

Although the fall wheat in Maryboro' was considerably injured by winter frosts, the crops never were better. Robert Hamilton thrashed from 30 acres, 700 bushels of spring wheat of a splendid sample; John Simson thrashed from 11 acres, 900 bushels; Geo. Fleet 800 bushels, giving an average that has never been realized before.

The balloon in which Durout and his wife made their perilous ascent from Calais, France, has been found in the North Sea, 150 miles from Christianand, and has been placed on exhibition at the Crystal Palace, London, together with a compass, a stopped watch, a discoloured log-book, and other articles saved with the adventurous aeronaut.

The boys of New York profess to be perfectly independent of the society men, as they have plenty of good managers for work. They believe that many of the Unionists will desert the Society. The Union men of course are, as usual, confident in victory.

The price of wheat has been gradually lowering for the past few weeks, and the prospects are that another month or so it will be down to 75 or 80 cents per bushel. Prophecy is not in our line, but we would advise farmers to sell their wheat as soon as possible. The world seems well supplied with wheat—Russia, France and the United States, all great wheat growing countries, have crops as bountiful as Canada, or nearly so.

M. Guizot has left a will, in which he makes a profession of his faith. He says that he dies in the bosom of the Christian Reformed Church of France; that he has engaged, and even doubted, but that he has returned to the convictions in which he was reared, and that he believes in God, and bows before the mysteries of the Bible and the Gospel.

THE SYMPTOMS OF MENTAL decay resemble the gradual changes that come over old people, and are similar to those induced by excesses and bad habits, and the tendency is to the production of softening of the brain and insanity. The cause is the decay of the system, as it is well known that man grows older and mentally weaker when the nervous system is insufficiently supplied with these elements—the solidity of the brain depending upon phosphoric acid, calcium sugar, Dr. Williams' Compound Elastic of Phosphates and Calcium contain these agents in an easily assimilable form, constituting a brain and nerve food. SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slat may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slat, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS NOR SCALES. For Fenestras it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheeting Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP! Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is Used in this Composition, therefore, it does not affect the water from the roof, if turned off from the eaves before the first few rains. On the water from the roof, if turned off from the eaves before the first few rains. On the water from the roof, if turned off from the eaves before the first few rains.

ROOFS EXAMINED. ESTIMATES GIVEN. And when required will be Thoroughly Repaired. Orders Respectfully Solicited.
