on the 16th inst. A good programme has been prepared, including the Points Cup contests amongst the different athletic clubs, for which the teams that intend to take part are already practising hard. Then there is the Marathon race for the Hon. J. D. Ryan's cup. The distance will be ten miles and the contest will finish at the field. There are a good many entries already and others are expected to come in this week.

Special Evening Telegram.

LONDON, Aug. 7. The last phase of the fight over the Veto Bill, which is designed to restrict the powers of the House of Lords, was entered upon to-day, when the Rt. Hon. A. J. Balfour, leader of the Unionists moved a vote of censure upon the Government. The Chamber was filled to its capacity. Mr. Balfour's motion was as follows:

"That the advice given to His Majesty, by His Ministers, whereby they obtained from His Majesty a pledge that a sufficient number of Peers would be created to pass a Parliament Bill, in the shape in which it left this House, is a gross violation of constitutional liberty, by which, among other consequences, the people will be precluded from again pronouncing upon the policy of Home Rule."

The former Unionist Premier emphasized that he was conscious of the gravity of the situation and the seriousness of the step which he asked the House to take. He thought that it would be admitted that never in all history had there been a more serious case, or one which more urgently deserved or required the consideration of Parliament and the emphatic condemnation of Ministers. Ministers, said, Balfour, have grossly abused their rights and put themselves above the Constitution. They have acted wholly without precedent, and not as Mr. Balfour conceived to meet any great question of State, but in order to further a party arrangement between the different sections who support them, and in order to prevent the people of the country from pronouncing their opinion upon Home Rule. Mr. Balfour asserted that the Ministry had placed the Sovereign, who had just come to the Throne, in a cruel position. The King was the fount of honour, but by their advice, had corrupted the stream at its source. He dubbed the proposed new peers as "supers in the sordid drama."

LONDON, Aug. 7. The Arbitrator chosen to effect a settlement between the employers and the striking dock labourers, has given an award in favor of the men, but the dockers have decided not to resume work until the grievances of the coal porters and lightermen are satisfied.

Unless a settlement of the strike is speedily effected a serious situation must result. The strike on Saturday consisted of thirty thousand carmen, coal porters and others; thus threatening an entire stoppage of the London transport trade; and this would incidentally affect thousands of other workers, and lead to a general cutting of food supplies.

NEW YORK, Aug. 7.

Fifty British tramp steamers, now in port, may be tied up indefinitely by reason of the strike ordered by the Sailors and Firemen's Union of Britain. While sailors on the vessels of the Trans-Atlantic Companies sign for the round trip, sailors on most tramp steamers sign separately for a journey each way. The Union having issued a new wage scale, embodying an advance all around, seamen have been instructed to refuse to sign except under the new scale. Members of the American Union are not allowed to take the places of the strikers.

HALIFAX, Aug. 7.

Admiral Kingsmill has received a wireless from the Nobe, saying that she left Charlottetown at six o'clock to-night, and is proceeding under tow to Halifax. The Cornwall and other steamers towing are expected to reach Halifax at noon to-morrow. The Cornwall's injuries caused by touching, yesterday, are slight, and confined to the outer skin. Her seaworthiness is unimpaired.

BERLIN, Aug. 7.

For the first time since the Franco-German conversations over Agadir arose, the official North German Gazette refers to them as negotiations concerning African questions. This is apparently an admission that Morocco itself has been definitely banished from Germany's demands, and that the German Foreign Minister is now bargaining for the best compensation it can get elsewhere.

**Motorists Meeting**

A meeting of the motorists was held at the Board of Trade rooms last night with a view to forming a Motor Association, which is considered a long felt want and will, it is expected, do much good for the country. Hon. J. D. Ryan was voted to the chair. The constitution and bye-laws submitted by the committee that had been chosen at a previous meeting to do this work were adopted with a few changes. A copy will be sent to every motor car owner in the city. The rules are about the same as those of the Royal Automobile Association of England. The objects of the Association are (1) to encourage the use of motor cars and cycles amongst the people; (2) to foster the spirit of road improvements; (3) to take practical part in mending the roads, improving the surface and widening the highways, and securing such places as may be considered dangerous; and (4) to take steps for the suppression of inconsiderate driving. Amongst those present were Messrs. M. Mayers, S. K. Bell, H. J. Blatch, G. M. Barr, R. A. Squires and Dr. McLoughlin, all of whom were most enthusiastic in bringing about this inauguration of such a long felt want in the community.

**The Final Game.**

This evening the C. C. C. and N. H. football teams will play the final game in the inter-brigade football series. The line-up will be as follows:—  
C. C. C.—R. Walsh, goal; Hynes, J. Walsh, backs; Murphy, W. Hart, Rawlins, halves; B. Hart, Caul, Gear, Whalen, Rogers, forwards.  
Highlanders.—Morris, goal; Adams, Coffield, backs; McKinley, Ledingham, Butler, halves; S. Robertson, Watson, Rennie, Auckinleck, E. Robertson, forwards.

In order that the game may begin on time, players are asked to be on the ground early. The championship hangs on the result. There will therefore, no doubt, be a large gathering.

**REQUEM MASS.**—The annual Requiem Mass for the souls of the faithful departed was celebrated at the Mortuary Chapel, Belvedere, at 10 this morning. The little church was packed and hundreds were in the Cemetery kneeling at the graves of their departed relatives and friends while the Holy Sacrifice was being offered up.

**Tells Others His Secret**

Wants them to know how he was cured of itching, protruding piles by **DR. CHASE'S OINTMENT.**

Doctors usually recommend the knife as the only cure for piles. They overlook the risk, the expense and the suffering of mind and body entailed in a surgical operation.

Dr. Chase's Ointment will bring relief quickly and will cure thoroughly if you will but persist.

Mr. A. Honington, 52 Bronsdon Place, Montreal, Que., writes:—"I cannot help praising Dr. Chase's Ointment as I suffered many years with itching and protruding piles, and was cured by this ointment. I became tired of the efforts of the best specialists to cure me, and hearing of Dr. Chase's Ointment just as I had of hundreds of other medicines began its use. But oh, great joy, at the very start the sharp pains left me and I was gradually cured. I hope that every sufferer will follow my example with the same success."

Every form of piles or hemorrhoids is cured by Dr. Chase's Ointment. Get a box, at all dealers, or Ed. Manson, Bates & Co., Toronto.

**Indigestion & Dyspepsia**

In all its Forms Can be Cured.

It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything. I have no heart to exert myself, and at times I care for nothing. I often have a pain in the pit of the stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained at

**Latest From the Straits**

The S. S. Home arrived at Bay of Islands yesterday afternoon from Battle Harbor and the Straits ports. The following message was wired to the Reid Nfld. Co. by Capt. Keen:—

"Arrived at Battle Harbor at noon. Saturday; met fine weather the whole trip. Fishery still poor in the Straits; nothing doing whatever from Battle Hr. to Bonne Esperance. The same conditions apply to the Newfoundland side, except at Ha Ha Bay where traps are doing well, and getting 30 to 60 quintals each haul. At Battle Hr. there is an improvement with both hook and line and traps."

**C.E.T.S. Picnic.**

At a meeting of the C. E. T. S. held last night, arrangements were outlined for the annual picnic which will take place at Burton's Pond on Wednesday week. An active committee has been appointed to make preparations. In connection with the address of congratulation to their Majesties, sent on the occasion of the Coronation, a reply was read from the Secretary of State expressing the thanks of the King and Queen to the C. E. T. S.
