The peroneous tertius is a muscle and anxious—yet there was a look of at the church. There were no cases of which holds up the upper portion of rappiness on her fair face. In the instantaneous relief, but several who the human foot, and never has been midst of the gloom and the darkness there was a ray of light for herpletely without vanity or coquetry so simple and sweet; in her busy life she had had but little time to think of love and lovers. Deep in her heart lay a dim vague knowledge, half hope, half fear, that some day or other this beautiful dream would come to her.

She could not be unhappy while thoughts of "Glen" pierced the gloom All the fatigue of the night and the labor of the day had been as nothing to her, because of her thoughts of him. She did not own to herself that she loved him and was ready to give her love unsought; but she knew that if he loved her, as she had now some reason to believe he did, she would e the happiest girl on earth. How andsome he was, how noble, how good! What a knightly face was his, what a courtly manner! She could inderstand now the true meaning of the word "gentleman." And, while she was thinking of him, while the amber louds rested on the water, he stood iddenly by her side. No rose ever ushed more sweetly; her whole fac anged; her eyes welcomed him, an id what her lips could not utter.

Will here ever be "radium rushes" to at-It fights film This method combats the film on teeth—that viscous coat you feel. Film is the teeth's great enemy. It clings to teeth, gets between the teeth and stays.

If so, the rushes will probably be in the direction of Brazil, where rich mineral substances producing radium have lately been discovered.

have lately been discovered.

Large lumps of brown mineral were found buried in the soil of a hill. These mineral lumps are named euxemite, and they contain from six to ten per cent. of uranjum, appearing in the form, when the euxemite is broken open of a brilliant black substance. The uranjum, in its form, produces the radium

Uranium oxide is worth from £140 to £250 per ton and some twenty tons have been taken out of the hill. If the hill produces all that is expected by the small syndicate working it, it will be a hill of fortune.

Afraid of the Bank.

No amount of persuading will ge the natives of Dutch Quiana to pu

neir savings in the bank.
Somehow, they have a dread anks. Not that they fear robbers, o hat the money would not be there when wanted. But once a native has saved money, he likes to look at it a day long; to keep it within easy reach and be able to show his friends how successful and thrifty he has been.
This could not happen if he banked
the money as we do.

Because the average Guiana native loss not believe in banks, he does not burden himself with his wealth. In stead he makes his wife his banker Then the women carry upon their person all the family savings n the shape of heavy bracelets, anklets, klaces, rngs, and even crowns of gold and silver, inset with pre
