

SPORTOGRAPHS

GUARDS PLAY FEILDIAINS TO-NIGHT.

Lack of interest, or in some cases no doubt pressure of business, prevented any delegate of the various clubs other than that of the Feildians from attending the special meeting of the League called yesterday forenoon to deal with the matter of the protest against one of the goals scored by the Guards against the Feildians in their Cup game which consisted in a draw. Those present consisted of President Higgins, Vice-President Hunt, Secretary Harris, Mr. Ewen Henebury, one of the linesmen and the following Feildian officials viz: Captain Ewing, Secretary Hayward, and Mr. C. E. A. Jeffrey, League delegate. The protest read as follows:—"In view of the circumstances stated below, under which Mr. C. Quick, the referee, in the match Feildians vs. Guards, awarded the first goal to the latter team, I am directed by the Feildian team to enter a protest, and request you to call a meeting of the League to consider same.

1. At the time when the incident occurred the referee was nearly in mid-field.

2. From that position it was impossible to decide whether or not the ball crossed the goal line.

3. His chances of obtaining a clear view were prevented by a number of players who obstructed his view.

4. The whistle was not blown until the ball was handled by one of the

opposing players and was kicked back.

5. He did not refer to his linesman for their opinion.

6. Both linesmen agree that the ball did not cross the goal line."

Despite the fact that the protest was dated September 11th, the League did not take any action until yesterday morning when the special meeting to deal with it was advertised in the News. In the meantime the Feildians had refused to play until the protest had been dealt with officially. In view of the absence of all other delegates the meeting was only an informal one in a sense, and no vote was taken on the matter owing to the fact pointed out by the President, such a protest could not be entertained as such an occurrence as that on which it was based is covered by rule No. 13 which states: "A referee shall be appointed, whose duty it shall be to enforce the laws and decide all disputed points; and his decision on points of fact shall be final." Rule 10 states that protests may be made only on the question of the interpretation of the Rules of the League or laws of the game. Points 1, 2, 3, 4 of the protest are automatically dealt with by this rule. As regards points 5 and 6 the linesmen apparently are not to be consulted, for their duties are clearly defined by Rule 14 of the Football League which states: "Two linesmen shall be appointed whose duty (subject to the decision of the referee) shall be to decide when the

ball is out of play, and which side is entitled to the corner kick, goal kick, or throw-in, and to assist the Referee in carrying out the game in accordance with the Laws." The opinion of the linesmen in such a matter therefore goes to naught.

The result of the meeting was that it was proven to all concerned that there was no justification for the protest, and that the game would stand as played in the League records. As it resulted in a draw it was ordered that it be replayed to-night. The Feildians, however, were given the option of choosing another referee for to-night's game if they so desired. And thus ended what might be termed "a tempest in a tea pot."

BOWLING ALLEY RE-OPENS MONDAY.

The bowling alley at the King George V. Institute will be opened for the season on Monday night. It has been thoroughly cleaned and renovated; the floors planed and polished; and the placing of new additional appearance. Meetings of the Club, Mercantile and Bankers Leagues will be held shortly to draw up their various schedules. Bowling is a very healthy form of exercise and last winter the alleys were going from morning until night.

INTERESTING PHOTOS.

Mr. Stan Cullen brought home from Halifax over one hundred large photos of the athletes in action in the Canadian Championships which are very interesting. It is suggested that they be displayed in one of the Water Street stores so as to give athletic enthusiasts a chance of seeing the champions of the land of the Maple Leaf.

LAST NIGHT'S FOOTBALL.

Owing to the fact that the Saints-C.E.I. game was twenty-five minutes late in starting, the natural result was that nearly all the final period was played in the dark. However, this did not materially affect the game as the Saints put the game on ice in its early stages, when shortly after the kick-off Elton and Bert Sawyers banged in one each. In the second half Foster and Sawyers did likewise, blanketing the Institute lads, and trotting home with a 4 to 0 victory. Owing to its being so one-sided there was very little interest in it for the fans, though on occasional moments some very brilliant flashes were witnessed. Some of Belbin's goalkeeping was really spectacular.

JUNIOR GAME TO-NIGHT.

Wesley and St. Mary's will be the contestants at the St. Bon's football ground to-night. Wesley must win in order to occupy the same perch on the championship ladder. The Holy Cross and the Cadets, in which case a play-off between all three will be necessary.

NFLD. TEAM'S DIARY.

(Continued.)

Friday, Sept. 14.—Up at 8 a.m. After breakfast walked over Quispool Road and Alrindale Hill (part of the 10 mile road race course). Visited Simpson's Mail Order House, then back to Wanderer's Grounds to see if anyone is training and find out order of events on programme to-morrow. After dinner went for walk. After tea called on Mr. Frank Rice. Back to "Y" and to bed at 8.30. Pimple of O'Toole's right leg developed into a boil.

Saturday, Sept. 15.—(Day of Races).—Up at 8 a.m. and had good breakfast. Back to "Y". Had short rest. Then prepared for races. Had light dinner. Went to Wanderer's grounds at noon as advised and watched other athletes prepare for their events. Very interesting to see visiting athletes warm up for their events and the clothing they wore to keep them warm while waiting to be called to the starting line. All competitors and trainers assigned to seats in space roped off in centre of field to await their event. The announcer first gave a warning to get ready; then called them to the starting point and set them off without delay. Events are not run in order printed on the program, but is left to the referee who runs the programme as he thinks fit, and no one dare dispute his judgement as he has power to have anyone removed from the field or grounds. In addition he has a police officer in uniform to enforce his decisions, and no interference whatever is tolerated. Back to "Y" after sports. Team very much disappointed over results. Bed 10 o'clock. O'Toole's leg very sore.

Received messages from N.A.A.A.: Messrs. E. J. Goodland and J. M. Tobin. Wired result of races.

Sunday.—(Racing and cold).—Had breakfast and luncheon at Wanderer's Hotel as guests of Mr. R. E. Innes. Drove over Mail 10 Mile Course. It is certainly a much harder course than ours, the road being both bad and hilly, but I personally think it is shorter as I understand it was measured with a motor car speedometer. Back to "Y" after tea. To bed early as it was too cold to go out and nothing to do.

Monday.—(Cold and raining).—Up at 8 a.m. After breakfast went to steamship office to confirm booking of passage on board Silvia. After dinner made round of shops. After tea to see Jimmy Evans's show at Strand. To

bed at 10 o'clock. Burnell developing hell on hip.

Tuesday.—Up at 7.30, weather still bad. After breakfast put luggage on board Silvia, then made round of town to say good bye to friends we met since arriving at Halifax. Johnnie Dee (Wanderer's trainer) to the boat to say good bye to team. Left Halifax for home at 2 o'clock. Concert on deck after tea, and continued later in smoking room under the direction of Mr. O'Toole. Boat steady and team keeping well.

Wednesday.—(Fine and clear).—The team, minus manager, to breakfast, and having good time—not missing a meal so far. At night received wireless message welcoming us home from N.A.A.A. which was very much appreciated as team not feeling happy over coming home without winning. Burnell's hip making great headway. O'Toole's boll broke.

Thursday.—Early breakfast, all present. Reached wharf 9 a.m. where we were met by Secretary of N.A.A.A. and so ended the trip.

NOTES.

During our stay in Halifax we were treated well by everyone we met; but special thanks are due Mr. Coke Cahill and Mr. John Dee, who both did all in their power to make our trip a pleasant one and gave us every assistance possible during our training. We also wish to thank Messrs. E. J. Goodland and Bob Knight, who so kindly gave up their berths on the Silvia to the team. Also Mr. Eric Robertson who gave every variable assistance.

NEEDS ELUCIDATION?

Dear Sir.—I noticed by this morning's "News" that it is understood Mr. Chas. Quick will play with the Guards to-night. Might I ask the A.A.A. if Mr. Quick has now any amateur status, considering the fact that he is "professionally" engaged as referee for the season. Perhaps you could obtain the ruling governing such cases, and find room for publication of same.

Yours truly,

"SPURS."

LEAGUE RULING.

With regard to the above, we placed the contents before President Higgins of the Football League, who states that so far as football is concerned the only rule governing the amateur status of any player is that no player shall accept payment to play for any club (rule 6). For instance the man who rows in the Laborer's and Fishermen's Race and accepts the usual two dollars an hour for winning, is not debarred from playing football, provided that the Club he plays for does not pay him for his services. Despite the fact therefore that Mr. Quick is a paid official of the League, this would not prevent his playing with any Club at any time, should he so desire. The Football League is not controlled by nor does it conform to A.A.A. rules.

TO-NIGHT.—M. G. Band Concert, Victoria Park.

A Practical Suggestion.

Editor Evening Telegram.
Dear Sir.—In reference to the Japanese Disaster Fund, I would suggest the advisability of using the amount collected to purchase some of the 1922 fish now lying in the Mediterranean ports and forward via the Suez Canal. This would relieve the competition there and improve the market for 1923 fish. It is quite possible that if the Importers' Association got busy the sale of a substantial amount of this fish could be made to some of the Red Cross Societies of England or Canada for shipment to Japan, as thousands of tons of foodstuffs are now being purchased in various countries for this purpose.

Yours truly,

CITIZEN.

St. John's, Sept. 20, 1923.

AT THE CRESCENT TO-NIGHT.—The star turn at the Crescent Amateur show to-night will be Frank O'Malley, War Veteran. Don't miss him. Caruso and McCormack beaten a mile.

Salvation Army's Great Loss in Japan.

Colonel Thomas Cloud, Leader of the Salvation Army Forces in Newfoundland, has just received word from the International Headquarters, London, England, to say that Army's Headquarters for Japan has been completely destroyed by fire, in connection with the great disaster.

Brigadier Sashida, Editor of the War Cry, and all other periodicals, has been killed. Also Major Sakai, Principal of our Training College, attached to the Headquarters of Japan. These are two of the Army's most brilliant Japanese Officers, who have taken many years to train. There are also others of the Headquarters Staff missing, and a score of them seriously injured. Mrs. Badie, wife of Commissioner Eadie, who is in charge of the Army's work in Japan, is missing, and the fate of all the Field Officers in Tokyo is uncertain. For this reason the Colonel is anxious that every citizen should do their utmost in connection with his Excellency the Governor's appeal published a few days ago, to alleviate the distress caused by this great disaster.

Labrador Report.

AVERAGE CATCH 650 QTLS. PER SCHOONER.

The Coastal Department has received the following report from Capt. Barbour of S.S. Senet:—"North as far as Hebron the weather is fair. All schooners have gone south except seven which are north of Davis Island. The number of schooners north of Hopedale this year is fifty-four and the average catch about 650 quintals. The loss of traps and wreckage of fishing gear this year has been very great and unless good prices are obtained for the voyage, it will be poor encouragement for the industry another season."

PERJURY CASE AT TWILLINGATE.

The Supreme Court on Circuit is still at Twillingate session being held to-day has to deal with a charge of perjury arising out of the recent general elections. As far as can be learned, the accused on election day took oath that he was 21 years old, and as a consequence had his name put on the supernumerary list. It is charged now that he is but eighteen years old. Two other matters tried at Twillingate had to do with offences against the Persons Act. In one case the accused was convicted. In the other a plea of not guilty was entered.

Game Reported Plentiful.

Reports to the Game and Inland Fisheries Board state that birds are more plentiful on the Southern Shore than for the past couple of years. At Trepassy, St. Shott's and on the Colinet barrens good shooting is to be had, rabbits in these sections are however scarce. The Cape Shore grounds offers excellent sport this season.
