### Mr. Justice Kent On the Bench.

This morning, when the Chief Justice and Mr. Justice Johnson appeared on the Bench with their new colleagues, they were greeted by an unusually large number of members of the Law Society, who appeared in Court to tender their respects to the new Judge and to express by their presence their appreciation of the elevation of Mr. Kent to the Bench. After the motions had been disposed of, Mr. Chitt, K.C., the senior benchman present, extended the congratulations of the Bar to Mr. Justice Kent on the honor which had been done the bar by the appointment which met with their full approbation. Mr. Justice Kent would uphold the best traditions of the Court and he hoped he would live long to enjoy his new office and dignity. The Chief Justice and Mr. Justice Johnson welcomed Mr. Justice Kent to the Bench and extended their congratulations. Mr. Justice Kent then thanked his fellow Judges and his late colleagues at the bar for their kind wishes. The duties of the office demanded the exercise of the highest qualities, but he would endeavor to maintain the traditions of the Supreme Court and the high standard set by his immediate predecessor.

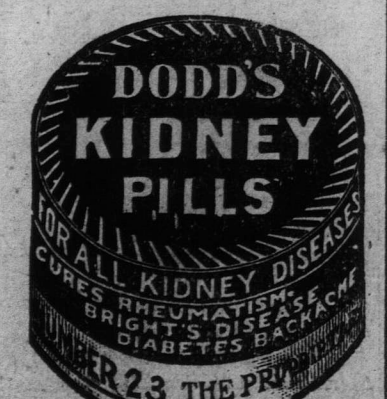

### The Co-Operation of British Admiralty.

At the time the tonnage question was acute and efforts were being made to obtain ships for the Newfoundland commerce, the Admiralty showed a strong disposition to co-operate in aiding Newfoundland, in spite of the extraordinary undertakings they had to face in dealing with the sea problems of the war. At the time of the coal shortage, the Admiralty agreed as soon as they could to allow one or more of their transports to be diverted to bring coal to Newfoundland. The same disposition was manifested in the matter of carrying salt to Newfoundland. In reply to an appeal through the Governor, Mr. Bonar Law, the Secretary for the Colonies, on March 20th sent the following despatch which was included in the correspondence tabled yesterday in the House of Assembly at the request of Mr. Lloyd:

"Admiralty prepared to allow Boliviana to call at Cadiz for cargo of salt for Newfoundland. The despatch to be informed of the name of ships at Cadiz and to whom salt is to be consigned, and also whether Government of Newfoundland is to be regarded as charterers of the ship."

By that time, thanks also to the consideration for Newfoundland shown by the Admiralty, the Alameda and Cranley had been chartered through Sir Edgar Bowring from Lord Rothes, the President of the Anglo-Newfoundland Development Co. It is a pleasing task to acknowledge the readiness of the Admiralty to go to the fullest length, consistent with national safety, to aid and co-operate in carrying on the trade in which Newfoundland industries rest.

**IN FOR REPAIRS.**—The s.s. Turbot Court, 4 days out from Louisburg, put into this port this morning for repairs to some of her machinery which gave out yesterday during the progress of a heavy gale and snow storm. The ship has a cargo of nails on board. She is in to the Reid Nfd. Co.

## SEALING REPORTS.

### Official

Via Fogo.—Sable L. Eagle, Blood-Erik, Neptune, Florizel, Samuel Blandford report their crews aboard and well.

From the Gulf.—No news was received last night owing to the telegraph lines west being interrupted.

**Gulf Fleet in the Fat—Diana Reported to be Caught in Ruffled Ice—Northern Ships Well Fished.**

A new and more encouraging phase has been put on the sealing situation by the knowledge that the four Gulf steamers have reached the whitecoats. It is believed that the total catch of seals will be a record one for twelve ships prosecuting and it is the wish which met with their full approbation. Mr. Justice Kent would uphold the best traditions of the Court and he hoped he would live long to enjoy his new office and dignity. The Chief Justice and Mr. Justice Johnson welcomed Mr. Justice Kent to the Bench and extended their congratulations. Mr. Justice Kent then thanked his fellow Judges and his late colleagues at the bar for their kind wishes. The duties of the office demanded the exercise of the highest qualities, but he would endeavor to maintain the traditions of the Supreme Court and the high standard set by his immediate predecessor.

The following are the reports received by Messrs. Bowring Bros. Ltd., from their Sealing Steamers Last Night.

Florizel—Stormy day; men have hauled to-day 7,500 seals; total stock 24,000; 220 pans on ice.

Eagle—Total on board to-day 21,000 but hard getting around to pick up pans; weather dull; blowing a gale from the S.E. all well.

Viking—Twenty miles W. by N. Byron Islands, blowing a gale from E.N.E., snowing hard at intervals; too thick to see far; now in patch; whitecoats are large size. Ranger, Diana and Seal here.

Terra Nova—Fifty miles S.E. by E. Groais Islands; on board and stowed down, 14,000.

Job Bros. received this message:—s.s. Neptune—21,000 on board; bad storm with E.S.E. wind and rain; ice very tight.

The Postmaster General received the following messages this morning from Cape Ray:

"Viking, Ranger and Seal all well, no men on ice. Diana reports ship badly squeezed and ice rafting heavily. Have ordered all other ships to stand by—Marconi station."

"The Postmaster General received the following messages this morning from Cape Ray: Diana reports still in heavy rafted ice, but considers danger over for present. Other three sealers stood by all night to render assistance if needed—Marconi station."

Messrs. Jas. Baird, Ltd., the owners of the Diana, have not been acquainted of any mishap to that ship we are informed and the only direct message they had from the Diana, came last night and read that the ship had struck the whitecoats and that a blinding snow storm prevailed. If the accident did occur, it is most regrettable and it is hoped that all danger has passed and that the Diana and her hardy crew will be able to take part in the slaughter which has no doubt commenced ere this.

### McMurdo's Store News

FRIDAY, Mar. 24, '16.  
Our Catalogue of Sutton's and other seeds that we keep is now ready to be placed in your hands, and we will gladly give you one if you call, or send one post free on receipt of your name and address. All our seeds are now open and on sale and we would urge all our customers to order at once, or as soon as possible, as we may get out of certain seeds very early in the season. Besides, at this season of the year, there is usually such a rush of orders that it is physically impossible to get off the parcels on the day on which we receive the order, which is always our aim, and thus a little delay is unavoidably caused. But by sending in your order at once, even before it seems to be needed, you will receive your parcel promptly, and help us to give all our customers our best service.

The people of Cologne, horrified and indignant in seeing the continual passage of wounded German soldiers by train from France, and disgusted at the failure of the Crown Prince's army before Verdun, have broken into rioting, necessitating the help of police and troops to keep order.

### Lieut-Col. Hadow's Appointment

15 February, 1916.  
The Secretary,  
War Office,  
Sir, Whitehall, S.W.  
O.C. 11 Nfd. Regt.

Sir,  
I understand that a change in the command of the 1st Battalion serving with the B.M.E.F. has recently taken place, but owing to the non-arrival at this office of copies of Daily Orders for period from 1915 to 1916, or any other official confirmation, I am without particulars of dates, and therefore have the honor to request that I may be informed.

1.—If and when Lieut-Colonel R. De H. Burton relinquished command?  
2.—When Lieut-Colonel A. L. Hadow assumed command?

I have, etc.

### Amusements.

#### AT THE CRESCENT.

Billie Reeves, the scream of the screen, is featured to-day at the Crescent Picture Palace in a rip-roaring Lubin Comedy entitled: "Wife's Ma Comes Back." "Coincidence," a 2 reel Biography feature with Jack Drummer, Ivan Christy, Joe. McDermott and Mary Malatesta, is one of the Roy Norton stories and is a picture of exceptional merit. "An Intercaped Vengeance" is a western drama by the Vitaphone Company; Jim Henson lives by brute force and dies in the same way, he belittles everybody and meets his just deserts. "The Rival Wailers," a dandy Kalem Comedy. This is one of the best programmes yet presented at the Crescent and no one should miss seeing it.

**BRITISH THEATRE.**  
The British Theatre was well attended last night and all were delighted with the two exciting episodes of "The Black Box" and the other pictures. To-night's programme is a particularly good one, and contains two big feature pictures with a comedy and travelogue. Cleo Madison will be seen in a beautifully acted romance entitled "The Girl in the Red Coat," which will be shown in two acts whilst Grace Cunard will be featured in a lively two-act drama "Three Bad Men and a Girl," which will be sure to please. On Monday a specially interesting programme will be seen which will include a film of modern dances featuring the two most famous dancers in the world, also a beautifully acted modern drama of love and war in three acts in which will appear Anna Little, Wm. Worthington and Herbert Hamilton, all of whom have won hosts of admirers here. To-morrow afternoon the matinee will be a straight show from 2.30 to 5 p.m., the second part of which will include "The Black Box" and Billie Ritchie.

#### WEEK-END NICKEL IS A GOOD ONE

There is a delightful show at the Nickel Theatre for the week-end. Patrons will be delighted to know that there is a most exciting episode of the "Hazard of Helen" entitled "A Girl's Grit." There is a two-part dramatic masterpiece entitled "Merely Players." This is a marvelous and powerful story produced in a most effective manner. "The Ebb Tide" is a special in three parts with a vivid and most impressive story. "Wildfire Amore" is a whirlwind Keystone comedy which will put everyone in good humor. The special bumper matinee for children takes place to-morrow afternoon with special pictures for the little ones. They should attend early to avoid the rush.

## Spring.

By GEORGE FITCH,  
Author of "At Good Old St. John's."

On this date, according to the almanac, gentle spring is supposed to steal sweetly into the world, bringing with it joy and early vegetables. As a rule, however, the almanac is one of the most popular works of fiction.

Spring is the most famous of all the four seasons, because poets have been busy advertising it for hundreds of years. When we consider that one poet, working under hours, can make half the world eat "Busted Bran" under the supposition that it will make clothes wear longer, it is no wonder that a thousand poets have made spring popular, and have given it a reputation that the Garden of Eden never had.

Spring consists of a blue sky trimmed with rain clouds, a warm, seductive breeze lined with rain, hail and snow, and a green mushy earth with crocuses and mud puddles all over it. It is not as pleasant a season as early summer or early fall, but it is much beloved, because it follows winter, and it feels as good to the frost-bitten citizen as a piece of petrifaction would taste to an Arctic explorer who has been living on fried boot heel.

In spring the birds come back from the South and take up their regular jobs as alarm clocks. The trees begin to leave and the tired man takes his coal shovel out of the cellar and digs up the back yard with it in the hope of production turnips as large as footballs. The politician cheers up and goes after a new office, while the young man walks around at night, in the maddening moonlight with his best girl, and when she smiles at him the whole universe turns pink and rosy, and electric sparks a mile long stab him in his leaving heart.

Spring, however, is one of our most reprehensible swindles. It is forever working a confidence game on man, by tempting him forth in the morning in light clothes and gauze underwear and then assailing him with a blizzard and sending him into the repair shop with clogged flues, a rusty backbone, and a head that feels like a balloon stuffed with buzz saws. On this account spring must be enjoyed cautiously and with mental reservations like a reform candidate, and the man who plunges forth in the shank of a delightful April day without an umbrella, a fur coat and a life-preserver is not wise.

### At First Class Druggists Sell Salvia Hair Tonic

SALVIA destroys dandruff in ten days.

The roots of the hair are so nourished and fed that a new crop of hair springs up, to the amazement and delight of the user. The hair is made soft and fluffy. Like all American preparations SALVIA is daintily perfumed. It is hard to find an actress who does not use SALVIA continually.

### Irish Nationalists Affirm Loyalty.

Liverpool, March 17.—The Irish Nationalists celebrating St. Patrick's Day under the chairmanship of T. P. O'Connor, last evening passed the following resolution:

"The Irish Nationalists of Liverpool believe they cannot celebrate the national anniversary more fittingly and more in accord with Ireland's struggle and position than by re-affirming their inflexible determination to give full support to the Allies in defence of the cause of freedom, democracy, and the small nations, and the civilization of the world."

Mr. O'Connor announced that 250,000 Irishmen had joined the army.

### WHAT CAUSES COLDS?

This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements. This is the important reason why Scott's Emulsion should always be taken for colds, and it does more—builds strength to prevent sickness. Scott's Emulsion contains Nature's rare strength building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs. Sold at drug stores—always get the genuine.

## HENRY BLAIR

### Breaking It Gently.

He prided himself on his coolness in all circumstances, did Brown. One day he strolled into a friend's office and remarked in a casual voice:

"Just had a chat with your wife, old chap."

"That so?" remarked his friend. "Why, I didn't know she was in town to-day."

"Oh, she wasn't in town. I called at your house as I passed."

"But surely she wasn't receiving visitors?" exclaimed his friend in surprise. "She said she had a bad head-

ache when I started this morning."

"She didn't mention it to me," said Brown quietly. "But then there was such a crowd at the house that she couldn't talk much."

"A crowd?" gasped the other man. "Yes; they came with the fire engine."

"The fire engine?" came in a bellow from between the white lips of the startled householder.

"Keep cool, old chap," said Brown soothingly. "It wasn't much of a fire, and they soon got it out. But I thought you might like to hear about it!"

### \$91,000,000 War Beef Contract

American Packers Get Part of British Order for 600,000,000 Pounds Cans of Stew—Contract Handled by New Syndicate Formed in Montreal.

The British Government has awarded a contract for 600,000,000 one pound cans of beef stew for use as army rations. It became known yesterday. The huge contract, the aggregate value of which is \$91,000,000, was given to a new corporation, known as the Imperial Canning, Ltd., of Montreal. Already this concern has begun to apportion the business among American and Canadian packers, wholesale grocers and canners. This is declared to be the largest single order for army rations placed in this country or Canada.

The Imperial Canning, Ltd., is the name of a holding company organized for the special purpose of taking over the British order for rations and arranging for filling the requisition by qualified packers and others in the United States and Canada. The Co. is capitalised at a nominal sum and composed of the following corporations: J. T. Polk & Co., of Indianapolis (Ind.); Burnham & Morrell, of Portland (Me.); the Colonial Packing Company, of Philadelphia; and Gann's Ltd., of Toronto. The parceling out of the business of the great contract was begun at a recent conference of about fifteen men in the Astor Hotel. It is set forth in the specifications that the rations called for involve a specially prepared beef stew in cans weighing one pound when filled. Each can is to contain eight ounces of beef, four ounces of rice, one ounce of beans, one ounce of onions, one ounce of carrots and an ounce of liquid.

Deliveries on the order are to begin within forty days after a credit approximating nearly \$91,000,000 has been established by the British Government, and the whole contract is to be filled within the next twelve months. It is understood the order for the tin can wheeling has been awarded to the Wheeling Can Company of Wheeling (W. Va.). According to those interested in the contract it will require about 300,000,000 pounds of beef and about 1,500,000 bags of rice, together with millions of pounds of white beans, carrots and onions. Among the American concerns which are to help fill the order are Libby, McNeill & Libby, Francis H. Leggett, the Campbell Soup Company, the Franco-American Soup Company, Swift & Co., Armour & Co., Gann & Co., and other concerns in different sections of the United States and Canada controlled by the four principal companies forming the Imperial Canning, Ltd.

A report that part of the supplies are to be sent to French and Russian troops is denied, it being declared the entire order is for British troops.

### Soldiers Get Leave to Work on Farms.

The Military authorities have decided to grant a month's leave to soldiers who desire to work on farms during the spring seeding operations. The men will be provided with return transportation to and from any locality, not exceeding a distance of 200 miles from the station or camp where they are in training. Pay and allowances withheld during the period of furlough will be paid on return. Each man must produce proof that he was bona fide engaged in farm work any man who misconducts himself during furlough will be liable to forfeit his pay and allowances for such period as may be determined.

We presume this order will apply to those who may desire to work for farmers, as well as to those who may wish to return to their own farms to do the spring seeding. In any case it will help somewhat in the spring work. An opportunity, however, should be given farmers to apply to proper officers for help. Some plan should be adopted for bringing the farmers who need help for a month, in touch with the soldiers who wish to spend a few weeks on the farm. As we understand it, there is nothing compulsory about the order, and consequently some arrangements should be made for receiving applications from farmers who may wish to take advantage of this opportunity.—Canadian Farmer.
