

AUGUST 29

GRAVE CRISIS IN NICARAGUA

U. S. Force Landed at the
Capital of Turbulent
Republic.

GREAT HOSTILITY TO AMERICANS

Fleet With Reinforcements Wait-
ing at Corinto—Insurgents
Controlling Situation.

On board President Taft's train, Rochester, Aug. 28. — President Taft tonight rescinded his twelve-hour order directing the immediate dispatch from Panama to Nicaragua of the Tenth Infantry. From his private car in the Rochester yard, the President wired to the acting Secretary of War to recall the order. A sufficient force of marines, the President said tonight, would be in Managua, the Nicaraguan capital, and Corinto, its principal seaport, early next week to insure the safety of American lives and property.

Corinto, Nicaragua, Aug. 27. — Commander Warren J. Terhune and a force of two hundred American sailors and marines from the gunboat Annapolis and the collier Justin, now lying in Corinto harbor, today succeeded in forcing their way through territory controlled by the revolutionaries to Leon, the town midway between the Pacific coast and Lake Managua, where the Liberals rose in arms on Aug. 19 and in the dead of night massacred the sleeping soldiers of the garrison.

The American force found the Liberals hostile to their advance, and it became necessary for Commander Terhune to threaten to attack Leon before the insurgents would allow the train bearing the American detachment to enter the town. Rioting has subsided and the Americans found the city resuming its normal appearance. One hundred of the marines have proceeded to Managua, the capital.

The United States steamer, with reinforcements of marines and bluejackets has arrived here. The cruiser California with a further detachment of marines is expected to reach this port tomorrow. The revolutionaries control Chinandega, a city with a population of about twelve thousand and the capital of a department of the same name, and it is one of the chief desires of the rebels to capture Corinto, which is Chinandega's port, and with which it is connected by rail. All attempts of the insurgents to capture this seaport so far have been prevented by the armed force from the United States cruiser Annapolis. Advises reaching here from the capital say that all is quiet there.

Managua is the only large city in the northern department, with the exception of Corinto, to remain under the control of the Government forces. Advises reaching here from the capital say that all is quiet there.

ACCUSED MEN WERE RENOMINATED

Seven Aldermen Charged With
Bribery, Victors at Detroit
Primaries.

RESULTS IN MICHIGAN

Mayor Thompson, Winner of Close Con-
test For Democratic Mayoralty
Nomination.

Detroit, Aug. 28.—A feature of the local primaries was the victory of seven of the aldermen recently arrested on bribery charges in their contests for renomination. It was reported during the day that Ald. Thomas E. Glinnan, charged by the prosecutor with having received the largest bribe of any of the accused officials, was one of the victorious candidates. Later returns, however, indicated that he had been defeated by an extremely close vote.

Scattered returns that are still coming in from yesterday's state-wide primary election show clearly that the few contests that existed on the state tickets were all bitterly fought. Results from forty-nine counties give Amos S. Musselman, of Grand Rapids, 3,488 majority over his only opponent, Secretary of State F. C. Martindale. A great part of the upper peninsula returns are not yet in, and the Martindale forces are claiming that the northern vote will seriously reduce Musselman's majority. It is generally conceded, however, that the latter had won the victory.

The race for the Democratic nomination for mayor of Detroit was the closest contest of its kind locally in years. An official count of 133, out of the city 177 precincts, gave Mayor William B. Thompson a majority of 551 over Police Justice E. J. Jeffries. Oscar B. Marx, Republican candidate for mayor, led his only opponent, Proctor K. Owens, by more than 7,000. Horatio S. Earle is leading his two opponents for the Progressive nomination for mayor.

FELL SIXTY FEET AND ESCAPED WITH BRUISES

John Smith Had a Very Close
Call While Cleaning Well
at Zurich.

[Special to The Advertiser.]
Zurich, Aug. 29.—John Smith, son of Wendel Smith, had a wonderful escape from death, when he missed his footing while cleaning a 60-foot well and fell to the bottom. With the exception of some cuts and bruises and a bad fright, Mr. Smith escaped unhurt.

Mr. C. Hartlieb, whose tender was accepted for the heating apparatus of the new school, has received the outfit from London. Two furnaces of the larger size will be installed in the course of a few days.

Work on the new schoolhouse is progressing nicely. The brickwork is being nearly finished. The contractors are confident that they will complete the job on schedule time. Until the new building is finished, the town hall and Baptist Church will be used as schoolrooms.

A Busy Place.
The early settlers of this village were mostly German, although a Swiss named Frederick Knell, was the pioneer of the village site, being the first storekeeper and postmaster. He all gave the name Zurich to the village, in reference to the city of his birth in Switzerland. This was in the year 1857.

The commercial and industrial institutions of the village then and now differ some. The population then was 600, now some less; but the number of industries has increased. Zurich has at the present time three general stores, two hardware stores, one drug store, two merchant stores, two harness shops, one carriage factory, one flour mill, two flax mills, one planing mill, one sawmill, two saws, five churches (Lutheran, Catholic, Methodist, Baptist and Menonite), a public school, a postoffice with mail twice daily from Hensall (six miles away), and once daily from St. Joseph, a town hall, which is used for council meetings, court sittings and public entertainments. There is also a stage of fair proportions. There is also a cooper shop, a bakery, confectionery, flour and feed store, jewelry store, bicycle repair shop, two barber shops, butcher shop, newspaper, three stables, three blacksmith shops, a stock dealer, an auctioneer and four doctors.

TAFT MAY CARRY SEVEN

The Rest of the States Roosevelt
Modestly Claims for Himself.

New York, Aug. 28.—Col. Roosevelt begins tomorrow morning the first lap of his speaking campaign, which is to last until the middle of October. He will talk in Bennington, Vermont, and later in the day at Rutland, Middlebury and Burlington. Discussing the outlook today, the colonel said:

"Of course, Vermont is one of the states—there are not more than five or six others—which I have thought of as likely to go for Mr. Taft."

WILL NOT UNITE.
[Special to The Advertiser.]
Harriston, Aug. 28.—The question of uniting the two Presbyterian churches, which has been hanging fire for several weeks, was thrashed out last evening, when it was unanimously agreed that Guthrie Church was to have a minister of its own. A pastor will be called shortly.

REAL ABILITY WINS OVER MERE BEAUTY

THOUSANDS OF WOMEN TESTIFY
THAT BEAUTY IS ONLY "CELL-
ING PLASTER" IN LIFE'S
RACE.

Many suffragette stenographers have given their testimony this week to the eclipsing of beauty by ability.

Ability is The Advertiser's choice, picked to win and played against any odds in the race of life.

Beauty runs only as a close second according to the story which all the pretty stenographers, who have set the heads of the dictionary distributors whirling by their charming beauty, said this week.

The girls are getting the book that will make errors in their office work only the result of rank neglect to profit from an ever-present help.

"We don't want your pity—we want 'em," is the slogan of the suffragette stenographers, who declare that they wish to make ability such a necessity to employment that the low-wage and the frequent reprimand, will soon become relics of a forgotten past and "woman" will occupy the same position as "man" in the business world.

If you believe in woman's suffrage, help to place her in the same class as her man associate in business.

If you are a woman, do not depend upon your beauty to protect you from reprimand—win respect and admiration by your ability.

Every working woman, every suffragist should secure the error eliminator known as The Advertiser's Dictionary.

The last week has been a greater success than was anticipated. Hundreds of men and women have been brought to realize that their ignorance of English is their real bar to success, and that the use of the handy helper of The Advertiser's Dictionary is the real means to overcome the shortcoming.

Six consecutive coupons and a small expense bonus get the book for you.

MR. SNOWDEN SEES LLOYD GEORGE OUT

Believes Chancellor Will Resign
From Cabinet and Form
New Party.

CLASH WITH CHURCHILL

Thinks Welshman Could Carry With
Him More Formidable Faction
Than Chamberlain.

London, Aug. 29.—The discussion of the prospect of Lloyd George imitating Joseph Chamberlain by resigning from the ministry and starting out as a free lance in politics was renewed last week by an article by Philip Snowden, M. P., in the Christian Commonwealth. Mr. Snowden, who is regarded as the most intellectual of the Labor members of Parliament, plainly expects some such result from the rivalry between Lloyd George and Winston Churchill, which those who have the inside track say to regard as having grown to something more than rivalry, and amounting to jealousy and veiled hostility.

Mr. Snowden, who is a Georgist, says if the latter succeeds from the cabinet it will be because he has been driven out of the party by the imperialistic big navy ideas of his colleagues. In the Snowden's opinion, Lloyd George will not be a land acquisition merely, but to launch a radical, collectivist, coalition party to lead which development no man is better fitted.

Mr. Snowden says Lloyd George will carry a more formidable faction out of Radicalism than did Joseph Chamberlain in 1896. The remnant of the present Liberals is so weak, he says, that it will be compelled to join the ranks of the Conservative Unionists, with whom Snowden declares they already, as a big, have much in common. Snowden thinks that Lloyd George will then head a strong, aggressive, radical, democratic party, which will go far along the lines of socio-economic "reform."

Mr. Snowden holds that Lloyd George has overwhelming popular support. He argues that the recent by-elections prove that the people are in favor of Lloyd George's radical program. He thinks that even the East Manchester defeat proves this, as it was due partly to the temporary unpopularity of the insurance act and partly to the action of the Unionists in dropping the tariff reform cry, thus remustering their full strength in a constituency which is essentially Unionist.

This somewhat novel view finds opponents and adherents accordingly to party predilections. On the whole many people are ready to welcome such a move on Mr. George's part as clarifying the political situation and enabling the electorate to know where they are at and to vote decisively without complications on the issues between Radicalism and Conservatism.

Mrs. Peugh met instant death when an automobile in which she, her husband and 10-months-old son were riding, ran into an express wagon.

A part of the wagon penetrated Mrs. Peugh's left side and she died instantly. Neither of the other occupants of the auto was injured.

Messrs. D. McDonald, D. McKenzie, A. Atchison and J. Phillips have left for different points in the west. A large number expect to go next Friday. The farmers here will be very short of help then, as owing to the continued wet weather there is a great amount of grain to cut, and all spring grain that is cut is still too wet to be taken in to the barns.

WANTED TO DIE

Edward Alexander Found With Knot About His Neck.

[Special to The Advertiser.]
Stratford, Aug. 28.—Edward Alexander, a farm laborer from near Harmony, was brought into the local police station early today and locked up as a dangerous lunatic, and also on a charge of attempted suicide. Yesterday he was found in a field with a handkerchief tied tightly about his neck, slipknot fashion, with the other end fastened to his wrist, so that it could be tightened to cause strangulation. When found he was unconscious, and it is supposed that he had been lying that way for some time.

A doctor who was summoned from Stratford recommended that the man be taken to the police station and locked up, as the prisoner, who is a big, husky man, is troubled with convulsions, which likely have unbalanced his mind. He has spent two years in the Toronto asylum.

HOG CHOLERA OUTBREAK.
[Special to The Advertiser.]

**When Larry and Harry, and Molly and May
Jumped out of their beds at the peep of the day,
They invaded the kitchen and held up the cook,
And from that poor lady her Toasties all took;
And then the wee bandits—of course it's no wonder—
Sat down and ate up every speck of their plunder.**
