## A Real Innovation

Drug Stores from the time they become "drug stores" have until recently remained open at night, until the last man on the street with a sickle had spent it or gone home. During the last few years there has been an easing up. Many stores closing at nine and some at eight o'clock.

Closing at 6.30 p. m.

To enable the clerk (and yours truly) to get just a little more real enjoyment out of life, as we go along. This store will after Jan. 1st, close at 6.30 p.m., except Saturdays. This may cause you some little inconvenience, but you will soon get used to it and do your drug store shopping early, as you have learned to do in dry goods and other articles.

Remember the White Drug Store closes at 6.30 p.m. Show your approval of this move by extra business here.

ERN A. CAUGHELL  
THE WHITE DRUG STORE

## Willard SERVICE STATION

### WINTER STORAGE

Send your battery to be stored until you need it. The additional security and convenience of leaving this to the Service Station far outweighs the moderate expense. Willard Service Stations are responsible to over four million battery owners and they can be trusted to do the job right. Your storage battery is too valuable to be put in the hands of anybody but an expert.
