### WEDNESDAY'S GAME AT HAMILTON.

[From the Times.]

Lost.

A new sensation.

No good reason for it.

An unlucky thirteen.

And Jimmy Cockman did it.

In first place—not today.

Well! There's no kick coming, any way.

The Londoners acted like wild Indians in the ninth.

Popkay allowed five Londoners to coach from the bench at once.

Cooper is going backwards as a pitcher, but is developing into a hitter.

A little head work at several critical stages would have made a victory easy for Hamilton.

There's a safe way to make double plays. It is not by chasing a runner around the field.

The Londoners bluffed the umpire into changing a decision in the sixth.

Conwell fooled himself out of a hit by not making his drive sure by a hard sprint.

It was a very hard game to umpire, and probably few in the business could have done better than Popkay.

It is to be hoped that the six errors will be enough for the whole home series.

### SKEPTICISM.—This is unhappily an age of skepticism, but there is one point upon which persons acquainted with the subject agree, namely, that Dr. Thomas' Electric Oil is a medicine which can be relied upon to cure a cough, remove pain, heal sores of various kinds, and benefit any inflammation of the body to which it is applied.

Fargo, N. D., with a population of less than 11,000, has 88 secret societies.

The dangerous work of coal mining is approximately a third as fatal as the battlefield, for of every 1,000 miners 23.2 are killed every year in the performance of their work.
